

Mission Statement

Statement of aims – Tower Learning Centre aims to ensure personal progress and success by developing the personal study skills of each individual, in a caring and positive environment, promoting an attitude to learning which will inspire, motivate, educate and empower the student for life.

Centre Values

The Centre aims to provide professional tuition to students with a wide range of differing needs and aspirations.

It caters for all age groups, with particular emphasis on children who are having difficulty with their school work and those who would like to be challenged and extended.

It aims at providing a motivational learning experience through small group sessions which ensures learning is tailored to the individuals' needs. Each session contains a blend of one-to-one tuition and opportunities for confidence-building, independent learning.

The Centre also guarantees that every learning session will take place in a safe, supervised environment and that all tutors working in the Centre are fully qualified and hold the necessary DBS certification.

MISSION

STATEMENT

We will ensure personal progress and success by:

- **Developing the personal study skills of each individual, in a caring and positive environment.**
- **Promoting an attitude to learning which will inspire, motivate, educate and empower the student for life.**
