SAFETY IS VERY IMPORTANT TO HIGHFIELDS PIONEERVILLAGE, MUSEUM & PARK INC.

Please **DO NOT** lean over and try to pickup items from the ground or try and touch trees and rail side fixtures when the train are moving as you can cause the train to derail. Please **DO NOT** lean over for any reason.

Again...we ask that patrons **DO NOT** use cameras while the train are moving as you can cause the train to derail by leaning out or taking selfies. This includes still cameras, video cameras AND mobile phones that have camera abilities.

Please be aware that the steam locomotives are **HOT** and as such can cause you to be burned. We don't mind people looking but please keep young inquisitive children away from the locomotive. This is a real steam locomotive, using real coal, real fire and real water to make real steam for it's propulsion. The only difference between these locomotives and full sized locomotives is their size. They work in exactly the same way as full sized locomotives.

THESE RULES ARE FOR YOUR SAFETY AND OURS.....BECAUSE WE CARE.

If an incident does occur and someone is injured, PLEASE report this to the person at the Ticket Sales Table.

There is a stocked First Aid Kit at the Ticket Sales Table that you can use if required.
