Circular Saws

Bosch

BCS5 7-1/4" Left Blade Circular Saw

15 Amps Power provides power to cut through 3/4" Plywood and other dense materials
Left Blade Design gives users the clearest line of sight for easy, accurate cutting
Improved Spindle Lock allow for quick and easy blade change
Aluminum Upper and Lower Guard
On-Tool Wrench Storage
56° Bevel Capacity
Clear viewing area of cut line
Anti-Snag Lower Guard will not hang up when making bevel cuts
Easy serviceable brushes
Soft grip handle

Part #	Amps	Arbor Size	Depth of Cut @ 45°	Depth of Cut @ 50°	Depth of Cut @ 90°	RPM	Voltage
BCS5	15	5/8"	1-7/8"	1-5/8"	2-7/16"	6200	120V

Fine Cut Finish Saw

Bosch

B1640VS Finecut Power Handsaw

Versatile flush-cutting ability make this an ideal tool for flush cutting doorjambs, window jams, shims, PVC drainpipe, flooring and more
3.5 Amps, 2,000-2,800 RPM
Ideal for trimming and flush cutting applications
The light and compact design allows better maneuverability in different applications, and access to tight spaces
Blades can be attached facing left or right for excellent visibility and total versatility
Ergonomic design with soft-grip surfaces for added comfort and control
Dual LED Lights for better visibility of the cutting area
Precision sawing, including flush cutting in wood, wood composites and plastics
Variable speed dial allows user to match speed to workpiece and task
Tool-free blade change system for quick, easy blade changes
Counter-balanced for reduced vibration
Large on/off switch is integrated with gripping surface for easy access
Double insulated, UL listed, complies to OSHA

Part #	Amps	Nonferrous Cutting Cap	Plastic Cutting Cap.	Wood Cutting Cap.	SPM	Stroke Length	Voltage
B1640VS	3.5	0.125	0.75	2.5	1500 - 2800	5/8"	120V

Power Tools

Foam Rubber Cutters

Bosch

B1575A Foam Rubber Cutter

The Bosch foam rubber cutter is heavy-duty and fast and is designed for production-cutting of various densities of foam rubber and flexible plastic foams and will also cut most types of carpeting

3.2 Amps / 3,200 SPM

Blades and guides (sold separately) in four different lengths to suite the thickness of the workpiece and application
Twin-blade counter-reciprocating action ensures precise cutting, plus low vibration and noise

Footplate with wheels (sold separately) allows tool assembly to roll on to worktable or floor to ensure perpendicular cut and to keep blade guide from dragging and scratching table or floor

Tool-free blade change system for fast and easy blade changes

Slim motor housing provides comfortable grip

Long, paddle-type switch for easy activation

Lock-on feature for periods of extended use

Double insulated

Part #	Amps	Blade Length	SPM
B1575A	3.2	3", 5", 8" or 12"(sold Separately)	3200

Jig Saws

Bosch

BJS365 6.5A Top-Handle Jig Saw

Powerful jig saw with 6.5-amp rating
Variable-speed control through dial on back of tools sets maximum speed and accelerator trigger controls operating speed
Bosch-exclusive multi-directional blade clamp provides superior grip of T-shank blades but does not accept U-shank blades
Toolless blade-change system allows fast blade insertion and the blade ejection lever eliminates need to touch hot blade
Precision-machined plunging mechanism and low-vibration design for enhanced accuracy and smooth operation
Sturdy die-cast foot with steel insert and on-board bevel wrench
Four orbital-action settings provide different blade strokes for smooth to aggressive cuts
Adjustable dust blower keeps cutting line clear
Ergonomic top handle with soft-grip areas for solid, comfortable grip
Ambidextrous lock-on button for steady long cuts and user comfort and control

Part #	Amps	Bevel Angle Range	Voltage	Stroke Length
BJS365	6.5	45°	120V	1"

BJS470E 7.0A Top-Handle Jig Saw

Powerful jig saw with 7.0-amp rating, which is the highest amp rating in its class, and easily handles heavy loads
Dial on back of tools sets maximum speed and accelerator trigger controls operating speed
Constant Response™ circuitry maintains desired speed for consistent performance and precision
Aluminum gearbox with insulated cover
Toolless blade-change system allows fast blade insertion and the blade ejection lever eliminates need to touch hot blade
Internal Precision Control - Precision-machined plunging system and low-vibration design for enhanced accuracy and extremely smooth operation
Large, sturdy die-cast foot with steel insert and on-board bevel wrench
Bosch-exclusive multi-directional blade clamp provides superior grip of T-shank blades but does not accept U-shank blades
Ergonomic top handle with soft-grip areas for solid, comfortable grip
Four orbital-action settings provide different blade strokes for smooth to aggressive cuts
Dust blower with on and off settings for keeping the cut line visible and free of dust
Ambidextrous lock-on button for steady long cuts and user comfort and control

Part #	Amps	Bevel Angle Range	Voltage	Stroke Length
BJS470E	7	45°	120V	1"

