## **GojiRED®**

LYCIUM BARBARUM DRY EXTRACT 40% POLYSACCHARIDES

## GOJIRED® - Lycium barbarum dry extract 40% Polysaccharides

Origin of the drug: Italy

Origin of the extract: Italy

Solvent: Water

Full traceability: from beginning to end

### DOSAGE:

Food grade extract: 250 mg/die

### Food grade extract:

Goji berries have been used in traditional Chinese medicine for over 2,000 years.

Low in calories, fat-free, good source of fiber and high-antioxidant food, goji berry benefits include the ability to help you fight disease, effectively manage your weight and experience better digestion. Usually eaten raw, dried, liquid or powder form, versatile goji berries contain a wide range of phytonutrients, vitamins and trace minerals, giving them the name "superfood berries" by many health experts. Like most of other superfoods, goji berries are an excellent source of antioxidants that help boost the immune system and protect the body from high levels of inflammation, since they fight free radical damage. In terms of quantity of antioxidants present in goji berries, they have a high ORAC value along with other beneficial berries, which indicates their exceptional ability to reduce oxidative stress.

GOJIRED® is 100% Made in Italy from beginning ( RAW MATERIAL ) to end ( DRY EXTRACT )
