Tactical Distributors Pty Ltd provides specialized products and equipment to government agencies, customers in Australia, New Zealand, Southeast Asia, and the Pacific Islands, serving police, border agencies, security, and military operations. The company offers riot control equipment, crime scene investigation and evidence collection products, uniforms, clothing, and operational equipment. Mens' and Women's Clothing: Tactical Distributors provides a range of clothing options for men and women, including pants, shirts, vests, and gloves. The website features size charts for both men and women, with measurements in inches and centimeters. Customers can refer to the diagrams as a guide to determine their correct size. Note: For some products, customers are recommended to wear one size larger due to functional features. Free Shipping: Orders over €80 qualify for free shipping. Additionally, orders exceeding €125 also receive a complimentary collectible patch. Sizing Instructions: To ensure accurate sizing, customers should use a measuring tape to measure their body (not over clothing) and refer to the provided diagram as a guide. If between sizes, customers can order the smaller size for a tighter fit or the larger size for a looser fit. **Getting the Right Fit** To ensure maximum comfort and performance, 5.11 Tactical Series provides detailed size charts for their products. By following these charts, you can find the perfect fit for your clothing and gear. **Men's Tops Size Chart** The men's tops size chart is based on neck, chest, and arm length measurements. To determine your size: * Measure around the base of your neck with a measuring tape. * Match your neck measurement to the corresponding size in the chart. * Measure around the fullest part of your chest, with the tape under your arms and around your shoulder blades. * Match your chest measurement to the corresponding size in the chart. * Slightly bend your elbow and measure from the center back of your neck, over the top of your shoulder, and down to your wrist. Match your arm length measurement to the corresponding size in the chart. **Men's Bottoms Size Chart** The men's bottoms size chart is based on waist and hip measurements. To determine your size: * Measure around your natural waistline with a measuring tape. * Match your waist measurement to the corresponding size in the chart. * Stand with your feet together and measure around the fullest part of your hips, with the tape parallel to the floor. * Match your hip measurement to the corresponding size in the chart. **Important Notes** * The arm length measurement refers to your actual arm length, not the garment's sleeve length. * To determine your pant size, consider your height: + Short: 5'3 - 5'7 1/2" + Regular: 5'8 - 6' 1/2" + Tall: 6'1 - 6'3" By following these guidelines and using the provided size charts, you can find the perfect fit for your 5.11 Tactical Series clothing and gear, ensuring comfort and functionality. To ensure a comfortable fit in 5.11 Tactical Series men's shoes, follow these steps: 1. Place your foot on a flat surface with your heel against a straight edge or wall. 2. Measure your foot length from heel to toe and repeat with your other foot. 3. Use the longer foot measurement as a guide. 4. Compare your measurements to the size chart for US, UK, and EU sizes. For women's clothing and gear: 1. Measure around your chest under your arms and around the fullest part of your chest. 2. Slightly bend your elbow and measure from the center back of your neck, over the top of your shoulder, and down to your wrist (arm length). 3. Use these measurements to find your corresponding size on the women's tops and bottoms size charts. For women's footwear: 1. Place your foot on a flat surface with your heel against a straight edge or wall. 2. Measure your foot length from heel to toe and repeat with your other foot. 3. Compare your measurements to the US, UK, and EU size chart. When shopping for women's clothing and gear, consider the following: * Regular sizes fit women between 5'5" and 5'7", while Tall sizes fit women between 5'9" and 5'11". * For tall sizes, add 2 inches to body length and 1.5 inches to sleeve length. * Check for Wide widths in sizes 7-13 if you have wider feet. * Use the size chart to determine your recommended size based on your waist and hip measurements. **Shoe Sizes** If you have wide feet, shoes in sizes 7-13 are available in Wide widths. To find your size, check the box labeled "Wide" when selecting. **Glove Sizes** To ensure a comfortable fit, measure across the palm of your hand from where your thumb and index finger meet. Compare this measurement to the provided chart for glove sizes. **Tactical Gear Size Charts** The 5.11 Tactical Series offers comprehensive size charts for various items, including belts, gloves, hats, and socks. These charts provide measurements in inches and centimeters, making it easy to find your perfect fit. **Importance of Accurate Measurements** Accurate measurements are crucial in construction, engineering, and other fields. A writer and editor with expertise in geometry, statistics, and dimensions is committed to providing readers with valuable insights and practical tips on measuring techniques, tools, and technologies. **Additional Size Charts** A separate size chart is provided for Alpha clothing sizes, including chest and sleeve length measurements. This chart offers a range of sizes from 2 to 6XL. Size Chart
