

MultiTek™

MultiTek™, along with Mayflower, is part of the UniGroup family of companies. It is your single-source solution for all your local and global IT relocations. MultiTek's trained project managers specialize in the assessment, design, planning and execution of relocations for IT projects of any size and scope, including plant relocations, data eradication and data centers.

MultiTek™ also provides de-installation and installation of:

- Data center projects
- Data eradication
- IT assets including storage, servers and networking
- Medical systems
- Manufacturing systems
- Laboratory assets

Our team can assist you in arranging:

- IT project management
- IT infrastructure
- IT design/planning
- IT relocation execution
- IT consolidation
- Asset inventory
- Hospital relocation
- Laboratory relocation
- Manufacturing relocation

Our experience is your advantage, and we offer services at every level of project deployment to meet your needs. Our unique skills allow us to assist at any stage or phase of the project and assume responsibility for successful project execution.
