TST SWEDEN AB

UNIQUE PROTECTION EQUIPMENT
JACKET WITH HAND PROTECTION HD

The Jacket provides effective full front protection as well as around the neck and shoulders. It also has integrated Hand Protection. Outer material HD is extremely durable TECHSTEEL™ which is 50% more resistant against abrasion and tearing! Request for these qualities comes originally from the industry of concrete removal and demolition. Ideally combined with Trousers and Gaiters or Boots 3000 for maximum protection.

Weight 3.0 kg / 6.6 lbs. (Jacket 20/30, L/XL).

Size S/M, L/XL, 2XL/3XL.

Art. No. Jacket HD 20/30 5122068 5085

GAITERS HD

The Gaiters are to be worn outside of the user’s regular protective boots. The entire area round the leg and the foot is protected. Outer material HD is extremely durable TECHSTEEL™ which is 50% more resistant against abrasion and tearing! Three clips and velcro in the rear, and an easily adjustable strap under the sole, ensures that the Gaiters stay in place. Very comfortable and light to wear. Sold in pairs.

Weight 1.5 kg / 3.3 lbs per piece.

One size.

Art. No. 5158068 5085
TROUSERS HD

The Trousers are fitted with full front protection up to the waist. Outer material HD is extremely durable TECHSTEEL™ which is 50% more resistant against abrasion and tearing! The zips on the outside of the legs are protected by a sealing flap and a velcro flap. Wide, adjustable braces in stretch material. Elastic part in the rear waist and a belt which helps to distribute weight and improves the comfort. Trousers are suitable for workers who move a lot, climb or crawl. This HD version is especially designed for the toughest environments. For work in warm environments Trousers can be ordered with ventilation, which distributes fresh air in the legs and up in the front. Needs hook up to a compressor. Trousers are preferably used in combination with Jacket and Gaiters or Boots 3000.

Weight 3.0 kg / 6.6 lbs. (Trousers HD 20/30, L/XL).

Size S/M, L/XL, 2XL/3XL.

Art. No. Trousers HD 20/30 5132068 5085
Optional Ventilation 5198000 5030

AVOID HEAT STRESS

Ventilation – an option for comfort in warm environments.
Read this!

**CERTIFICATION**

Pumps and accessories gets more and more effective. TST clothes and equipment are tested and certified in accordance with today’s technical level and both for single and rotor jet.

**WATER PROOF**

New outer material in a 2 layer laminate withstands water and dirt more effectively. This makes the operator dryer and lighter, and the clothing is easy to clean.

**VENTILATION**

We have taken comfort to the next level introducing the option Ventilation in Trousers and Overall. This improves comfort when working in warm environments. Look for the Hot-to-Cool symbol.

**AREAS WITH PROTECTION**

Striped fabric clearly identifies protected areas and the labels tell the level of protection. As waterjetting is very dangerous, it is essential that the operator knows where and what he is protected for.

**PROTECTION LEVEL – YELLOW AND ORANGE**

Yellow label indicates protection for 1000 bar/15000 psi single jet and 2800 bar/40000 psi rotor jet – 10/28.

Orange label indicates protection for 2000 bar/30000 psi single jet and 3000 bar/43500 psi rotor jet – 20/30.

**PROTECTION LEVEL 10/28**

- SINGLE 1000 bar/15000 psi
- ROTOR 2800 bar/40000 psi

- 89/686/EEC

**PROTECTION LEVEL 20/30**

- SINGLE 2000 bar/30000 psi
- ROTOR 3000 bar/43500 psi

- 89/686/EEC

**PROTECTION LEVEL – YELLOW AND ORANGE**

The strongest fiber in the world!

Dyneema® is the world’s strongest fiber (15 times stronger than steel on a weight for weight basis). This makes it possible to offer high levels of protection against waterjetting hazards even with lightweight fabric. Being much thinner and more flexible than traditional materials, such as leather, cotton and metals, products made with Dyneema® fiber will be very comfortable. Employees will appreciate this comfort, combined with higher protection, and consequently are more likely to wear them at all times.
Selected combinations with attractive pricing

1 SIGMA COMPLETE KIT
Offering very good protection. All you need to be protected and dry. Ventilation is an option. The Sigma Kit includes: Waistcoat and Overall with integrated Hand Protection.

