

To Whom It May Concern,

In the first year Bay State Textiles School Box was placed at King Philip, it was near our recycling dumpster and did not do very well from a production standpoint. I initiated and moved the location to the front pass road near the main entrance to our school. Since then, the weights have increased over 75% in production. The box is self maintained and generates cash for our school. The only time I ever had to do anything was when it was full. One phone call and your company came out the same day to empty it. Thanks for your recycling efforts. Glad to help.

Sincerely,

Joseph Zahner Jr
