Spring Cleaning Tips

- 1)** Use baby oil to give stainless steel appliances a nice shine!
- 2)** Rub wax paper over your faucets to keep them shinier and water-spot free!
- 3)** Lint rollers work like a charm on lamp shades!
- 4)** Plastic shower curtains can be washed in a washing machine!
- 5)** Using lemons (or orange peels), ice, and salt, you can clean out your garbage disposal and leave it with a nice aroma as well!
- 6)** Cut slits in a sponge to get past those “walls” in the windowsill!
- 7)** Fill a sponge with water, set it on a microwaveable plate, and nuke it for two minutes, this gets rid of 99% of bacteria in the sponge!
- 8)** Sanitize your mop by soaking it in vinegar for 15 minutes and then washing it out!
- 9)** 8 parts water and 1 part vinegar combined are a handy windex alternative!
- 10)** Soak your shower head in distilled white vinegar for 1 hour to unclog it for better water pressure results!

11) Remove beverage rings with a hair dryer!

12) A 50/50 mixture of water and white vinegar works perfectly for computer and tv screens!

13) To get rid of grease buildup, coat with baking soda and wipe with a wet cloth.

- Don't forget Daylight Savings is on March 14th
- We hope everyone has a Happy Saint Patrick's Day (March 18th)
- Spring begins on March 20th
- Palm Sunday is on March 28th this year
