STUD OPEN DAYS: 14th & 15th January, 10am till 4pm.

Vendor: Roderick Binny P: 0409 911 791 E: rbinny@australiangrassfedmeats.com

www.bettervaluebulls.com.au

WELCOME

Welcome Charolais friends and breeders to our Sale of the Decade and Complete Herd Offering of the Glenlea Stud Herd.

Our family has been breeding Stud Charolais cattle the beginning of the Charolais Breed in Australia.

We have always had a commercial focus as Seed Stock producers to add value to the supply chain through breeding functional, fertile cattle that calve easily, grow fast and survive the tough seasons, then finish early and yield on the hook. Our commitment to performance recording since then inception of BREEDPLAN has given the herd a depth of objective data, only matched by a handful of major studs around the country. The Glenlea herd has been the foundation for many new studs from Tasmania and Victoria to NSW and QLD and even to W.A when we could send live cattle there.

We have great satisfaction in seeing breeders that purchase our cattle do well with them, Sight Unseen Sales have been particularly satisfying with 100% of cattle sold sight unseen, either privately or at Auction being delivered to their new owner with feedback that the individuals were exactly as described. Particular note to Rod Upton, Woncanya Farms Stud, Victoria who after meeting at Sale in Victoria has purchased 10 elite stud females over a 3 year period, never seeing any of them prior to their arrival at his property, and always surprised to the upside with the females when received.

Glenlea has many relationships with both stud female and bull purchasers. A load of 10 bulls was recently sent to new client Michael Bulley, Julia creek, Northern QLD with the feedback being they were adapting very well and the best load of Charolais bulls he had purchased in 25 years of buying Charolais sires for his Brahman herd.

The sale of our home base property, Westbrook Station at Guyra, recently has lead us to the decision to offer the Entire Herd for Auction in this sale, with all lots on the market from upset bid there will be some great value throughout the sale. We have left nearly all Autumn calves on females, when we would normally wean Autumn calves prior to Christmas, with a handful that we just had to wean being offered with their Dams, so that the purchaser has production immediately to wean when you get them home, all 3 in 1 units with no split lots.

SPECIAL OFFERS

Purchase Terms: are available T.A.P. on the basis of 50% of purchase price under normal sale terms with Elders, the balance due in 6 months time. All terms arrangements are to be organized directly with vendor so call ASAP to discuss the details of this generous offer. Arrangements will need to be in place prior to sale or normal payment terms will apply.

Transport Subsidy: A fixed price of \$100 per head will apply to cattle taken to Albury/Wondonga, Victoria and \$80 per head to Toowoomba, QLD. Drop off along the way will be accommodated where possible.

Air fare Rebate: any successful purchaser who flies to Armidale airport from any location within Australia to inspect the herd at anytime prior to sale, especially on the open weekend 14th and 15th January will be eligible to receive 50% refund if \$5000 spent and full refund if \$10,000 or more spent. This applies to live lots. and is based on Standard Economy Airfares.

Outside Agent Rebate: will be 1% on all lots.

The herd has come through a very tough Autumn and Winter at Guyra, and are doing very well on the great feed that the spring has given us and will present in great condition sale day. With winter hanging on until mid October in Guyra a few were still cleaning up coats when photos were taken.

None of the females have had any supplementary feeding to prepare them for sale (except for two show heifers) and come straight out of the paddock. Many Autumn bulls will weigh 350 to 400kg on sale day at side of their dams, with some well over that, so that they will be saleable in 2017 as yearling bulls or able to be used to join with. All of the early born Autumn heifers will be able to be joined this Autumn, 2017 to calve as 2 year olds next year. Note some yearling heifers were managed differently with extra feeding through winter, which explains why some younger heifers are heavier.

The team at Glenlea invite you to personally inspect all sale cattle on the weekend of the 14th and 15th January on property at "Westbrook Station" Guyra, we are only 25min west of the New England Hwy.

GLENLEA CHAROLAIS

SALE OF THE DECADE FEMALE SALE

Monday 16th of January at 1pm EST on AuctionsPlus only

On Offer:

100 Stud Registered cows and calves, all rejoined - 3 in 1 units. Both Autumn and Spring calvers with many outstanding bull calves at foot.

50 Stud registered heifers, 30 joined and 20 unjoined. Joined heifers A.I. to several of the breeds leading proven sires.

50 embryos, large semen offering and a number of Stud Herd Sires also on offer.

Pre Sale Inspections:

STUD OPEN DAY: 14th & 15th of January 2017 from 10am to 4pm.

On the weekend prior to the sale we will open the farm publicly for interested parties to inspect all cattle for sale.

PRIVATE INSPECTIONS: Call Roderick on 0409 911 791

We are also more than happy to show anyone the cattle by appointment anytime.

DIRECTIONS: Glenlea Charolais is located at "Westbrook Station", 513 Westbrook Road, GUYRA NSW. If you are travelling up or down the New England Highway between now and sale day, we are only 25 min drive west of the Highway. For GPS, 513 westbrook rd , Brushy Creek.

From Guyra take the main road to Inverell /Tingha for 18km west, then left turn into Tenterden Rd for 7km, then left turn into Brushy Creek Rd for 3.5km, then right into Westbrook Rd for 5 km, to the Westbrook Station sign, and come in left over the cattle grid.

AuctionsPlus:

Our sale will be interfaced live on AuctionsPlus at 1pm on Monday 16th of January 2017. Bidders can bid online at their location and the bid is transferred to the auction straight away. Bidding is available only if registered with AuctionsPlus 48 hours prior to the auction.

