

INSPIRED BRITISH DESIGN

THE KITCHEN COLLECTION

mackintoshkitchens.co.uk

DESIRABLEMEETS DURABLE

I'm delighted to be introducing the Mackintosh Kitchen range and offering a few thoughts and ideas to help you create the perfect kitchen space.

When choosing a kitchen, people often overlook the importance of build quality. It's very easy to get distracted by the style and overall design of a kitchen, but solidly built cabinets is what gives your new kitchen that premium quality feel.

The Mackintosh name has a long association with cutting-edge design and superior craftsmanship, so it's no surprise that these cabinets are designed to last. In fact, every kitchen Mackintosh make is guaranteed for 10 years.

If that doesn't give you all the peace of mind you need, you'll also find an indispensable guide to buying a new kitchen on page 6 to help make the process as simple as possible.

With so many fantastic styles, accessories and ideas across the following pages, I know you'll have no problem creating that dream kitchen.

George Clarke

Architect, Writer, Lecturer and TV Presenter.

PS You'll find even more useful information and a kitchen visualiser tool at mackintoshkitchens.co.uk

CRAFTED FOR THE INDIVIDUAL

Throughout his life, the designer, architect and artist Charles Rennie Mackintosh was influenced by a wealth of artistic forms. His genius was in his ability to cleverly unite these separate elements to create his own unique and modern style.

The Mackintosh philosophy now lives on through this inspired collection of kitchens, all of which offer a seamless combination of beauty, durability and effortless functionality.

True to their namesake, Mackintosh Kitchens are designed with a visionary flair and a meticulous attention to detail. Combining true British craftsmanship with contemporary design features, it's a range that not only looks stunning, but also meets the demands of modern-day life.

Individuality was important to Charles Rennie Mackintosh. In fact, few designers can claim such a unique and instantly recognisable style. Because we're firm believers in individuality too, every Mackintosh Kitchen comes with an inspirational choice of colours, textures, design details and finishing touches.

INSPIRED BRITISH DESIGN

At Mackintosh we're very proud of our British heritage, not to mention our reputation for designing and manufacturing an outstanding range of durable, high-quality kitchens. All of which are made using the latest manufacturing techniques at our modern, purpose-built factory in Yorkshire.

But being British isn't just about geography. It's about having a forward-thinking attitude and a natural flair for ingenuity. Good British design has always set the trends and pushed the boundaries, which is something we strive to do with every kitchen we create.

Wherever we can, we use British components in our Mackintosh Kitchens. But to help ensure we maintain the highest possible standards, we also source materials from around the world. These are then combined and manufactured in the UK to produce a superior quality kitchen, backed by unrivalled customer service.

THE RIGHT WAY TO BUY A KITCHEN

"Before you talk to a designer, think about how you and your family will use the space and give yourself enough time to make the right decisions. Start by measuring the dimensions of the room and have a go at roughly planning out what would work best for you."

JOE

George Clarke
Architect, Writer, Lecturer
and TV Presenter.

The modern-day British kitchen is by far the busiest and most regularly used room in the home. With so many functions performed in it every day, proper planning and great design is essential.

The kind of space you have available, and how your family move around it will play a huge part in the overall design of your kitchen. You want it to look beautiful, but also work beautifully, to complement your way of living.

So take your time to browse the full range of Mackintosh Kitchens in this brochure, then follow these five simple steps to help you make the right choices.

STEP 1 IT'S ALL IN THE PLANNING

Getting a kitchen that's perfect for you and your family's needs takes time and plenty of planning, so don't try to rush this stage. Before you talk to any experts give yourself time to sit down and think about how you would like to use the space.

Ask yourself: what would be my ideal layout? Who's going to use it? How much storage do I need? What appliances do I want? What colours and textures do I like? Do I want an island unit and can the space take it?

Measure the dimensions, including where the doors, windows and services are located and make a list of exactly what you want and need.

STEP 2 ADD SOME EXPERTISE

Once you have the measurements and a rough outline of what you want, it's time to visit your local Mackintosh retailer to chat through your ideas with a designer.

