April

- c. Which month did company B have the lowest number of sales?

April

- d. Describe the trend in sales for Company A.

It kept going down from April to June and then went slightly up in July.

- e. Describe the trend in sales for Company B.

It kept going up from May to June and then went slightly down in July.

2. Company sales in years 2016 to 2020 are shown below. Instore sales are shown in blue and online sales in orange.

Should Company C invest more in online or instore products? Why?

Company C should invest more in online products because online sales have kept increasing from 2016 to 2020.
