Over these 3-days of instruction, you will learn (among other topics) about:

- The 3 aging in place market segments
- How to appeal to each market segment
- Using universal design as a baseline solution
- Creating visitable homes
- Interacting with other professionals
- Assembling an effective delivery team
- Conducting home assessments and audits
- Marketing your services and selling the job
- Legal considerations to keep in mind
- Appealing to renters as well as homeowners
- Commonly used and accepted solutions
- Industry design trends
- Challenges in delivering solutions
- Determining market areas
- Creating solutions for specific needs
- Building codes and considerations
- Changing human performance characteristics
- Using technology to create solutions
- Working with normal aging issues
- Serving the special needs population

Steve Hoffacker, CAPS, CEAC, SHSS, has over 30-years’ professional experience in the building and construction industry. He has been recognized for his sales and education accomplishments through 4 national awards from NAHB over the past several years, including CAPS Educator of the Year for 2015 and was named a Master Instructor in 2017. He writes extensively about aging in place and universal design and has published his “Aging In Place Insider” blog daily since the beginning of 2016 as well as moderating “Aging & Accessibility” groups on Facebook and Linked In. He is North America’s most experienced aging in place instructor and has been selected several times by NAHB to teach the CAPS I and Universal Design/Build classes at IBS.

If you’re a general contractor, builder, remodeler, handyman, real estate sales professional, lender, occupational therapist, physical therapist, durable medical equipment provider, nurse, physician, case manager, architect, interior designer, kitchen and bath designer, attorney, financial planner, counselor, social worker, building materials supplier or manufacturer, non-profit agency, support group staff, home inspector, or anyone else interested in helping people remain independent, safe, and comfortable in their homes as they age (with or without limiting conditions), this coursework is for you.