Power Tools

Jig Saws

Bosch

BJS470EB 7.0A Barrel-Grip Jig Saw

Powerful jig saw with 7.0-amp rating, which is the highest amp rating in its class, and easily handles heavy loads
Ergonomic body with upfront softgrip area for maximum comfort and control
Variable-speed dial sets operating speed
Constant Response™ circuitry – Maintains desired speed for consistent performance and precision
Internal precision control through precision-machined plunging system and low-vibration design for enhanced accuracy and extremely smooth operation
Toolless blade-change system allows fast blade insertion and the blade ejection lever eliminates need to touch hot blade
Bosch-exclusive multi-directional blade clamp provides superior grip of T-shank blades but does not accept U-shank blades
Aluminum gearbox with insulated cover
Large, sturdy die-cast foot with steel insert and on-board bevel wrench
Four orbital-action settings provide different blade strokes for smooth to aggressive cuts
Dust blower with on and off settings for keeping the cut line visible and free of dust
Ergonomic top handle with soft-grip areas for solid, comfortable grip
Ambidextrous lock-on button – For steady long cuts and user comfort and control

Miter Saw Stands

Bosch

BT4B Gravity-Rise Wheeled Miter Saw Stand

Integrated Outfeed and Supports — Up to 18 feet of material support capacity
Adjustable Telescoping Leveling Leg — Provides stability on uneven surfaces
Adjustable Height Outfeed — Up to 12 inches
Universal Mounting System — For use with all major competitors' saws
Integrated Rubber Wheels — Easily move stand with saw attached from jobsite to jobsite.

Part #
BT4B

Power Tools

Miter Saw Stands

Bosch

BTS2000 Gravity-Rise Table Saw Stand

8" Treaded Pneumatic Wheels - Handles rough terrain

Universally Adaptable — Mounting holes for competitors' table saws - DeWalt, Makita, Hitachi, Craftsman, Ridgid

Gravity-Rise™ Stand - Patented design for easy table saw setup and table down

Exceptional Portability - Quick and easy transport between job sites

Heavy Duty Construction — Withstands 250 lbs. of downward force

Part #
BTS2000

Miter Saws

Bosch

BGCM12SD 12" Dual-Bevel Glide Miter Saw

Axial-Glide™ System durable precision – consistent precision over tool life; compact workspace – saves up-to 12 In. workspace; glide action – unmatched smoothness of cut

Expanded cutting capacity: 14 In. horizontal capacity (nominal); 6-1/2-In. vertical capacity against the fence (base); 6-1/2-In. crown capacity against the fence (45° spring)

Upfront bevel controls - all-metal bevel lock lever and range selector located upfront for quick and easy bevel settings without reaching behind the saw

SquareLock™ quick-release fences: high-precision SquareLock™ fence aligns 90° to table and requires no adjustment; one touch lock/unlock to slide fence for added support

Integrated expanding base extensions: 60% more left-to-right material support than leading competitor - 40 In. left to right

Large easy-to-read uniform bevel & stainless steel miter scales: 52° left/60° right miter capacity; 47° left/47° right bevel capacity with marked detents and roof pitch angles

Adjustable miter detents: detents at 0°, 15°, 31.6°, 22.5°, 45°, 60° right super-accurate and durable design

Push-button miter Detent override - easy-to-access thumb actuated control right up front for fine miter angle adjustment

Bevel detents: 0, 33.9°, 45° left/right for accurate cuts

Category best 90% dust collection - optimized for cutting 2x material with a vacuum

Ergonomic ambidextrous trigger handle with soft grip - large form fitting ergonomic handle provides comfort for all-day use

Part #	Amps	Bevel Angle Range	Miter Angle Range	RPM	Voltage
BGCM12SD	15	48° Left and Right	62° Left 60° Right	3800	120V

Power Tools

Multi-Tools

Bosch

BMX25EC-21 Multi-X Oscillating Tool Kit

Versatility – designed for many applications and materials, including flush-cutting, plunge cutting, sanding, grinding, grout removal and scraping
2.5 Amp tool - ample power for heavier applications
Variable-speed dial – for matching speed to application and material
Constant Response™ circuitry – maintains speed under load
Uses OIS Oscillating Tool accessories. also includes OSCAD1 adapter for use with many competitor accessories
Durable accessory holder – easy to change and position accessories using hex wrench
Ergonomic – small grip circumference and soft grip areas for comfort and control
Compact – small enough to reach into corners and other tight spaces
Ball-joint cord swivel – for enhanced ease of positioning tool and for cord durability
Stacked construction - robustness, professional design and low vibration
Gears & gear housing reinforced gearing for better force transmission; robust metal gear housing
Ideal for door jamb cuts - unlike some competitor models, the MX25e's flat nose allows a full 13/16 In. depth of cut when using standard 3-1/2 In. segment blades, such as when flush-cutting door jambs
No-mar plastic ribs - protects vertical surface in front of tool
Easy-to-use on/off switch
Easy brush access

Part #	Amps	SPM
BMX25EC-21	2.5	8000 - 20000

Durable and Unique All-steel Base Design – Lightweight base incorporates carry handle and stacks on side for transport and storage; all-steel design to handle jobsite abuse

Squarelock™ Rip Fence – Engineered for maximum trueness, the “best-in-class” fence glides along the rail at a finger’s touch or locks into place for solid and consistent cutting performance

Complete On-tool Storage Under Table – Stores Rip Fence, Smart Guard, Miter Gauge, Push Stick and Wrenches under table for maximum protection during transport and storage

Smart Guard System – Quick and easy-to-use modular blade guard; anti-kickback pawls and riving Knife system provides superior control over the material while cutting

Tool-free Dust Chute Clear-out – Tool free access on back of saw for easy maintenance
