

## Medical equipment

Mayflower, as part of the UniGroup family of companies, is a leader in transporting even the most intricate pieces of medical equipment. Whether MRIs, dialysis machines or patient beds, we provide the utmost care when transporting equipment to your hospital, clinic or urgent care facilities. We succeed in this field because of our experience, reliability and solutions. We will help you determine which domestic and international transportation options provide you the service that best fits your needs at the lowest cost.

*Our team can assist you in arranging:*

- Air, ground and ocean freight
- Assembly
- Blanket wrap transportation
- Consolidation
- Customs clearance
- Inside pickup or final placement
- Install and de-install
- Lift-gate equipment
- Optimized distribution
- Project management
- Time or date sensitive assistance
- Transportation management
- Unpack and debris removal
- Warehousing

Mayflower can also provide specialized equipment and rigging to ensure every item is handled professionally. We understand the critical nature of transporting and installing medical equipment, and how it factors into your success.

When you choose us, you can always count on cost-effective answers and a level of quality that you simply will not find anywhere else.
