Anchors

Beam Anchors

Fall Safe

Affordable Quality Anchor

- Patented one-handed double-action quick-release latch
- Centered D-ring prevents jamming on beam flange for smoother sliding
- Patented double-toothed latch

Part #	Length	Fits Beam Flange Width
FS861	18.5"	3.5" - 14"

Girder Grip

- Mobile anchorage point for metal/steel structures
- Can be used vertically or horizontally
- Fits 3/4" diameter hole

Part #	Length	Dia.	Weight Cap.
FS885	9.5"	1.38"	310

Premier Beam Anchor

- Reduced friction nylon rollers
- Center positioning retainer prevents jamming on beam
- Double-toothed pawl

Part #	Overall Length	Fits Beam Flange Width
FS860	19"	3.5" - 14"

Stationary Beam Clamp

- Fits vertical and horizontal positions
- 2 Handled locking wing nuts
- 2 Attachment points (snap hook, carabiners, lifelines)
- Fits up to 12" wide and 1" thickness

Part #	Length	Fits Beam Flange Width
FS865	19"	up to 12"

Safety

Anchors

Removable Anchors

Fall Safe

Removable Concrete Hole Anchor

- Exclusive “Easy Button” feature boosts productivity by providing immediate anchor removal
- Virtually eliminates the need for tools to remove a stuck anchor from a hole – giving the user instant mobility
- The anchor can be set as hard as desired, without fear of getting the anchor stuck in a hole

Part #	Length	Dia.
FS876	used with 5/8 in (15.88 mm) to 3/4 in (19.05 mm) rope only	3"

Roof Ring Anchor

Description	Reusable roof anchor for wood or metal. Installs with 3 threaded fasteners or 6 nails. Used for fall protection-anchor point.
Length	9 in (228.6 mm)
Width	3 in (76.2 mm)
Weight	1.75 lbs (0.79 kg)
Thickness	0.25 in (6.35 mm)
Ring	3 in (76.2 mm) with opening diameter of 2.25 in (57.15 mm)
Max. Cap.	Single person - 310 lbs (140.61 kg) including person, tools, and materials
Materials	Forged steel
Min Tensile Strength	5000 lbs (2267.96 kg)
Applicable Standards	Meets OSHA 1926-502 - ANSI Z359.1-2007 - ANSI A10.32 2004

Part #	Description
FS-EX310	Reusable roof anchor for wood or metal.

Standing Seam Clamp Anchor

- Deluxe standing seam anchor
- Includes D-ring and slot for retractable device
- Swivels a full 360 degrees
- Powder-coated

Part #	Adj Length	Working Load
FS874	24"	400 lbs

Safety

Roof Anchors

Fall Safe

Standing Seam Roof Anchor

Description The FallSafe metal standing seam roof clamp is a rated roof anchor point designed for sloped or flat roofs. Must be rated to meet OSHA, federal, state and local government regulations for fall protection anchor points. MINIMUM required substrate thickness: 24 gauge
VISUALLY INSPECT UNIT BEFORE INSTALLATION

Length 6 in (152.5 mm)

Height 4 in (101.6 mm)

Width 2"+ (Expands based on seam width)

Material Carbon steel

Working Load 310 lbs (140.61 kg) - Designed for single person use

Min Tensile Strength 5,000 lbs (2267.96 kg)

Weight 7 lbs (3.18 kg)

Installation Instructions

1. Adjust leg of anchor to align with the spacing of the roof seam - minimum 4 ft (1.22 m) from edge
2. Bent sides of clamps must be hooked underneath lip of seam. Flat sides must be flush with flat side of seam before tightening.
3. Tighten clamps to secure assembly to metal deck seam. Torque each bolt to 50' pounds. Top 2 bolts first, then bottom 2 bolts.

Applicable Standards Meets OSHA 1926.502 - ANSI Z359.1-2007 - ANSI A10.32 2004