They'll have the experience and design expertise to advise you on what will work and what won't, and will be able to turn your initial thoughts into something that not only reflects your personality, but supports and enhances your individual lifestyle.

STEP 3 DECIDE ON THE DOORS

Nothing defines a kitchen more than the doors. Depending on the design, you can create something elegant, rustic, eye-catching, minimalist or luxurious.

A Mackintosh Kitchen has dozens of traditional, shaker and modern styles available, in a range of gloss, wood effect, timber and painted finishes. All of which can be customised with an extensive range of handles. Or you can choose to go handleless if you want a truly modern look.

STEP 4 LET'S TALK STORAGE

You should have already thought carefully about your storage. Not just what you need now, but also in the future.

By using your available space efficiently, it's surprising just how much extra storage you can create. Mackintosh units are available with all kinds of ingenious storage solutions such as the designer 'LeMans' corner unit, pull-out larders and internal drawers. You'll find the full range of functional accessories, including lighting and shelving, from page 152.

STEP 5 WORK OUT YOUR WORKTOPS

Choosing a worktop is an important part of the design process and can change the whole look and feel of your kitchen. So it has to be right.

That's why Mackintosh offer a huge range of durable laminate worktops from Duropal, one of the UK's leading suppliers. They're available in a wide choice of colours and styles, and in 40mm & 22mm thicknesses. There's also a unique range of curved worktops, designed specifically to suit the collection of curved base units.

GREAT BRITISH CRAFTSMANSHIP

The cabinet forms the very foundation of your kitchen, so it's important to choose one that's built to withstand the daily rigours and demands of modern-day living.

Mackintosh kitchen cabinets are made by combining tried and tested traditional methods, such as glue and dowel construction, with the latest and most innovative manufacturing techniques.

All our kitchens are made to order and supplied completely rigid*, with doors, drawers and wirework pre-fitted. The result is a superior-quality cabinet that's ready to be installed and has no unsightly fixings or redundant drill holes.

The full list of features and benefits of the Mackintosh cabinet can be found on page 148. However, when choosing your kitchen, you should also give careful consideration to three other important areas: the drawers, hinges and edging.

SOFT-CLOSE HINGES

To match the well-crafted quality of the drawers, Mackintosh units are supplied with Grass 'Tiamos' hinges. These have a modern square design with no visible fixings, and an integral soft-close action that's both reliable and consistent, even from 30 degrees, with no bounce-back. The Tiamos hinge is also child-safe to ensure fingers can't be trapped in the linkages.

PROTECTIVE EDGING

The kitchen is an environment of constantly changing temperature and humidity. To protect your kitchen, Mackintosh units are supplied with the finest, durable 1.3mm PVC edging. Not only does this provides a better finish, more importantly it provides better protection against moisture. Please see page 148 for more important features and benefits.

YOUR CHOICE OF DRAWER BOX

A quality kitchen deserves a superior drawer box. Mackintosh kitchens feature drawers from Grass, one of the world's leading suppliers of quality drawer systems. There are three types to choose from: Scala, Nova Pro and luxury solid oak.

SCALA

Supplied as standard, Scala drawers feature full-extension drawer runners with a smooth action and a 40kg load-bearing capacity. All drawers are soft close, with a progressive damping action providing a fluid, silent close every time.

To help with cleaning, the drawers and fronts are easy to remove or replace and no tools are required. Pan drawers are supplied with either a square rail or with smoked glass sides, at no extra cost.

Scala Pan Drawers with Rails

Scala Pan Drawers with Smoked Glass Sides

NOVA PRO

Nova Pro drawers are available as a free alternative to Scala drawers and share the same great features and benefits.
They're supplied in an aluminium finish, with curved twin-walled metal sides. Pan drawers are available with either a rail or glass sides, at no extra cost.

SOLID OAK

For a little added luxury, you can upgrade to solid oak drawers with dovetail joints. These are a perfect accompaniment to Mackintosh painted kitchens and are available with a range of matching oak drawer accessories.

