SOLANRED[®]

RED EGGPLANT(MELANZANA ROSSA DI ROTONDA)
PDO(Protected Designation of Origin)

SOLANRED® Red Eggplant (Melanzana Rossa di Rotonda)
Solanum aethiopicum

Origin of the drug: Italy
Origin of the extract: Italy
Solvent: water

Full traceability: from beginning to end

DOSAGE:

Food grade extract: 200-250 mg/die
Cosmetic grade extract: 0,5-2%

Solanred® is the patented extract of Red Eggplant of Rotonda (*Solanum aethiopicum*) made from a DOP product: it comes from controlled cultivation in the Pollino National Park (Potenza). Similar to a tomato for the color and the rounded shape, this eggplant is rich in components such as **amino, ascorbic acid, carbohydrates, polyphenols, flavonoids, phytosterols, macronutrients and vitamins**

Food grade extract:

Solanred® can be used:

- ➊ to characterize and/or enrich food supplements useful to the maintenance of the natural balance of the body or in the complexes multivitamins.
- ➋ thanks to the content of protein, essential amino acids, micronutrients such as calcium, magnesium, sodium and potassium needed to muscle system, the ingredient is ideal for the preparation of nutritional supplements for the preparation and recovery after sport.

Cosmetic grade extract :

- ➊ It's used primarily for its antioxidant power for keep skin young. The content of amino acids and micronutrients effectively combats skin aging
- ➋ Hair care products: the aminoacids (glycine, valine, aspartic acid) contained in this extract moisturize and regenerate the hair, making it smooth and shiny

SOLANRED® is 100% Made in Italy from beginning (RAW MATERIAL) to end (DRY EXTRACT)

PDO (Protected Designation of Origin)
