# SECTION 1: Identification of the substance/mixture and of the company/undertaking

## 1.1. Product identifier

<table>
<thead>
<tr>
<th>Field</th>
<th>Value</th>
</tr>
</thead>
<tbody>
<tr>
<td>Product name</td>
<td>Fuel Right Winter 3K</td>
</tr>
<tr>
<td>Product code</td>
<td>Not available</td>
</tr>
</tbody>
</table>

## 1.2. Relevant identified uses of the substance or mixture and uses advised against

| Use of the substance/mixture | Fuel additive |

## 1.3. Details of the supplier of the safety data sheet

Fairville Products, Inc.
302 Robinson Lane
Wilmington, 19805 - USA
T 302-425-4400

## 1.4. Emergency telephone number

| Emergency number | CHEMTREC (800) 424-9300 |

# SECTION 2: Hazards identification

## 2.1. Classification of the substance or mixture

**GHS-US classification**
- Flammable Liquid 4
- Skin Irritation 2
- Eye Damage 1
- Carcinogenicity 2
- Aspiration Toxicity 1

## 2.2. Label elements

### GHS-US Labelling

<table>
<thead>
<tr>
<th>Hazard pictograms (GHS-US)</th>
<th>![GHS05]</th>
<th>![GHS08]</th>
</tr>
</thead>
</table>

<table>
<thead>
<tr>
<th>Signal word (GHS-US)</th>
<th>Danger</th>
</tr>
</thead>
<tbody>
<tr>
<td>Hazard statements (GHS-US)</td>
<td>Combustible liquid. Causes skin irritation. Causes serious eye damage. Suspected of causing cancer. May be fatal if swallowed and enters airways.</td>
</tr>
<tr>
<td>Precautionary statements (GHS-US)</td>
<td>Keep away from flames and hot surfaces. – No smoking. Wash hands thoroughly after handling. Wear protective gloves/protective clothing/eye protection/face protection. Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. If exposed or concerned: Get medical advice/attention. If on skin: Wash with plenty of water. If skin irritation occurs: Get medical advice/attention. Take off contaminated clothing and wash it before reuse. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a poison center/doctor. If swallowed: Immediately call a poison center/doctor. Do NOT induce vomiting. Store in a well-ventilated place. Keep cool. Store locked up. Dispose of contents/container in accordance with local/regional/national/international regulations.</td>
</tr>
</tbody>
</table>

## 2.3. Other hazards

No additional information available

## 2.4. Unknown acute toxicity (GHS-US)

Not applicable

# SECTION 3: Composition/information on ingredients

## 3.1. Substance

Not applicable
**SECTION 4: First aid measures**

### 4.1. Description of first aid measures

- **First-aid measures after inhalation**: If breathing is difficult, remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical advice/attention if you feel unwell.
- **First-aid measures after skin contact**: In case of contact, immediately flush skin with plenty of water. Remove contaminated clothing and shoes. Wash before reuse. Call a physician if irritation develops and persists.
- **First-aid measures after eye contact**: In case of contact, immediately flush eyes with plenty of water for at least 15 minutes. If easy to do, remove contact lenses, if worn. Get medical attention immediately.
- **First-aid measures after ingestion**: If swallowed, do NOT induce vomiting. Never give anything by mouth to an unconscious person. Get immediate medical advice/attention.

### 4.2. Most important symptoms and effects, both acute and delayed

- **Symptoms/injuries after inhalation**: May cause respiratory tract irritation.
- **Symptoms/injuries after skin contact**: Causes skin irritation. Symptoms may include redness, edema, drying, defatting and cracking of the skin.
- **Symptoms/injuries after eye contact**: Causes serious eye damage. Symptoms may include discomfort or pain, excess blinking and tear production, with marked redness and swelling of the conjunctiva. May cause burns.
- **Symptoms/injuries after ingestion**: May be fatal if swallowed and enters airways. This product may be aspirated into the lungs and cause chemical pneumonitis. May cause stomach distress, nausea or vomiting.

