SagEX[®]

SALVIA OFFICINALIS DRY EXTRACT 2,5% ROSMARINIC ACID

SAGEX® Salvia officinalis dry extract 2.5% Rosmarinic acid

Origin of the drug: Italy
Origin of the extract: Italy
Solvent: water

Full traceability: from beginning to end

DOSAGE:

Food grade extract: 250 mg/die
Cosmetic grade extract: 0,5%-2%

Food grade extract:

🌿 **Estrogenic properties:** modern studies have shown that sage helps to relieve both the frequency and severity of certain symptoms such as hot flashes, night sweats, and dizziness. It has also been used to treat irregular periods, and many women find that it helps the body make the transition through hormonal change. Sage leaf can help regulate your mood by reducing the severity of mood swings.

Cosmetic grade extract :

🌿 Sage contains the same condensed tannin (consisting of trimers of caffeic acid) found in lemon balm and peppermint. This tannin has a potent inhibitory action against Newcastle Disease virus and herpes simplex virus.

SAGEX® is 100% Made in Italy from beginning (RAW MATERIAL) to end (DRY EXTRACT)
