PROOPERATOR

HIGH PRESSURE CLEANING PROTECTION
UP TO 500 BAR

SAVING LIVES
Our customers are not like other customers. At least their jobs aren’t. Our customers’ workplaces are often the complete opposite of a nice and cozy office, with a pleasant indoor climate, a comfortable office chair to sit on and coffee within arm’s reach. Our customers spend their working days on oil platforms, alongside roads, in ports and in heavy industry. Often the environments are full of risks and the jobs are demanding, sometimes even highly dangerous.

Our mission is to make sure that they come home to their loved ones – every day. This is our reason for being and this is what drives us to go to work every morning. We’re not sure if safety is in our genes or if it’s developed because of Scandinavia’s harsh climate, but safety has always been important in Sweden. Perhaps this is most evident in Swedish industry, which includes Volvo with its safe cars and Autoliv, the world’s leading automotive safety supplier.

TST Sweden’s motto is saving lives. This is not only our duty, it also makes us feel good. It would be difficult to find anything more meaningful to spend our time on.

Jörgen Lillieroth, Founder and Managing Director, TST Sweden

OUR MISSION: SAVING LIVES
The Strongest Fiber in the World!

Dyneema® is the world’s strongest fiber (15 times stronger than steel on a weight for weight basis). This makes it possible to offer high levels of protection against waterjetting hazards even with lightweight fabric.

Areas with Protection

Striped fabric clearly identifies protected areas and the labels tell the level of protection. As high pressure cleaning and hydraulic fluid leakage is very dangerous, it is essential that the operator knows where and what he or she is protected for.

Certification

All of our protective products are CE-labelled. We are also certified in accordance with ISO 9001:2015 and ISO 14001:2015 – important tools for ensuring the quality of our products and our work to lay the foundation for positive environmental development.

Waterproof

Outer material in a 2 layer laminate withstands water and dirt more effectively. This keeps the operator drier and lighter, and the clothing is easy to clean. Several products also have waterproof zippers with overlapping flaps. Excellent for the toughest conditions!

High Visibility – EN ISO 20471

There is a growing demand for High Visibility Personal Protective Equipment and therefore TST decided to develop and certify a series of clothes for that purpose. All the good protective qualities and functional details from the regular ProOperator products were kept, and the High Visibility details required were added. The result is extremely functional clothes, with excellent comfort! The great looks is a pleasant side effect - High Visibility High Pressure Cleaning and Hydraulic Fluid Protection.

It’s All in the Details

Thoughtful details are often the difference between good and excellence. We know that by working closely with the users.

Reinforcements on the knees / pockets for knee pads.

Operable ventilation in the armpits.

Pocket for ID card on the right sleeve.

Detachable hood with three adjustment possibilities and room for head protection.
2-layer functional jacket which is CE certified for protection against High Pressure Cleaning and tested for high pressure hydraulic fluid. Very smooth and flexible to wear. Lined for high comfort. Water- and dirt repellent outside. Thoughtful details as openable ventilation in the armpits, comfortable cuffs and adjustable spacious hood.

- Lined for highest comfort
- Waist adjustable with drawstrings
- Inside pocket with zipper
- Special pocket for phone
- Protection on the entire front and hood
- Waterproof zippers with overlapping flaps
- Pocket for ID card on the right sleeve

**JACKET WITH HOOD**

Adjustable elasticated waist for perfect fit. Practical details such as knife pocket, leg pocket and dual loops for belt. Zippers down on the legs allows them to widen to facilitate donning the boots.

- Protection on the whole front
- Detachable braces (included)
- Leg pocket with waterproof zipper on left leg
- Pockets for knee pads
- Reinforcements on the knees
- Knife pocket on right leg
- Waterproof zippers with overlapping flap

OVERALL WITH HOOD

Excellent for the toughest conditions! Lined for high comfort. Water- and dirt repellant outside. Openable ventilation in the armpits, waterproof cuffs, adjustable hood,

- Lined for high comfort
- Inside pocket with zipper
- Special pocket for phone
- Protection on the entire front and head
- Elastic back waist
- Zippers at the bottom of the legs
- Knife pocket on right leg
- Pockets for knee pads
- Pocket for ID card on the right sleeve
- Reinforcements on the knees

HIGH VISIBILITY

Comfortable vest with protection on both the front and the back. Water- and dirt repellant outside.

- Protection all around the Vest
- Good for warm environments
- Special pocket for phone

The full area of the Apron has built-in protection. Good alternative in warm environments. The Apron is equipped with a new, cleverly designed shoulderband which improves the comfort of the operator. Properly adjusted, it distributes the weight extremely good. Easy to put on and take off.

The Arm Protections have built in protection all the way round the arm, from the wrist to the upper arm. Elastic cuffs in both ends for easy donning and good fit. Developed and recommended for personnel working at test rigs for hydraulics. Tested to withstand high pressure hydraulic fluid according to the table on page 18. Sold in pairs.
PROTECTIVE GLOVES 500 BAR

Waterproof Gloves with protection for up to 500 bar pressure.
The Gloves have a rough, sand patterned surface and the material itself provides lots of friction, all for the best grip.
Separate inner gloves in nylon for good comfort. The Gloves have also been tested and classified with the highest values for cut protection and for abrasion, tear, and puncture. Outside is dipped in nitrile rubber. Shelf life up to 3 years.
Certified in accordance with the CE directive. The Gloves do not withstand high pressure hydraulic fluid.
Supplied in 12-pack.