### 4.3. Indication of any immediate medical attention and special treatment needed

Symptoms may not appear immediately. In case of accident or if you feel unwell, seek medical advice/immediately (show the label or SDS where possible).

**SECTION 5: Firefighting measures**

### 5.1. Extinguishing media

- **Suitable extinguishing media**: Water fog, dry chemical, alcohol-resistant foam, carbon dioxide.
- **Unsuitable extinguishing media**: Do not use water jet.

### 5.2. Special hazards arising from the substance or mixture

- **Fire hazard**: Products of combustion may include, and are not limited to: oxides of carbon and oxides of nitrogen.

### 5.3. Advice for firefighters

- **Protection during firefighting**: Keep upwind of fire. Wear full fire fighting turn-out gear (full bunker gear) and respiratory protection (SCBA). Vapors may be heavier than air and may travel along the ground to a distant ignition source and flash back. Use water spray to keep fire-exposed containers cool.

**SECTION 6: Accidental release measures**

### 6.1. Personal precautions, protective equipment and emergency procedures

- **General measures**: Use personal protection recommended in Section 8. Isolate the hazard area and deny entry to unnecessary and unprotected personnel. Use special care to avoid static electric charges. Eliminate sources of ignition.

### 6.2. Methods and material for containment and cleaning up

- **For containment**: Contain and/or absorb spill with inert material (e.g. sand, vermiculite), then place in a suitable container. Do not flush to sewer or allow to enter waterways. Use appropriate Personal Protective Equipment (PPE).
- **Methods for cleaning up**: Scoop up material and place in a disposal container. Spilled material may present a slipping hazard.

### 6.3. Reference to other sections

See section 8 for further information on protective clothing and equipment and section 13 for advice on waste disposal.

---

*The specific chemical identity and/or exact percentage (concentration) of composition has been withheld as a trade secret in accordance with paragraph (i) of §1910.1200.*
SECTION 7: Handling and storage

7.1. Precautions for safe handling
Precautions for safe handling: Keep away from sources of ignition - No smoking. Avoid contact with skin and eyes. Avoid breathing dust/fume/gas/mist/vapors/spray. Do not swallow. Handle and open container with care. When using do not eat, drink or smoke. Take precautionary measures against static discharge. Use only non-sparking tools. Use only outdoors or in a well-ventilated area.

Hygiene measures: Launder contaminated clothing before reuse. Wash hands before eating, drinking, or smoking.

7.2. Conditions for safe storage, including any incompatibilities
Technical measures: Proper grounding procedures to avoid static electricity should be followed.
Storage conditions: Keep out of the reach of children. Keep container tightly closed. Store in dry, cool, well-ventilated area. Store away from direct sunlight or other heat sources.

7.3. Specific end use(s)
Not available.

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

8.2. Exposure controls

Appropriate engineering controls: Use ventilation adequate to keep exposures (airborne levels of dust, fume, vapor, etc.) below recommended exposure limits.

Hand protection: Wear chemically resistant protective gloves.

Eye protection: Wear approved eye protection (properly fitted dust- or splash-proof chemical safety goggles) and face protection (face shield).

Skin and body protection: Wear suitable protective clothing.
**Respiratory protection**: In case of insufficient ventilation, wear suitable respiratory equipment. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.

**Environmental exposure controls**: Maintain levels below Community environmental protection thresholds.

**Other information**: Do not eat, smoke or drink where material is handled, processed or stored. Wash hands carefully before eating or smoking. Handle according to established industrial hygiene and safety practices.

### SECTION 9: Physical and chemical properties

#### 9.2. Other information

No additional information available

### SECTION 10: Stability and reactivity

#### 10.1. Reactivity

No dangerous reaction known under conditions of normal use.

#### 10.2. Chemical stability

Stable under normal storage conditions. May form flammable/explosive vapour-air mixture.

#### 10.3. Possibility of hazardous reactions

No dangerous reaction known under conditions of normal use.

