

SHEET/PLATE POLISHING

Quality Stainless Steel Services.

CMPPI
CUSTOM MFG. &
POLISHING, INC.

We have 3 standard polishing options. Ask us for customizations!

STANDARD POLISH

Material hold-downs leave 3/8" to 1/2" maximum on one end and 1 3/4" to 3" maximum on the other end left unpolished.

TAB POLISH

This provides polishing to approximately 3/8" (+/- 1/4") on each end, with some possible distortion from welding on tabs.

FULL SHEET/PLATE POLISH

Requires material at least 3" longer than actual required finished length. After polishing, the unfinished edge is sheared off.

Finish Options

STYLE	GRIT	Max RA
3	100 - 120	61
4	150 - 180	30
6	220 - 240	14
7	320	10
8	500 - 800	RA < 3
