

Electronics

Mayflower is a leader in high-tech electronics transportation. From computer equipment to copiers to ATMs, we handle your product with special care. We have the experience you can count on, and offer storage, order fulfillment and site installations. We will help you determine which domestic and international transportation options provide you the service that best fits your needs at a price within your budget.

Our team can assist you in arranging:

- Air, ground and ocean freight
- Assembly
- Blanket wrap transportation
- Consolidation
- Customs clearance
- Inside pickup or final placement
- Installation
- Lift-gate equipment
- Optimized distribution
- Project management
- Time or date sensitive assistance
- Transportation management
- Unpack and debris removal
- Warehousing

Technology is constantly changing and as products are replaced, they need to be extracted and discarded. We provide a total solution for properly disposing of recycled, reclaimed or reconditioned technology items.

We provide specialized equipment and rigging to ensure every item is handled professionally. When you choose us, you can always count on cost-effective answers and a level of quality that you simply will not find anywhere else.
