

EARTH

oiled, expressive
classic planks

The variety of the earth is the model for our Earth collection. The colours of the planks in this collection are vibrant and strong with an expressive range.

Through the skilful use of natural effect oils, we succeed in stimulating the interplay of colours in each individual plank - sometimes subtly, sometimes intensely, always in tune with the various eco-certifications.

To do this, the surface needs time to mature - which we are happy to give it. Rounded off with an application of natural oil as the crowning finish, the result is surfaces with earthy tones and a warm feel. For vitality that spreads over the entire floor.

IMPRESSIVE INTENSE COLOURS

Lively and powerful

With our Earth floors, we have for the first time succeeded in combining the special effects of curing and effect oils with the strict requirements of the Eco-Institut and the 'Blue Angel' for a healthy home environment.

An important factor here is time: During its creation, we let the plank rest up to three times overnight, to let the unique, completely natural play of colours appear. The result is colour variations that turn the special characteristics of oak - its characteristic medullary rays, colour nuances produced by the acid content in the wood - into a healthy living experience.