Sides

Nova Pro C Pan Drawers I with Crystal

Oak Pan Orawers

Please see page 150 for more important features and benefits.

*Large units, such as 1000mm larder units and L shape corner base units are supplied ready-to-assemble.

MORE REASONS TO CHOOSE **MACKINTOSH**

THE MACKINTOSH 10-YEAR GUARANTEE

All Mackintosh Kitchens come with a 10-year guarantee to give you complete peace of mind when purchasing. It guarantees that for a period of 10 years from the date of purchase, your kitchen cabinets and fascias manufactured by Omega PLC are free from defects in material and workmanship.

Please ask your Mackintosh retailer for more details.

THE MACKINTOSH DEPOSIT **GUARANTEE SCHEME**

Mackintosh Kitchens' Deposit Guarantee Scheme offers you peace of mind and certainty when you purchase a Mackintosh Kitchen from any of our approved Mackintosh Kitchens retailers.

Should the retailer cease to trade before we have delivered your kitchen, we guarantee to supply your Mackintosh Kitchen furniture at the current manufacturer's recommended retail price, less the deposit paid, provided that the amount paid to the retailer does not exceed 50% of the manufacturer's recommended retail price.

ONLINE INSPIRATION

If you're looking for even more inspiration, look no further than the Mackintosh website mackintoshkitchens.co.uk. Here you'll find a great range of features to help you find and plan out the perfect kitchen

As well as being able to browse our catalogues and an image gallery for every individual kitchen and accessory, our blog and inspiration pages are full of helpful, expert advice to help you make decisions that will work for your space.

You'll find an easy-to-use kitchen visualiser too, which allows you to try different combinations of painted kitchens along with a selection of handles, worktops, flooring and wall colours.

DESIGNED FOR YOU AND YOUR WORLD

Here at Mackintosh, it's not just the kitchen environment we care about. We're also committed to making our planet a cleaner, more beautiful place too. So naturally, sustainability is something that's very important to us. From the wood we use, to the energy we consume, to our transport and logistics, we take great care to ensure we're being environmentally responsible at all times.

We also like to make products that last. We believe that this is just as important for protecting the world's limited resources. To that end, Mackintosh Kitchens have been awarded FSC® Chain of Custody Certification, giving you the peace of mind that the materials used to make your kitchen have been sourced from responsibly managed forests.

We hope you enjoy this Mackintosh brochure. When you've finished with it please pass it on to a friend or recycle it. Thank you.

THE MINIMALIST SPACE

The trick with a modern kitchen is to create a space that's completely uncluttered – offering a hidden place for all those things you'd prefer to be out of sight but you use every day. Free-flowing and clean in feel, the Mackintosh Modern kitchen range offers that beautifully slick look.

Along with clever storage solutions (perfect for tucking things away), you get a streamlined and highly contemporary design that fits today's idea of a sophisticated and polished home.

sense of light and air."

IDEAS TO **INSPIRE**

Here's a few thoughts and design ideas to help you enhance your Mackintosh Modern kitchen and make it your own.

BRIGHT ON WHITE

All-white kitchens look stunning, which is why it remains such a sort-after look. You can stop the style looking too cold and clinical by adding colourful design details such as tiles, cookware, even a bowl of fruit. Set against a bright white backdrop, these colourful accents will really jump out.

MODERN METALLICS

With stainless steel kitchen appliances as popular as ever, there's a wealth of metallic accessories out there to complement and accentuate the look. Silver and chrome remain a firm favourite but more recently, alternatives such as gold, bronze and copper have gained in popularity.

WHERE TO BUY: White and Black Vase, Kelly Hoppen, £29.00. Espresso Maker (Silver & Brown), Black By Design, £170.00. Stainless Steel Teapot, Black By Design, £209.00. Square Metal Pendant Light, BHS £150.00. Wooden Strip Hanging Light, BHS, £250.00. 3 x Glass Globe Pendant Lights, Amara, £850.00. All product information and pricing is correct at time of print. Copyright of all images is held by the manufacturers and suppliers of products.

Available in either horizontal or vertical grain.