Note: Boots 500 withstands 300 bar / 4350 psi nozzle.

PROOPERATOR BOOTS 500 BAR

Protective and waterproof Boots CE-certified for pressurized liquids and tested for high pressure hydraulic fluid up to 500 bar / 7500 psi pressure! The Boots are professionally designed for hours and hours of hard work. Completely vulcanized rubber with reinforcement to withstand pressurized liquids on the foot (black parts.) Also fitted with steel toecap and steels inserts to withstand sharp objects from under.
Textile inner lining for good comfort. The sole is designed for good grip. If extra grip is needed, eg in winter, it can be fitted with spikes. The boot shaft can be tightened with an adjustable strap. Sold in pairs.

TEST RESULTS FOR HEAD PROTECTION

The different levels of protection have been determined by CE-testing according to the table below.

Protection level | Pressure bar (psi) | Flow rate (gpm) | Diameter (mm) | RPM | Distance (mm) | Linear speed (m/s) | Result |
--- | --- | --- | --- | --- | --- | --- | --- |
RPM25 | 2000/2600 | 19.9 (0.79) | 5 | 1 | 0.8 (32) | 0 | NO PENETRATION |
RPM26 | 3000/4000 | 18.5 (0.73) | 5 | 0.6 (24) | 0.5 (20) | NO PENETRATION |

TECHNICAL DESCRIPTION

• The Head Protection is made of fiberglass reinforced polyamide
• Temperature range -30° to +150°
• Recommended life span 3-5 years
• CE-marking, approved according to:
  • SS-EN397:2012 Industrial safety helmets
  • SS-EN166:2001 Eye protection
  • SS-EN 352-3:2002 Hearing Protection

HEARING PROTECTION VISOR HOLDER VISOR (PACK OF 10) CHIN STRAP

Helmet with Visor, Hearing Protectors and optional wireless Bluetooth® communication for phone. All parts are tested and certified for protection against liquids with pressure up to 3000 bar/43500 psi. Helmet also meets the requirements for Industrial safety helmets. The interior is comfortable and can be adjusted to a very good fit. The Visor meets the requirements for Eye protection. It is replaceable and can be set in folded up position. Hearing Protectors are classified. They can be adjusted vertically and set in different positions against the head, for optimal protection and fit. A 3-point chin strap is supplied in the Head Protection kit.

A 3-point chin strap is supplied in the Head Protection kit.
The lance is held near vital parts of the body and hoses break, often near couplings and connections like on the lance. Be safer with a Hose Protection/Shroud. The Hose Protection/Shroud provides effective protection for the operator! It has been tested for 500 bar / 7500 psi. An adjustable strap holds the Hose Protection/Shroud securely in place. The Hose Protection/Shroud is very smooth and flexible.

PROTECTION UP TO 500 BAR/7500 PSI

TECHNICAL DESCRIPTION

TEST RESULTS – PROTECTION LEVELS CLOTHING

The different levels of protection have been determined by testing according to the table below. In High Pressure Cleaning mainly three types of nozzles/jets are used – 1 rotor, flat and single. The safety levels have been chosen to cover the most common working situations and to verify the quality of clothing and protective qualities. Note! Different values (for example pressure, flow, nozzle, distance or speed) can give significantly different results!

<table>

TEST RESULTS – HYDRAULIC FLUID

The different levels of protection against hydraulic fluid have been determined by testing according to the table below. The smallest Sapphire nozzle, only 0,15 mm, has been used to simulate a so called pin burst. The safety levels have been chosen to cover the most common working situations and to verify the quality of clothing and protective qualities. Note! Different values (pressure, flow, burst size, distance or speed) can give significantly different results!

CARE AND WASH INSTRUCTIONS

Zippers and hook&loops are sensitive for dirt and shall always be kept clean. Clothes can be hand washed with brush and TST Grease Remover or a soap solution. Allow to dry in a well ventilated area. Do not expose the garments to diesel or other solvents. Store the garments dry and not in direct sunlight.

Hand wash. Water temperature not above 40°C or 105°F
Do not tumble dry
Do not bleach
Do not dryclean
Do not iron

OUR VALUES

TRUSTWORTHINESS
Through our actions and our products we shall instil a high level of confidence in our customers, suppliers and business partners.

LONG-TERM APPROACH
In our internal and external relationships, we shall be considered a long-term partner. Our products shall be developed and marketed with a long-term profile, where we want to see customers and suppliers staying with us year after year.

DEVELOPMENTAL
By continuously developing our products and working on innovative new solutions, we will bring products to the market that are of the highest class. Collaborations with universities and suppliers at the forefront of textile materials and treatments are a matter of course for us.
