GREEN COFFEE EXTRACT 45% CHLOROGENIC ACIDS 0.5% CAFFEINE

COFFEATALY® Green coffee extract 45% Chlorogenic Acids 0.5% Caffeine

Origin of the drug: South America

Origin of the extract: Italy

Solvent: water

Full traceability: from beginning to end

DOSAGE:

Food grade extract: 200-250 mg/die

Food grade extract:

- Chlorogenic acids support the weight loss benefits of green coffee bean in two different ways: first, promote balanced blood sugar by inhibiting the release of glucose within the body. Secondly, chlorogenic acids boost the metabolic output of the liver, which burns more fat. This mechanism works to support lean body mass by hindering the absorption of fat and weight gain.
- Green coffee contains polyphenols (including chlorogenic acids), which help the body to neutralize harmful free radicals.
- Coffeataly® is low in caffeine (0.5%) so it's not a stimulant

COFFEATALY® is an Italian extract, produced 100% in our Factory (www.evraitalia.it)