LINEAR BROWN GREY AVOLA & CHAMPAGNE AVOLA

Eye-catching textured woodgrain finishes coupled with an understated, modern design that makes a bold statement at the heart of a contemporary home.

A TIMELESS LOOK

The perennial Shaker kitchen offers a simple, understated style. Whilst the classic design creates a feeling of heritage, it's neutral enough to let you make your own mark on your space.

Its founders, The Shakers of New England, believed everything in a house should have a function and that decoration was unnecessary Instead, the emphasis was on practicality and durability. Which is something you can be certain of with a Mackintosh Shaker kitchen.

"The simplicity of a Shaker-style kitchen means it can feel quintessentially country-like, rustic farmhouse or urban twist — whatever your taste, it can work in your home."

IDEAS TO INSPIRE

Here's a few thoughts and design ideas to help you enhance your Mackintosh Shaker kitchen and make it your own.

THINK BIGGER

The trend is definitely leaning towards the larger tile. Gone are the days when every tile came in a standard 12in x 12in format. You can now make a bigger statement with large format tiles up to the size of a kitchen table, and there's never been more materials and finishes to choose from.

BOLD STORAGE

The kitchen is complete and the last thing you want to do is clutter the counters. Give essentials a bold lift with the latest storage solutions. Think about putting shelves up to store them on if you want to make a great design feature.

WHERE TO BUY: 3 x Storage Pots in Blue Black and White, Amara, from £15 - £400. Black Utensil Storage, Black By Design, £32.00. Blue Pot, Amara, £79.90. Frying Pan, Houseology, £67.00. PHANDLE OPTIONS

We offer an extensive range of distinctive handle styles to let you personalise your Mackintosh Kitchen and make it your own.

Please note, not all handle suites are suitable for each kitchen. Most are supplied at no extra charge, however, a small number do carry a surcharge and your Mackintosh retailer will be happy to advise you on suitability and costs. A handle suite may comprise up to three handles which are fitted to drawers, doors and spice boxes where applicable.

MODERN HANDLES

- Suite 721 & 722

- * Handle suite carries a surcharge.
- ** Handles fitted horizontally.
- † Handles can be fitted either vertical or horizontal.

TRADITIONAL HANDLES

HANDLE-LESS KITCHENS

If you're looking for a minimalist kitchen, perhaps a kitchen that doesn't feature handles that can detract from clean lines and a sleek design, then Mackintosh has three ways to achieve this - Inset, Touch and Integral.

MACKINTOSH INSET KITCHENS

The principle of Mackintosh Inset Kitchens is that doors and drawers include a cup, fitted to the reverse, allowing them to be opened without the need of a protruding handle. This ensures a minimalist approach whilst maintaining soft close actions on doors and drawers.

To allow access to pan drawers, larder units and appliance housings, Inset kitchens are designed using horizontal and vertical extrusions, in a brushed steel finish. These not only provide a functional purpose but also work well with the range of doors available.

Inset can be used on a total of 56 doors, including all Sheer, Chic, Fresco, Metrica (all colours, except Gloss Black) and Linear.

Mackintosh Kitchens can be designed without handles using our Touch system. Doors and drawers are opened simply by touch, allowing you to create a minimalist, handle-free design.

Certain units, such as pull-out larders, appliance doors and magic corner units require a handle. A specifically designed handle suite (suite 653) is available to allow these units to be opened whilst still ensuring a minimalist design. Alternatively, a face-fixed handle could be used and we recommend the following handle suites - Suites 605, 610 and 707.

MACKINTOSH INTEGRAL KITCHENS

Integral kitchens are the third way to design a Mackintosh Kitchen without a handle. This style features an integrated J-Pull style handle grip (called J-Pull due to its shape).

The integrated grip of Integral has been specifically developed to be deeper that other versions, providing more grip and ensuring that opening dishwasher and larder doors is easier.

Integral kitchens are available in six gloss finishes (White, Ivory, Grey, Light Grey, Cashmere and Anthracite) as well as 15 matt painted colours.