Size S, M, L, XL, 2XL, 3XL.

**Gaiters**

The Gaiters are to be worn outside of the user's regular protective boots. The entire area round the leg and the foot is protected. Three clips and velcro in the rear, and an easily adjustable strap under the sole, ensure that the Gaiters stay in place. Very comfortable and light to wear. Also available in a Flame Retardent AND High Visibility version, in protection level 20/30. Certified according to EN 20471:2013.

Sold in pairs. Weight 1.0 kg/2.2 lbs.

One size.

Art. No. 5158068 5000

Art. No. Flame Retardent & High Visibility 5158068 5095

---

**Boots 3000**

Boots 3000 withstands “everything” within waterjetting on account of its fixed aluminium gaiters. The gaiters are moulded and jointed, which gives both excellent comfort and mobility. Not suitable on uneven ground and is sensitive to small stones. (For that we recommend the Gaiters.) The Boots conform to the requirements set out in BGR 191 and EN ISO 20345-211.

Weight 1.9 kg / 4.2 lbs. each (Boot 3000 size 9).

Size Eur 42-48 / US 9, 9.5, 10, 10.5, 11, 12, 13

Tested and certified according to BGR 191

---

**BalACLava**

The balaclava, which is made of neoprene, is designed to keep the body dry. The breast lap is made of Cordura fitted with adjustable straps to hold it in place. The BalACLava offers no protection against waterjetting. Can ideally be used together with the Overall.

One size.

Art. No. 5010000 5000

---

The BalACLava is designed to keep the body dry in waterjetting environments. It can be used together with the Overall for added protection. Available in one size and certified according to BGR 191.
APRON
The full area of the Apron has built-in protection. The position of the Apron can be changed through the adjustable shoulderband. The special construction of this band helps spreading the weight of the Apron which is an important comfort detail. The Apron can be upfolded and fastened, for easier work in stairs and on ladders. Very easy to put on and off. Recommended for work on flat surfaces and is often used in combination with Hand Protections and Gaiters or Boots 3000. The Apron comes in one size. Weight 1.4 kg / 3.0 lbs. (Apron 20/30).
One size.

**Protected areas striped**

HAND PROTECTIONS
The Hand Protection protects the hand and the forearm. The entire area round the arm is protected. Easy to put on and a thumb strap keeps it in place. A wide velcro makes it easy to adjust for different arms and clothing. Often used in combination with Waistcoat or Apron. (Hand Protection is integrated in the Overall and the Jacket.) Specific right and left hand designs. Weight 0.3 kg / 0.6 lbs. (Hand Protection 20/30).
One size.

**Protected areas striped**
Products for all environments

WAISTCOAT WITH APRON
A thoughtful combination between Waistcoat and Apron giving superior freedom of movement and comfort, but still offering effective protection for the whole front of the body. The construction with a Waistcoat on top helps spreading the weight of the protective garment. The height of the Apron can be adjusted and the size of the Waistcoat can be adjusted with velcros – this means that it can be used by different operators or for different purposes. Hand Protections and Gaiters or Boots 3000 are suitable complements for extended protection.

Weight 3.3 kg / 7.3 lbs. (Waistcoat with Apron 20/30).

One size.

Adjustable height of the Apron – safer, better comfort and can be used by different sized operators.

OVERALL WITH HAND PROTECTION

Protection against water jets on the whole front of the legs up to the waist, on the forearms and on the integrated Hand Protections.

The neoprene collar seals well round the neck while maintaining freedom of movement. An Overall is always in place, no matter if the operator is climbing on ladders or working in narrow spaces.

For work in warm environments Overall can be ordered with ventilation, which distributes fresh air in the legs and up in the back.

Needs hook up to a compressor. Ideally combined with Waistcoat for upper body protection, Gaiters or Boots 3000 for foot protection and Balaclava for better comfort.

