

Comfortmaker® No Hassle Replacement™ Limited Warranty Program

No Hassle Replacement™ Limited Warranty Provides Ultimate Peace Of Mind Longer

Every Comfortmaker® home comfort product is backed the way it's built—to be the best. The Comfortmaker No Hassle Replacement™ limited warranty is a limited warranty that gives you continued comfort with no worries, no questions. Now, you can have a new replacement unit should a major component [compressor, coil or heat exchanger] fail during the No Hassle period. This warranty gives you extra coverage in addition to the standard

product warranty.

To help you decide which Comfortmaker product and warranty protection is best for you, select from the following at-a-glance comparisons.

- [Split system air conditioners & heat pumps](#)
- [Gas furnaces](#)
- [Oil Furnace](#)
- [Fan Coil](#)
- [Package air conditioners, heat pumps & gas/electric](#)

The No Hassle Replacement™ limited warranty is matched to four mainline product groups:

- 10 Years** – for our top-of-the-line products
- 5 Years** – for our standard-level products
- 1 Year** – for our base-level products

NOTE: Entry-level builder-grade products do not come with a No Hassle Replacement™ limited warranty.

Split system units must be matched with a Comfortmaker indoor coil or fan coil. Prior to replacing any unit, written authorization is required from the local Comfortmaker distributor technical service contact to validate that the unit was installed properly and that the component did not fail as a result of abuse. Installation labor charges may apply. Contact installing dealer for labor charge details.

See the warranty certificate for further details:
