ISSUE EIGHT

Issue Eight

# INTRODUCTION

Issue Eight marks another step forward for 'From the Anvil' with a new format, improved layout and further great product shots bringing to life new designs, while continuing to add depth to our traditional items.

The process of hand forging mild steel enables 'From the Anvil' to achieve unique products, honed to the highest specification to maintain the strength and quality associated with our brand.

This latest edition of the catalogue showcases our broadest field of products yet, encompassing components for complete window systems, alongside a striking new range of Sash Window furniture, in three different finishes.

# THE COLLECTION - ISSUE EIGHT

## PRODUCT FINISHES

---

BEESWAX

### **Beeswax Finish - (For Internal Use Only)**

The beeswax finish is the most authentic finish for steel. When our highly skilled blacksmiths have finished forging each product the colours left in the steel range from blue to deep red ochre. To preserve these beautiful colours and the texture from the hammer and anvil, we apply pure beeswax. This gives a subtle, matt richness to the metal and offers excellent protection when products are fitted internally and properly maintained. To bring out the best in our original Beeswax Finish we advise that before installation products are given a buff with a soft cloth.

Using maintenance wax will help restore the finish and give protection to this product. Buffing with a cotton cloth will remove the white bloom. If surface rust occurs, rub with 00 grade wire wool and apply Anvil Maintenance Wax with a rag. All moving parts should be oiled prior to fitting and periodically afterwards.

**Warning:** *The chemicals in wet plaster will rust this product. Always fit ironmongery when plaster is fully dry.*

---

BLACK

### **Black Finish - (For Internal or External Use)**

Our traditional satin Black Finish is baked in a high-temperature oven giving it an attractive, durable and corrosion-resistant finish which is low maintenance and can be used internally or externally. It is resistant to moisture so can be used in bathrooms and damp conditions.

We recommend that ironmongery is wiped with a lightly oiled cloth from time-to-time. This will remove harmful deposits and restore it to its original condition. All moving parts should be oiled prior to fitting and periodically afterwards. Always use a pilot drill and rub screw with candle wax before fitting.

---

PEWTER  
PATINA

### **Pewter Patina Finish \* - (For Internal or External Use)**

This finish is elegant and beautifully highlights the texture of the steel. Stylish and modern, it is equally suited to a contemporary home as well as a period property.

It has excellent anti-corrosion properties and we recommend that the ironmongery is wiped with a lightly oiled cloth once a month. This will remove harmful deposits and restore it to its original condition. Never use any form of metal cleaner or aerosol spray. All moving parts should be oiled prior to fitting and periodically afterwards.

Screws supplied with this product are finished individually so please take care when fitting. Always use a pilot drill and rub screws with candle wax before fitting.

\* All references to 'Pewter' throughout this brochure refers to products being finished with a 'Pewter Patina' rather than being manufactured from solid pewter.

---

BRONZE

### **Bronze Finish - (For Internal or External Use)**

This range is coated with a permanent bronze finish which will always look at its best for years to come and is completely weatherproof. This finish is elegant and beautifully highlights the texture of the steel. Stylish and modern, it is equally suited to a contemporary home as well as a period property.

It has excellent anti-corrosion properties and we recommend that the ironmongery is wiped with a lightly oiled cloth once a month. This will remove harmful deposits and restore it to its original condition. Never use any form of metal cleaner or aerosol spray. All moving parts should be oiled prior to fitting and periodically afterwards.

The screws supplied with this product are finished individually so please take care when fitting. Always use a pilot drill and rub screw with candle wax before fitting.

---

ANTIQUE  
BRASS

### **Antique Brass Finish - (For Internal or External Use)**

All of our Antique Brass products are cast from high quality solid brass and have been manufactured to the highest standards. This finish has been treated to speed up the natural tarnishing process which produces the antique feel of the product. It is burnished making it smooth in appearance and is used as an alternative finish where a highly polished surface is not desired.

The finish is un-lacquered, will tarnish naturally causing the aged patina to darken with time. If you require a semi gloss finish, it can be achieved by using Brasso. Always use a pilot drill and rub screws with candle wax before fitting.

---

POLISHED  
BRASS

### **Polished Brass Finish - (For Internal or External Use)**

All of our Polished Brass products are manufactured to the highest standards. All products are un-lacquered so to retain the original finish, regular polishing with a good quality metal polish is essential. However, if the intention is to allow the surface to age through oxidization, no attention needs to be given. Over time the brass will acquire a darker and more aged patina. Always use a pilot drill and rub screws with candle wax before fitting.

**Warning:** The chemicals in wet plaster will rust this product. Always fit ironmongery when plaster is fully dry.

---

IRON

### **Iron Finish - (For Internal or External Use)**

This product is made from Iron which brings out the natural beauty and texture of the metal. The item is cast and dressed giving it a tactile finish. It is protected from weather and high moisture areas by a clear powder coating process which also gives it its colour. This finish provides an attractive, durable and corrosion resistant coating which will last for many years. Always use a pilot drill and rub screws with candle wax before fitting.

---

NATURAL  
SMOOTH

### **Natural Smooth Finish - (For Internal Use Only)**

A natural cast iron, finished with a clear matt lacquer which produces a beautifully textured look and feel. This product is only intended for internal use. If fitted externally i.e in an enclosed porch or bathroom it will need to be treated with Anvil Maintenance Wax periodically. Always use a pilot drill and rub screws with candle wax before fitting.

**Warning:** The chemicals in wet plaster will rust this product. Always fit ironmongery when plaster is fully dry.

---

NATURAL  
TEXTURED

### **Natural Textured Finish - (For Internal Use Only)**

A natural cast iron, finished with a clear matt lacquer which produces a beautifully textured look and feel. These products are only intended for internal use or when used in a protected area like in an enclosed porch, but need to be waxed periodically.

---

ANTIQUE  
PEWTER

### **Antique Pewter Finish - (For Internal or External Use)**

This Antique Pewter finish is applied to the product and has excellent anti-corrosion properties. Periodic wiping with a lightly oiled cloth will further help to preserve the beauty of this finish.

---

POLISHED  
CHROME

### **Polished Chrome Finish - (For Internal or External Use)**

A mirror finished, chrome plate applied to either solid brass or steel.

---

BRUSHED  
SATIN CHROME

### **Brushed Satin Chrome Finish - (For Internal or External Use)**

A satin chrome finish which has a brushed effect running down the product.

---

POLISHED  
NICKEL

### **Polished Nickel Finish - (For Internal or External Use)**

A highly polished finish with a nickel plating applied to a solid brass substrate. Nickel is similar to the polished chrome (silver) finish but with a slightly warmer tone. An unlaquered finish because nickel will not tarnish.

---

EBONY

### **Ebony - (For Internal or External Use)**

Our Ebony finish products have a rich, dark look and feel for a very distinctive quality. The material has a very high density and fine texture which gives a very smooth finish. Can be polished or waxed to maintain the vibrance of the wood and to give overall protection. Designed to be used internally but can also be used externally if maintained with Anvil wax.

---

ROSEWOOD

### **Rosewood - (For Internal or External Use)**

Our Rosewood products are strong and heavy with a richly hued reddish colour and much darker veining. Can be polished or waxed to maintain the vibrancy of the wood and to give overall protection. Designed to be used internally but can also be used externally if maintained with Anvil wax.

# PENNY END T HINGES

# 22" T HINGE

OVERALL SIZE: 560MM X 152MM  
FIXING PLATE: 152MM X 38MM

# ARROW HEAD T HINGES

## 36" BARN DOOR T HINGE

OVERALL SIZE: 914MM X 305MM  
FIXING PLATE: 305MM X 51MM  
HINGE ARM: 838MM

*This hinge can carry the largest of barn or garage doors and allows the door to be in line with the front of the frame.*

● **33233**  
BLACK

## 35" HOOK & BAND HINGE - CRANKED

OVERALL SIZE: 889MM X 194MM  
FIXING PLATE: 194MM X 54MM (PIN DIAMETER: 15MM)  
HINGE ARM: 825MM

33234 - Black Finish

● **33234**  
BLACK

● **33741**  
PEWTER

*Ideal for barn or garage doors. This hinge is cranked to allow the door to be in line with the front of the frame. There is no need for the fixing plate to be morticed into the frame of the door.*

## 24" HOOK & BAND HINGE

OVERALL SIZE: 610MM X 158MM  
FIXING PLATE: 158MM X 51MM (PIN DIAMETER: 15MM)  
HINGE ARM: 577MM

*Ideal for heavy, internal doors. The hook plate needs to be morticed into the frame, making the door in-line with the frame.*

● **33189**  
BEESWAX

● **33286**  
BLACK

● **33742**  
PEWTER

33189 - Beeswax Finish

## 24" BAND & SPIKE HINGE

OVERALL SIZE: 610MM X 190MM  
SPIKE: 158MM OVERALL: 190MM (PIN DIAMETER: 15MM)  
HINGE ARM: 572MM

● **33216**  
BEESWAX

*Ideal for heavy, internal doors. When fixing the Spike Pin you need to drill a series of pilot holes.*

# 22" T HINGE

OVERALL SIZE: 562MM X 156MM  
FIXING PLATE: 156MM X 34MM  
HINGE ARM: 502MM

33808 - Black Finish

- 33844  
BEESWAX
- 33808  
BLACK
- 33792  
PEWTER

Made from thicker steel and is ideal for carrying very heavy, 3' doors or bigger.

# 18" T HINGE

OVERALL SIZE: 457MM X 127MM  
FIXING PLATE: 127MM X 25MM  
HINGE ARM: 425MM

33654 - Pewter Patina Finish

- 33158  
BEESWAX
- 33974  
BLACK
- 33654  
PEWTER

The knuckle is longer than the penny end hinge & the fixing plate is narrow enough to be hung on a modern door lining. We recommend cutting the architrave over the fixing plate. Sold as a pair with all fixing screws.

# 15" T HINGE

OVERALL SIZE: 387MM X 122MM  
FIXING PLATE: 125MM X 25MM  
HINGE ARM: 340MM

- 33843  
BEESWAX
- 33807  
BLACK
- 33791  
PEWTER

Suitable for 2' to 2'3" doors.

33843 - Beeswax Finish

## 12" T HINGE

## NARROW & OAK LEVER HANDLES

— 33633 (Narrow Lever Espag)

### NARROW LEVER ESPAG. LOCK SET

BACKPLATE SIZE: 220MM X 30MM  
BACKPLATE THICKNESS: 5MM  
HANDLE LENGTH: 115MM  
CENTRES: 92MM  
FIXING CENTRES: 123MM

*This narrow Espag. set has a very nice 'twist' detail in the handle and is designed to be used with multi point locks (see page 147 & Euro Cylinders - see page 146). The handle is not sprung which allows for the upward (locking) movement commonly associated with espagnolette systems and ideal for upvc doors.*

## TRICKLE VENT CANOPIES & GRILLS

Vents, Canopies & Grills

### ALUMINIUM CANOPY

SMALL: 255mm X 28mm  
MEDIUM: 297mm X 28mm  
LARGE: 400mm X 28mm

*Designed to fit to the exterior side of your window vent. A simple canopy or cover that provides resistance to ingress of water and insects. Canopy fits over a 12mm slot in the head or top rail of your window. This product provides ideal night ventilation.*

SMALL	<b>12560</b> BROWN	<b>12547</b> BLACK	<b>12561</b> WHITE
MEDIUM	<b>12562</b> BROWN	<b>12549</b> BLACK	<b>12563</b> WHITE

## KEEP - 44MM DOOR

CENTRE KEEP SIZE: 200MM X 21MM  
OVERALL DEPTH: 24MM  
KEEP SIZE: 118MM X 21MM  
OVERALL DEPTH: 24MM

**20711**   
BZP

Strike plate allows use on doors with a thickness of 44mm.

## KEEP - 57MM DOOR

CENTRE KEEP SIZE: 200MM X 21MM  
OVERALL DEPTH: 24MM  
KEEP SIZE: 118MM X 21MM  
OVERALL DEPTH: 24MM

**20709**   
BZP

Strike plate allows use on doors with a thickness of 57mm.

## PLAIN KEEP

CENTRE KEEP SIZE: 200MM X 21MM  
OVERALL DEPTH: 24MM  
KEEP SIZE: 118MM X 21MM  
OVERALL DEPTH: 24MM

**20712**   
BZP

No strike plate allows use on doors with no maximum thickness.

## CLAW ESPAGNOLETTE GEARBOX

One of the most effective ways of securing PVC, Timber or Aluminium casement windows and are a Police Preferred Specification. The centre claws lock securely into a very substantial centre keep whilst two shootbolts lock into the corners of the window for incredible resistance from attack. This system enjoys BS7590, Secure By Design and BBA approvals for extra peace of mind and gives you the knowledge that all is secure.

BACKSET: 22MM	37980
---------------	-------

BACKSET: 25MM	37981
---------------	-------

## ESPAGNOLETTE BARS

Requires two bars to make up the sizes stated below. Extension Rods can be fitted to further extend the Espagnolette Bar length.

300MM-440MM	37987
-------------	-------

370MM-500MM	37988
-------------	-------

490MM-700MM	37989

950MM-1210MM	37991
--------------	-------

1210MM-1470MM	37992
---------------	-------

## EXTENSION ROD

An Extension Rod to be used to increase the Espagnolette Bar length (see above).

37993	180MM-300MM
-------	-------------

## CENTRE KEEPS

*Standard Centre Keep with an 8mm thickness - Use with left & right handed End Keeps (see below).*

*Flat Plate Centre Keep with a thickness of 2mm - Use with Shoot Strike End Plates (see below).*

<b>37983</b>	<b>THICKNESS: 2MM</b>
<b>37984</b>	<b>THICKNESS: 5MM</b>

## END KEEPS

*An 8mm thick End Keep to be used in conjunction with the Standard Centre Keep (see above). Left and right handed keeps would be needed to complete the system.*

<b>LEFT HAND</b>	<b>37985</b>
<b>RIGHT HAND</b>	<b>37986</b>

## SHOOT STRIKE END PLATE

*A 2mm thick End Plate to be used in conjunction with the Flat Plate Centre Keep (see above). Two end plates would be needed to complete the system.*

**37982**

## WINDOW LOCK

LOCK SIZE: 30MM  
BACKSET: 23MM (25MM WITH FACEPLATE)  
KEEP PLATE SIZE: 90MM X 16MM  
FACEPLATE THICKNESS: 2MM

20779   
SS

*A small, neat window lock with 7mm spindle drive and stainless steel forends. When morticed into edge of window casement it will take any espag. window fastener. The total answer when window has a draft gasket.*

## VENTABLE KEEP PLATE

SIZE: 51MM X 24MM

20777   
SS

*This keep allows a window to be vented and has the added feature of being able to be locked in normal or vented position.*

## NARROW SPRING UNIT CASSETTE

SIZE: 63MM X 25MM  
THICKNESS: 6MM

*Increases performance if your lock is too weak for unsprung handles. Cassette fits flush with the surface of your door and sits behind your handle. See our website for more detailed fitting instructions.*

33256/A

## SPRING UNIT CASSETTE

SIZE: 51MM X 35MM  
THICKNESS: 13MM

*This cassette is designed to increase the tension and performance of an old or weak lock. Cut into the face of the door so the cassette fits flush with the surface and sits behind your door handle. See our website for more detailed fitting instructions.*

33256

## THREADED TAYLORS SPINDLE

BASE SIZE: 25MM  
SPINDLE: 25MM X 8MM

*Can be used to fix threaded knobs (page 62) to doors and drawers i.e. split set for double wardrobe doors.*

31298/A

## TAYLORS SPINDLE

BASE SIZE: 25MM  
SPINDLE: 25MM X 8MM

*Can be used to fix handles to doors i.e. split set for double wardrobe doors.*

31298

## THREADED SPINDLE

BASE SIZE: 25MM  
SPINDLE: 20MM X 8MM

*Can be used to fix threaded knobs (page 63 & 64) to doors and drawers i.e. split set for double wardrobe doors.*

31298/B

## ELECTRICAL ACCESSORIES

We have brought together a number of decorative electrical accessories that we feel are the closest colour and finish match to our handmade ironmongery. See our guide at the bottom of this page to choose what finish best suits your needs.

#### GUIDE TO FINISHES

**BLACK NICKEL (BN)**  
 Best suited for Beeswax or Traditional Black Finishes

**SATIN STAINLESS STEEL (SSS)**  
 Best suited for Pewter Finish

**MATT BLACK (MB)**  
 Best suited for Black Finish

## GENERAL MAINTENANCE, CARE GUIDE &amp; SPARES

*General Maintenance*

As with any ironmongery on today's market there are general maintenance tips that can be used to keep your products at their best.

**Warning: Please make sure all plaster is fully dry before fitting any of our ironmongery. The moisture in a newly plastered room is phenomenal. None of our products are suitable for coastal areas.**

With all our products, when used externally, any moving parts will require the occasional oiling and we recommend that the ironmongery is wiped with a lightly oiled cloth from time to time. This will remove harmful deposits and restore it to its original condition. Do not use any form of chemical. Always use the products we recommend for external use, otherwise you may encounter a degradation of the lacquer/wax finish. Our internal finishes aren't recommended for external use but can still be used, if desired, in an enclosed or protected area, like a porch but you may need to reapply an extra coating of wax (beeswax finish only) and you may encounter some rusting issues if not totally protected.

33002  
(Maintenance Wax)

When choosing the Beeswax finish, sometimes because of temperature changes, your product might have a slight white bloom when opening the packaging. We recommend you buff it with a soft cloth, this will restore the finish. However, mild steel or malleable iron, which are the two materials we forge, when fitted in damp bathrooms or wet properties, have the potential to exhibit surface rust. If surface rust does occur rub with wire wool and apply maintenance wax with a rag or brush. The maintenance wax will restore the finish and afford protection.

Some of our finishes (Polished & Antique Brass) will naturally tarnish and produce a darker, aged patina over time and would therefore need to be treated with a brass polish to maintain and protect the item, if desired.

Our wooden finishes can also be polished or waxed to maintain the vibrancy of the wood and to give protection from general usage.

All of our finishes will last for many years to come but, as with anything, the more you look after something the better it looks!

# FROM THE ANVIL DESIGN - MANUFACTURE - QUALITY

Observation, ingenuity and experience are all key to providing inspiration for product development.

Timeless classics with new contemporary twists are designed to top specification for ease of use, combining style with functionality.

Prototypes, competently produced from initial concepts and drawings, inform the manufacturing process for each item; while ranges of products in differing styles and finishes are developed to provide for continuity throughout a project.

Traditional methods of shaping the base metal, using fire and an Anvil, ensure that we retain both strength and beauty in the resulting products.

Within the 'Anvil's' hand-forged range no two pieces are identical. Each item is a unique yet functional work of art skilfully created by one of our master craftsmen.

16 years experience and a wealth of ingenuity has established 'From the Anvil' as an accomplished manufacturer of quality ironwork.

The manufacturing process of hand forging mild steel enables 'From The Anvil' to achieve the strongest and most unique ironmongery available on the market with a focus on quality as products are honed to the highest specification.

## A collage of 12 images showcasing various architectural styles and interior design elements. The images include: a dark green door with a diagonal brace on a brick wall; a light blue door with a glass insert on a brick wall with purple flowers; a wooden door with a glass insert on a yellow house; a large wooden door on a stone wall; a black door with a glass insert on a white house; a black door with a glass insert on a white house; a black door with a glass insert on a white house; a black door with a glass insert on a white house; a black door with a glass insert on a white house; a black door with a glass insert on a white house; a black door with a glass insert on a white house; and a black door with a glass insert on a white house.

[illegible]

## A black and white photograph of a workshop interior. The walls are covered with various tools hanging on pegs. A large, dark, curved object, possibly a mold or a piece of machinery, is mounted on the wall. A window on the right side of the frame allows bright light to enter, illuminating the scene.

# CUSTOMER HOMES

*From The Anvil products in use in your home...*

Does 'From the Anvil' hand forged ironmongery already add that beautiful finishing touch to an aspect of your home?

Are you so proud of your property that you'd want to show it off to the world?

Would you be happy for your project to feature as a case study on our website or in future issues of our glossy brochure?

If the answer is yes, then we'd really like to hear from you!

Drop an email to us at: [casestudies@fromtheanvil.co.uk](mailto:casestudies@fromtheanvil.co.uk) attaching an image or two detailing our ironmongery in your home, new build or renovation project.

We may just spotlight your home as part of our 'Customer Homes' feature on our new website at: [www.fromtheanvil.co.uk/case-studies](http://www.fromtheanvil.co.uk/case-studies) and, if we do, we'll give you £200 (r.r.p.) worth of 'From the Anvil' products of your choice.

# SUPPLY POLICY

It is our policy to distribute our products through a strong network of trade outlets namely architectural ironmongers and builders' merchants throughout the UK.

Please e-mail: **info@fromtheanvil.co.uk** for a recommended outlet in your area.

## CONDITIONS OF SALE

1. Slight variations in sizes and colour may occur due to the hand-crafted nature of the products. This is why people buy our products because no two items are the same.
2. All items shown within this catalogue are offered subject to availability.
3. Any prices or quotations obtained verbally will not be deemed valid, nor will any responsibility or intent be accepted.
4. Deliveries direct to site will not be undertaken without full postcode, contact name and telephone number. Please note that 'From the Anvil' does not accept any liability for site deliveries and they are sent at the customers' own risk.
5. Whilst 'From the Anvil' endeavours to offer outstanding service, our prompt progression of orders means that they maybe unable to include additions with the main consignment once it has been processed and packed. Hence these may be considered as a separate order and be subject to additional carriage charges.
6. All requests for returns must be made in writing. The customer will be charged a restocking charge and the goods are to be returned at the customers' own expense. The goods must be in a re-saleable condition and must be authorised by us. If packing is not complete no credit will be given. The customer must provide us with the original invoice, despatch note or other proof of purchase. All goods will be thoroughly inspected before credit is given.
7. Claims for shortages, damaged goods or incorrect supply must be notified within 3 days of receipt. No responsibility will be accepted after this interval as the goods will be deemed examined and satisfactory.
8. To the best of our knowledge, all definitions, descriptions and photographs contained in this catalogue are correct at the time of going to press. We cannot, however, be held legally liable for any inaccuracies of definition or description.

*Please note that any information within this catalogue is to be used as a recommendation of use only, and 'From the Anvil' does not accept any liability. 'From the Anvil' Customers are encouraged to seek other technical advice. Due to the printing process we advise that you do not use the colour images in this catalogue as an indication for colour replication.*

9. In the event of goods proving faulty by way of manufacture, 'From the Anvil' will replace the same but in doing so, no liability, consequential or otherwise, is accepted.
10. 'From the Anvil' warrants that the goods are of merchantable quality (as defined in the Sale of Goods Act 1979) but does not warrant that the goods are fit for any specific purpose and accepts no liability for any loss or damage suffered by the customer as a result of any defect in the design, materials or workmanship of the goods.
11. The customer shall indemnify 'From the Anvil' in respect of any loss, injury, expense or claim of whatsoever nature and howsoever arising out of the Contract or the goods, or their storage, installation, use, operation or maintenance save to the extent that the same is caused by negligence of 'From the Anvil', its servants or agents, including 'From the Anvil's subcontractors.

**N.B.**  is a registered Trademark and may, in no way be reproduced, replicated or copied without prior consent or agreement from the management.

Wherever possible our products have been stamped with an Anvil Authentication Mark to show genuine 'From The Anvil' products.

*Owning a period property can be very rewarding but restoration and repair can often be a daunting challenge.*

*Maintaining the feel of authenticity you originally fell in love with by using modern, mass-produced fixtures and fittings is almost impossible.*

*All 'From The Anvil' items are hand-forged by master craftsmen using traditional English blacksmithing methods.*

*Designs are based on timeless classics, but hand-forging means that no two pieces are identical, each one a unique yet functional work of art that will only enhance it's setting.*

*We hope you enjoy our new 'From The Anvil' ironmongery collection.*