ENHANCING THE DESIGN

Every Mackintosh Kitchen comes with a variety of optional design features and innovative storage solutions. These give you the flexibility to customise your chosen kitchen style and further enhance the look and functionality of the space.

WALK-IN CORNER LARDER STORAGE

The corners of your kitchen is often where valuable storage space is lost, or difficult to access. Our expertly designed walk-in corner larder unit solves this problem beautifully. With an abundance of accessible storage, including a full-height wine rack, it's the perfect solution when designing around a corner.

Alternatively, you can opt for a standard corner larder unit which includes four Kessebohmer LeMans storage systems, also providing easy access in a hard-to-reach area of the kitchen.

USING UNITS DIFFERENTLY

A standard kitchen unit doesn't have to be used in a standard way, you can create your own, unique design. Bridging units for example, typically used around a sink or a hob, can be combined with open plan shelving to create a striking, yet functional design feature.

Traditionally, a pan drawer unit consists of a large, shallow top drawer, with two deeper bottom drawers. An alternative option with a Mackintosh Kitchen is to use a pan drawer with two narrower top drawers. Or, when using a double base unit, you can opt for a larger drawer rather than two separate drawers as shown.

L-SHAPE CORNER UNITS

When designing around a corner, there are many ways to ensure you have easy access to hard-to-reach storage space. One such solution is an L-shape corner unit. Available in multiple sizes, it can provide spacious, everyday storage.

LIFT UP WALL UNITS

An alternative to the standard side-opening wall unit is our innovative lift-up wall unit. It's ideal when you need access for longer, whilst cooking perhaps, as it allows the unit to remain open without the risk of hitting your head on the open door. The flap mechanism also features a soft close system for silent, effortless closing.

GLAZED UNIT

Why not consider making a feature of your wall units with our stylish glazed doors? You can choose from a range of aluminium frames and glazing designs to complement both traditional and more contemporary kitchens.

CHUNKY PILASTER

Adding decorative features like pilasters can work beautifully with a Mackintosh Kitchen, particularly with the more traditional styles. There are a variety of designs to choose from, allowing you complete control over the look, feel and personality of your kitchen.

LARDER UNITS WITH OAK DRAWERS

To complement your Mackintosh Kitchen, we have a great range of larder and pantry unit options, complete with beautifully crafted oak drawers. They're available in a variety heights and styles.

WORKING MANTEL

Usually a feature of traditional kitchen designs, mantels make practical and attractive additions to your space and are available in a variety of veneered and painted finishes.

CURVED CORNER UNIT

A stylish alternative to the more standard L shape corner base unit, the curved version, with its sweeping lines, can suit both modern or traditional-style kitchens. They partner perfectly with our range of curved laminate worktops and are available in a selection of kitchens:

Metrica (except Black), Integral (all colours), Linear Painted (all colours), Timeless (all colours), Chamfered (all colours), Sculptured (all colours), Manor House Painted Shaker and Painted Timber Shaker (all colours).

*Please note that the curved unit used for In-Line ranges is supplied with two doors.

WICKER BASKETS

More suited to traditional kitchen designs, these wicker basket base units are ideal for larder-style storage. OPTIONS & ACCESSORIES mackintoshkitchens.co.uk | 149

© TAKE YOUR VISION FURTHER

If your home has a utility room, it's worth considering redesigning this space at the same time as your Mackintosh Kitchen. That way you can ensure a consistent, co-ordinated look.

Housing your appliances inside cabinets creates a clean and uncluttered space, which you can break up by introducing some open shelving for items you need easy access to.

When it comes to storing larger items such as ironing boards, laundry baskets and vacuum cleaners, our tall larder and corner larder units are ideal for maximising your available space.

Whatever options you go for, you can be sure a Mackintosh utility room will be every bit as durable and meticulously designed as our kitchens.

CABINET SPECIFICATION

Your cabinets will form the foundation of your new kitchen. So when you're looking for real durability, only a truly quality build will do. The hallmark of that quality, is a glue and dowel construction, giving you a cabinet that's built to last and leaving you no unsightly visible screws, fixings and drill holes.

