Window boards

Sturdy, hard-wearing, easy-to-fit PVC-U window boards make the perfect finishing touch to any window

As the essential finishing touch to any window interior, window boards need to be attractive, hard wearing and low maintenance. When you choose window boards from Deeplas, you get all of these properties, combined with easy installation and a choice of colours to complement any window frame.

Tough, scratch-resistant surface that stays looking good

Deeplas windows boards feature an extremely tough melamine top layer that is highly resistant to scratches, abrasives, water and UV radiation – so it holds its colour and stays looking good for years.

High-strength, lightweight boards designed for easy fitting

Beneath the tough surface is an equally robust 20mm-thick layer of heavy-duty **100% recycled PVC-U**. Deeplas boards are therefore sturdy and hard-wearing, but also lightweight and easy to handle. This, combined with a full range of matching end caps and angled joiners, means that fitting the boards to a high standard is fast and straightforward.

Colours to suit any property

Window boards from Deeplas are available in a selection of appealing colours:

Why choose Deeplas window boards?

- Long-life, hard-wearing melamine surface to protect against scratches, fading and water
- Robust, heavy-duty PVC-U profile provides a rigid, sturdy base
- Window board base material made from 100% recycled PVC-U
- Lightweight, easy-to-handle boards make fitting quick and simple
- Available in three attractive colours to complement any window frame
- Full range of colour-matched end caps and joiners for a high-quality installation and professional finish
- Boards available in 6m lengths in a range of widths, from 150mm to 600mm
