L ≡ S S .
is more

Il principio delle forme, del design, dei materiali e della luce.
'Less is more' è una filosofia che viene applicata alla vita ma anche alle forme architettoniche, con la finalità di raggiungere la massima funzionalità e semplicità delle linee, senza aggiungere nulla di più.
'Less is more' è anche uno stile deciso, dato dall'animo contrastato della porta in vetro: unisce l'ambiente e allo stesso tempo separa gli spazi, resiste al dinamismo

The concept of shapes, design, materials and light.
'Less is more' is a philosophy applied to life but also to the architectural shapes, aimed to achieve the maximum functionality and simplicity of lines, without adding anything else.
'Less is more' is also a resolute style, given by the contrasting glass door core: it joins the room while separating space, resisting daily dynamics while remaining lightweight, its matter does not hinder but illuminates

quotidiano restando leggera, la sua materialità non ostacola ma illumina e le sue linee minimal arricchiscono senza togliere nulla all'ambiente. Ad ogni ora la casa si arricchisce di una luce nuova svelando la bellezza degli spazi. Il passaggio dalla luce calda del mattino, fino alla luce fioca della sera, viene visto attraverso il vetro, a volte trasparente, altre satinato, ma sempre essenziale. Il mutare della luce l'abbiamo riprodotto nel catalogo per raccontare la storia della casa.

and its minimal lines enrich without taking away from the room. The home is embellished by a new light revealing the beauty of its space any time of day. The shift from the warm morning light to the dim evening light is seen through the glass, at times transparent, others frosted, but always essential. We reproduced the changing light in the catalogue to tell the story of the home.

M O N O

Collezione di porte a vetro singolo, ad una o più ante.
Il vetro temperato è disponibile con uno spessore da 8 mm o 4+4 mm, può essere personalizzato con varie soluzioni cromatiche e con lavorazioni di sabbiatura, incisione e stampa digitale.
Le versioni realizzabili sono: battente, battente minimale, scorrevole a scomparsa, scorrevole essential, scorrevole esterno (attacco a parete, attacco a soffitto, affogato a controsoffitto).

Tutti i vetri sono certificati secondo le normative di sicurezza UNI 7697 e UNI EN 12600.

*Single glass door collection with one or more leaves.
The tempered glass is available with thickness from 8 mm or 4+4 mm, it can be customised with various colour solutions and sanded, engraved or digital print finish.
Available versions include: hinged, minimal hinged, pocket sliding, essential sliding, external sliding (wall mount, ceiling mount, sunken in the false ceiling).*

All glass is certified according to UNI 7697 and UNI EN 12600 safety regulations.

D U O

Collezione di porte a vetro doppio, ad una o più ante.
Il vetro temperato è disponibile con uno spessore da 5 mm, particolarmente indicato per porte con un'altezza di 240 cm e fino a soluzioni extra di 320 cm di altezza.
Le versioni realizzabili sono: battente, battente step, battente flat, scorrevole a scomparsa, scorrevole essential, scorrevole esterno (attacco a parete, attacco a soffitto, affogato a controsoffitto).

Tutti i vetri sono certificati secondo le normative di sicurezza UNI 7697 e UNI EN 12600.

*Double glass door collection with one or more leaves.
The tempered glass is available with 5 mm thickness, especially indicated for doors 240 cm high and up to extra 320 cm high solutions.
Available versions include: hinged, step hinged, flat hinged, pocket sliding, essential sliding, external sliding (wall mount, ceiling mount, sunken in the false ceiling).*

All glass is certified according to UNI 7697 and UNI EN 12600 safety regulations.

M O N O

Uno, come il vetro singolo che riesce ad illuminare un ambiente intero. Quando la leggerezza diventa l'elemento fondamentale in un ambiente, si ha il raggiungimento del benessere e della stabilità. **S-nziale Mono** è lo stile che supera le forme e abbraccia la personalizzazione delle incisioni e dei decori, in un'unica superficie.

*One, like the single glass that can illuminate the entire room. Wellness and stability can be achieved when levity becomes a fundamental element in a room. **S-nziale Mono** is the style that exceeds shapes and embraces the customisation of the engravings and decorations in a single surface.*

DETTAGLI TECNICI *TECNICAL DETAILS*

La linea **S-nziale Mono** è realizzata con un singolo vetro temperato, è disponibile nella versione stratificata con lo spessore di 4+4 mm o su lastra monolitica con lo spessore di 8 mm. In entrambi i casi la struttura è realizzata in alluminio anodizzato o verniciato, con una sezione di 40x16 mm (44x40 mm per i soli traversi orizzontali su porte scorrevoli).

*The **S-nziale Mono** line is made of a single tempered glass, available in the layered version with 4+4 mm thickness or on a single slab with 8 mm thickness. In both cases, the frame is made of anodised or painted aluminium, with a 40x16 mm section (44x40 mm for the sole horizontal beams on sliding doors).*

DETTAGLI TECNICI TECNICAL DETAILS

La linea **S-nziale Duo** è realizzata con una coppia di vetri temperati, fissati su un telaio in alluminio interno all'anta. I vetri monolitici hanno uno spessore di 5 mm e si possono realizzare nella versione trasparente, acidata oppure laccata in vari colori. Il bordo in alluminio a vista è di soli 3 mm ed i vetri acidati vengono serigrafati perimetralmente per nascondere la sottostruttura in alluminio.

*The **S-nziale Duo** line is made with a pair of tempered glasses, secured on an aluminium frame in the leaf. Single slab glass is 5 mm thick and can be made in the transparent or frosted versions or lacquered in various colours. The visible aluminium edge is only 3 mm and frosted glass is silk-screened around the edge to hide the aluminium sub-structure.*
