Hi everyone and welcome to the May newsletter. As I write this we have just had a glorious Easter weekend which brought out a nice collection of classics for the Easter Sunday run. Whilst driving the route I spotted several other classics and a rather lovely Lamborghini out on the roads. Pam and I also found time to view the gathering of cars from the Jersey Old Motor Club before they set off on their run from the Weighbridge on Easter Monday, a large number with their hoods down to enjoy the sunshine. Coming up at the end of the month is the Festival of Motoring and included in this letter are the entry forms and information for this event. If any member has any questions regarding this event please call or email me. There will also be an opportunity to catch up with any final details at the Sunday meeting on May 26th. I would like to welcome new members Mr Colin Isherwood and Mr & Mrs Julian Smyth

Cheers for now  Tim

I am honoured to have received the car of the month award for March. My Crayford Capri convertible is one of only thirty cars made. Crayford was a coach building company of the sixties and seventies who specialised in converting cars for mainstream car manufacturers like Ford, Vauxhall, Mercedes, and British Leyland who did not have a convertible car in their respective ranges. Among the Ford cars being converted were Cortina, Corsair, and the Capri which was the most expensive because of its coupé roof line. It required a lot more coach building work, and fabrication of the complete rear deck along with its German-made fully lined folding roof made the car a very expensive build. After fitting the roof in Germany the cars were returned to Dagenham to be completed on the production line. £1,427 in 1971 was E-Type Jaguar territory (£700 for a standard Capri) The cars were sold through Bristol Street motors only as special orders and were built to order.

My car started life as a 1600 GTXLR and the previous owner fitted the Essex V6 3.0L engine and five speed gearbox. I have owned this car 10 years and have done a few updates like brakes, electronic ignition, and replaced every rubber suspension component with Poly bushes. The car came with power steering as part of the V6 upgrade and is a pleasure to drive. My latest upgrade is every light bulb including headlights are LED. Coming next is to fit unleaded heads and a new electronic dizzy that are all waiting in the garage.

BINGO NIGHT

Friday 5th April was the night for our club bingo held at the Ambassadeur Hotel, which was well attended, a total of 66 members and friends attended the evening. After our food of either chicken, fish, scampi or sausage and chips, together with pots of tomato sauce and tartare sauce, we started playing bingo. All prizes of biscuits and Easter eggs were paid for by the club. The first 4 flyers were played for prizes as pictured with the second part of the evening, playing three flyers for cash prizes. £20 for 1 line, £30 for 2 lines and £60 for a full house. The next bingo is scheduled for Friday 8th November at the same venue.

Many thanks to Sue and Robert Le Moel for organising the evening.
OPEN GARDEN APRIL 14TH

This was our first time out to this event and 8 cars were warmly welcomed at St Georges School where the gardens were open to the public. Cream teas were available on site and we have been thanked by Mrs Jane Blackie for attending and creating another attraction at the gardens. Thanks to those who attended as this was a charity event raising funds for the Jersey Association of Youth & Friendship.