As the kitchen can be an environment that has a lot of moisture in the air, it's also really important to make sure that any exposed edges are protected from potential water damage too.

This range gives you the option to add even more quality with features like adjustable shelving, soft-closing hinges and anti-tip fittings.

BASE UNIT

- 18mm MFC glue and dowel construction, for no visible fixings.
- 15mm solid back panel for extra rigidity.
- · Cabinets are edged all round for protection against moisture, even on the edges you can't see.
- · Cabinets include a 1.3mm thick front protective edging.
- Grass Tiamos In-line hinges with integrated soft close action.
- Drilled-in shelf support pegs with adjustable shelf positions.
- 50mm service void that aids installation.
- · Concealed unit fixings.
- Front-frame fixings are vertically and horizontally adjustable.
- Adjustable legs for fitting on uneven floors.

WALL UNIT

- 18mm MFC glue and dowel construction, for no visible fixings.
- · 8mm solid back panel for extra rigidity.
- · Cabinets are edged all round for protection against moisture, even on the edges you can't see.
- · Cabinets include a 1.3mm thick front protective edging.
- Grass Tiamos In-line hinges with integrated soft close action.
- Drilled-in shelf support pegs with adjustable shelf positions.
- Choose from 300mm or 350mm depth units (350mm depth fits a 12" dinner plate).
- Choose from three heights: 576mm, 720mm or 900mm.
- · Concealed wall fixing brackets, 150kg loading per pair, which are wall-locking for safety, with a third bracket supplied to double-width wall units.
- · Double-width units supplied with full centre division for prevention of shelf bowing and increased shelf-adjustment options.
- · Glass shelves as standard for glazed units.
- Front-frame fixings are vertically and horizontally adjustable.

COLOUR CO-ORDINATED CABINETS

Choose from 10 cabinet finishes which allow you to colour coordinate or contrast your fascia style. A full range of matching plinths, panels and pilasters are also available which will add to the overall co-ordinated look.

SINKS & TAPS

This range of sinks and taps have been specifically developed with Schock, providing a comprehensive and stylish offer.

Schock is the word's leading supplier of granite sinks and the Neptune range is made from their outstanding material, CRISTALITE®.

Schock sinks are easy to clean, safe for use with food and are finished with Schock Antibac. The special hygiene protection uses natural silver ions to reduce bacterial growth by up to 95% and make working in the kitchen cleaner and safer. The range of stainless steel sinks from Schock are made from 18/10 grade stainless steel – the highest grade available – ensuring your sink is highly resistant to staining, rusting and corrosion.

DUROPAL QUADRA WORTOPS

>>

>>

So, you have chosen your Mackintosh Kitchen, now you need to select the right worktop to finish your design. To help you, we have chosen a comprehensive range of colours to complement the Mackintosh range from the Duropal Quadra Worktop collection.

Duropal are a leading supplier of quality laminate worktops throughout Europe, and the Quadra range of worktops are an ideal alternative to solid surface, granite or timber worktops. The Quadra profile is designed to provide the appearance of solid surface worktops and the unique 'seal groove' ensures a lifetime of protection against moisture and steam.

These high quality, fashionable and durable worktops are resistant to: sunlight, scratching, abrasion, stains (such as coffee, tea, red wine, ink), fruit juice spills,

steam and cigarette burns, and have achieved the FIRA Gold Award for product excellence.

To view displays of Duropal worktops, please visit your local Mackintosh retailer.

Unique 'seal groove'

CURVED WORKTOPS

A range of Duropal worktops have been designed specifically to suit our curved base end and curved corner units perfectly. These worktops have a totally flat-faced profile and are a practical and cost effective solution to solid surfaces and granite worktops. Curved worktops are

available in both 40mm and 22mm thicknesses in all the colours.

GABLE ENDS

Available in all colours, in 40mm and 22mm thicknesses (where available), gable ends are an ideal way to create a peninsular island unit effect, or can be used as a stylish way to end a run of base units.