#### 10.4. Conditions to avoid

Heat. Open flame. Sources of ignition.

#### 10.5. Incompatible materials

Oxidizers.

#### 10.6. Hazardous decomposition products

May include, and are not limited to: oxides of carbon and oxides of nitrogen.
## SECTION 11: Toxicological information

### 11.1. Information on toxicological effects

#### Acute toxicity

#### Skin corrosion/irritation

- Causes skin irritation.
- pH: 10.5

#### Serious eye damage/irritation

- Causes serious eye damage.
- pH: 10.5

#### Respiratory or skin sensitisation

- Based on available data, the classification criteria are not met.

#### Germ cell mutagenicity

- Based on available data, the classification criteria are not met.

#### Carcinogenicity

- Suspected of causing cancer.

#### Naphthalene (91-20-3)

- IARC group: 2B - Possibly carcinogenic to humans
- National Toxicology Program (NTP) Status: 1 - Evidence of Carcinogenicity, 3 - Reasonably anticipated to be Human Carcinogen

#### Specific target organ toxicity

- Based on available data, the classification criteria are not met.
- Specific target organ toxicity (single exposure)
- Specific target organ toxicity (repeated exposure)

#### Aspiration hazard

- May be fatal if swallowed and enters airways.

#### Symptoms/injuries after inhalation

- May cause respiratory tract irritation.

#### Symptoms/injuries after skin contact

- Causes skin irritation. Symptoms may include redness, edema, drying, defatting and cracking of the skin.

#### Symptoms/injuries after eye contact

- Causes serious eye damage. Symptoms may include discomfort or pain, excess blinking and tear production, with marked redness and swelling of the conjunctiva. May cause burns.

#### Symptoms/injuries after ingestion

- May be fatal if swallowed and enters airways. This product may be aspirated into the lungs and cause chemical pneumonitis. May cause stomach distress, nausea or vomiting.

## SECTION 12: Ecological information

### 12.1. Toxicity

#### Ecology - general

- May cause long-term adverse effects in the aquatic environment.
12.2. Persistence and degradability

**Fuel Right Winter 3K**

Persistence and degradability: Not established.

12.3. Bioaccumulative potential

**Fuel Right Winter 3K**

Bioaccumulative potential: Not established.

12.4. Mobility in soil

No additional information available.

12.5. Other adverse effects

**Effect on the global warming**

No known ecological damage caused by this product.

SECTION 13: Disposal considerations

13.1. Waste treatment methods

Waste disposal recommendations: This material must be disposed of in accordance with all local, state, provincial, and federal regulations.

Additional information: Handle empty containers with care because residual vapours are flammable.

SECTION 14: Transport information

**Department of Transportation (DOT)**

In accordance with DOT

Not regulated for transport

**Additional information**

Other information: No supplementary information available.

Special transport precautions: Do not handle until all safety precautions have been read and understood.

SECTION 15: Regulatory information

15.1. US Federal regulations

All components of this product are listed, or excluded from listing, on the United States Environmental Protection Agency Toxic Substances Control Act (TSCA) inventory.

**Dipropylene glycol monomethyl ether (34590-94-8)**

EPA TSCA Regulatory Flag: T - T - indicates a substance that is the subject of a Section 4 test rule under TSCA.

**Naphthalene (91-20-3)**

Subject to reporting requirements of United States SARA Section 313

EPA TSCA Regulatory Flag: T - T - indicates a substance that is the subject of a Section 4 test rule under TSCA.

SARA Section 313 - Emission Reporting: 0.1 %

**Benzene, 1,2,4-trimethyl- (95-63-6)**

Subject to reporting requirements of United States SARA Section 313

SARA Section 313 - Emission Reporting: 1.0 %

15.2. US State regulations

**WARNING:** This product can expose you to Naphthalene, which is known to the State of California to cause cancer. For more information go to www.P65Warnings.ca.gov.

SECTION 16: Other information

Date of issue: 11/18/2015

Revision date: 05/27/2019

Other information: None.