Weight 3.3 kg / 7.3 lbs. (Overall 20/30 Model 5080, XL).

Art. No. Optional Ventilation 5198000 5040
Size S, M, L, XL, 2XL, 3XL

The ideal complement for good protection

**HOSE PROTECTION/SHROUD**

Hoses break and couplings break, often very close to the operator and at sensitive areas of the body, such as the abdomen, the arm pit or the neck. These areas are difficult to protect properly. To further improve the safety of the operator, it is recommended to use a Hose Protection/Shroud. The Hose Protection is placed on the hose at the connection to the pistol. Closest to the pistol, where the hose is most likely to break, there is a 250 mm / 9.8 in. solid steel collar. This provides effective protection for the operator as it has been tested for 3000 bar / 43500 psi. An adjustable strap holds the Hose Protection/Shroud to the pistol. The Hose Protection/Shroud is smooth and flexible.

Available in 3 lengths: 750, 1400, 1800 mm / 2.5, 4.6, 5.9 ft., and 3 diameters: 36, 47 (swivel) and 59 mm / 1.42, 1.85 (swivel) and 2.32 in.

Weight 2.3 kg / 5.1 lbs. (Hose Protection diameter 59 mm, length 1400 mm / 2.32 in., length 4.6 ft.).

**PROTECTIVE CURTAIN 3000 BAR**

When you need to protect sensitive equipment, machinery or people from water, waterjetting, gravel spray and ricochets! Practical curtains which can be put together to form a protective wall of desired length. It withstands up to 3000 bar/43500 psi at 250 mm/10 in. distance. Each section is 154x250 cm/60x98 in. and when put together they build 134 cm/53 in. each. On top there are 5 straps for easy mounting and in the bottom there are holes for further securing. The sections are easily connected through 6 smart, strong and easily handled locks. Available as standard in red with warning sign in English. Optionally available in white, black, yellow, light grey, dark grey, blue and green. Also available with your own branding and warning sign in another language. Each option requires minimum order 10 pcs. Contact TST for further specifications.

Weight 7.5 kg/16.5 lbs.

**Size** 154x250 cm / 60x98 in.

**Art. No.** 5910030 5000

**WHIP STOP**

An excellent way to secure hose ends at foot pedals, pumps or connections. Properly mounted, it will catch a broken hose and prevent it from whipping. The whip stop is mounted by slipping it over the hose ends, stretching it and finally tightening the ends and secure with the rubber lock rings.

Tensile strength 1800 kg / 4000 lbs.

Length approx. 75 cm / 2,5 ft.

Minimum order 100 pcs.

**Art. No.** 5072000 5000
Mix the TST Grease Remover 1:10 with warm water 40°C/105°F. Apply to the dirty garment surfaces with a brush. Leave for about 20 minutes. If the garments are extremely dirty, use the brush together with lukewarm water on the dirty areas. Rinse with lukewarm water. Let the garment dry in a drying room and reach a temperature of max 60°C/140°F (to reactivate the water and grease protection).

DO NOT TUMBLE DRY.

- Nonionic surfactants >30%
- Solubilising agents (alkane diol)
- Greying inhibitors <5%
- PH 7.3
- Avoid contact with skin and eyes
- Product temperature of less than 15°C/60°F may impair proper function
- Do not store below 15°C/60°F

**HOSE CONNECTION COVER**

The Hose Connection Cover is a safety device made to be put where hoses have couplings and connections, for example at foot pedals and pumps. An adjustable strap holds the Connection Cover securely in place. In the other end, there are loops for further fastening or assembling several Covers. It is not tested for “pin hole leaks”, but for hose burst at 3000 bar / 43500 psi.

**It is NOT intended for use on any hand held equipment.**

Lengths 400 mm / 1 ft 4 in. or 5 m / 16 ft 5 in.

Inner diameter 61 mm / 2.4 in.

Weight 400 mm – 0.4 kg / 0.9 lbs., 5 m – 3.8 kg / 8.4 lbs.