LAMINATED BACKBOARDS & UPSTANDS

Available in all colours, splashbacks and upstands are an ideal alternative to tiling, protecting walls from splashes behind hobs and sinks.

WORKTOP COLOURS

All colours available in 40mm Quadra profile.
All colours available in 40mm & 22mm Curved/Straight-edged profile.

Please note: High Gloss laminates, whilst equally hardwearing may show scratches.

To order a FREE sample colour swatch, delivered direct to your home, please call 01625 660411.

FREQUENTLY ASKED QUESTIONS

We understand the questions that are asked most about Mackintosh Kitchens. However, if you have a question that isn't covered here, please contact your approved Mackintosh retailer who will be able to answer your queries.

The kitchen is undoubtedly the most popular and widely used room in the house, and the various functions the kitchen of today is asked to perform, requires accurate planning and good design.

A good starting point is to look at the various ways in which your kitchen is used, how often and who uses the kitchen. This will then provide you with a list of basic design requirements for your kitchen that need to be met.

Where can I see displays of Mackintosh Kitchens?

Your local Mackintosh retailer will have a selection of displays and a full set of doors for you to view. We strongly recommend that you always view a display or sample door before purchasing your Mackintosh Kitchen.

What is the difference between a true rigid cabinet and a flat-pack assembled cabinet?

Mackintosh Kitchen units are true rigid units, assembled in our factory by skilled craftsmen using the latest technology. True rigid units are assembled using glue and dowel, rather than cam and dowel construction, ensuring there are no visible fixings or redundant drill holes. Mackintosh units are also supplied with doors, drawers and accessories pre-fitted and we even drill for doors and drawers for handle suite selection*

* Applies to the majority of handles.

Do you charge for delivery?

No, we provide a FREE ** delivery, direct to your home and our two-man delivery teams will ensure your new kitchen is delivered with care and professionalism.

** Minimum order value required.

What happens if I pay a deposit to a retailer for a Mackintosh Kitchen who then ceases trading before my kitchen is delivered?

In the unlikely event of this happening we run a Deposit Guarantee Scheme. This ensures that we will still supply your Mackintosh Kitchen furniture at the current manufacturers recommended retail price list, less the deposit paid on furniture, provided that the amount paid to the dealer does not exceed 50% of the manufacturers recommended retail price.

Can I buy direct from Mackintosh?

Omega PLC are the manufacturers of Mackintosh Kitchens and only sell via specialist retailers who will use their extensive knowledge and expert design skills to produce the kitchen of your dreams.

Do your kitchens carry a guarantee?

Yes, all Mackintosh Kitchens are supplied with a 10 YEAR GUARANTEE, providing you with complete peace of mind when purchasing your kitchen. Mackintosh guarantees that for a period of ten years from the date of purchase that the kitchen cabinets and fascias ("the products") manufactured by Omega PLC are free from defects in material and workmanship. Mackintosh Kitchens will supply replacement products for items that do not comply with this guarantee free of charge or, at our discretion, repair such products free of charge subject to our terms and conditions.

How long will it take for me to receive my Mackintosh Kitchen?

Once the retailer has placed the order with us, your Mackintosh Kitchen will be delivered within 2-3 weeks. However, Painted kitchens are available within 3-4 weeks from placing the order.

KITCHEN CHARACTERISTICS

Wood is a natural material with an endless variety of textures and grains. Variations evident on installation should diminish over a period of time to create a pleasant uniformity. As our policy is one of continuous improvement, we reserve the right to amend designs and specifications without prior notice. Where real wood veneers are used on external surfaces, we are unable to guarantee an exact match due to natural variations in colour and grain. The colours in this brochure are as accurate as the printing process will allow, and we recommend that you view a display or sample door at one of our approved retailers prior to purchase. Errors and omissions excepted.

YOUR MACKINTOSH KITCHEN AT A GLANCE

We think it's important that you know what your kitchen is made from so we have listed below the material description. And, because we think kitchens should also look good on the inside our designers have recommended the best cabinet colour to use. You can also see here, at a glance, what design features are available for your new kitchen.