To register go online to www.aucitonsplus.com.au

For first time users of AuctionsPlus it is recommended that you register as early as possible to become familiar with how the bidding system works. The AuctionsPlus staff are very helpful and happy to help. Phone (02) 9262 4222.

REFERENCE SIRE: RANGAN PARK RIO BRAVO D15 (AI) (ET) (P)

TATTOO: RAN D15E DOB: 06/04/2008 SEX: M

COMMENTS: Fast becoming one of the great breeding bulls of the breed in Australia. Selected by Glenlea to add softness and polling to horned females and has exceeded all expectations. Progeny in over 20 studs. Amazing EBVs with very high accuracy puts him at the very top of the breed in Australia in many traits and overall. Proven by progeny Homozygous Polled. Low birthweight. Growth in top 1% of breed, EMA top 10%, Fat cover top 1%, IMF top 1%. Fine hair coat, tight sheath in all progeny, length and eye appeal. Lovegevity - still a working natural sire in the Glenlea Herd. Sire and dam are breed legends in their own right. Used extensively over horned females with French sires at Glenlea and has added softness, 100% smooth polling (no scurs), lowered BW and increased calving ease. At the same time maintained growth, volume and substance that so many pure North American bloodlines don't. **Semen available from UCBS, Allora QLD or contact Roderick Binny direct.**

REFERENCE SIRE: BRANCH VIEW FORDGED FROM STEEL (AI) (ET) (P) (R/F)

TATTOO: BVC F34E DOB: 13/09/2010 SEX: M

COMMENTS: Exceeding breeding expectations in many traits. Purchased for \$16,000 from Andrew Postle, Branch View Charolais, producing low birthweight calves with plenty of growth, thickness, softness and style. The doability of his calves are excellent and this is the number 1 trait selected for in the whole GLENLEA / BETTER VALUE CHAROLAIS GROUP program. The greatest EBVs are of no value if sires and their progeny are not capable of performing in less than ideal seasonal conditions. Approximately 50% of progeny are red factor and most are polled. 1/2 share purchased by Bauhinia Park Charolais, the Holzwart Family, Emerald QLD. **Semen now available from UCBS, Allora QLD or contact Roderick Binny direct.**

REFERENCE SIRE: GLENLEA JIMMY (AI) (ET) (P) (R/F)

TATTOO: GLE J4E DOB: 04/02/2013 SEX: M

COMMENTS: "Jimmy" has exceeded our expectations as a breeding bull. An outcross to all bloodlines in the herd with his DAM and SIRE with long breeding records behind them. Selected as our pick of 3 E.T. brothers, for his low birthweight, extra muscle with softness and volume, plus explosive early growth with a moderate mature frame. JIMMY has a fine hair coat type, clean sheath and perfect feet. His progeny have a 100% unassisted calving record, are quiet, thick and soft. His sons will find a home easily in commercial herds and daughters will join, calve and milk because they are good doing cattle with substance. Many progeny are throughout the sale, over 100 registered and purebred progeny, in two natural joinings born in 2016, mostly out of heifers.

3.5 Years Old

Has been out with 30 cows for 6 weeks.

REFERENCE SIRE: GLENLEA HONOURABLE (AI) (ET) (P) (R/F)

TATTOO: VLW H25E DOB: 20/09/2012 SEX: M

COMMENTS: We are excited by the progeny of this bull! Honorable is a sire that combines so much of why we use Charolais in crossbreeding programs across Australia. Growth, yield and ability to finish at any age! As a calf born at Westbrook he stood out for his body capacity, docility and overall power, always having good fat cover right from a calf. He has many calves in this sale and we feel just about every calf is an improvement in some way to its dam.... a very rare feat in breeding stud stock. We rate Honorable as a genuine herd improver. Outstanding EBVs in a medium framed early maturing body type.

4 Years Old

Has been out with 40 cows for 6 weeks.

REFERENCE SIRE: VALLEY VIEW GLENLEA JUST'NEASY (P)

TATTOO: VLW J23E DOB: 17/09/2013 SEX: M

COMMENTS: A super soft son of Rangan Park Rio D15E, selected for use in the stud for his great body capacity and volume = doability! low birthweight, good growth and very impressive carcass traits. His first calves are thick and soft, with all being polled, just the way we like them, with all progeny to date being born unassisted, which have most been out of heifers. His dam is a heavy milking, soft Wyoming Wind daughter out one Glenlea's Leading donors, NOLANA W15E, sold as an embryo to Valley View. Just N' Easy was a sire retained by Glenlea out of a joint venture E.T. program with Valley View.

REFERENCE SIRE: CALMVIEW KIT KAT (P)

TATTOO: CVW K17E DOB: 22/07/2014 SEX: M

COMMENTS: Purchased at the 2015 National sale where he was Junior Champion and highest priced Yearling Bull. Selected for his impressive overall growth and power, with real breed character, strong head and jaw. Impressive growth EBVs in top 1% of the breed, his carcass data we feel will increase measurably with his first progeny, as he was shown as a calf he didn't have the chance for his carcass data assessed in a group of his peers. He stood out so much in the Calmview herd which has an outstanding herd of females, he was broken in and shown as a calf.

PUREBRED COMMERCIAL FEMALES

REGISTERED STUD FIRST CALF HEIFERS

LOT: 1 4 x PUREBRED POLLED COMMERCIAL FEMALES WITH BULL CALVES AT SIDE

TAG No. 320, 307, 332 & 144

SEX: F

COMMENTS:

Tag No. 320, 307 and 332 all with bull calves at side 3 months old.

These three commercial females were the pick of over 50 commercial purebred 1st calver's with POLLED bull calves born in Spring 2016. The calves are all by leading sire Glenlea Jimmy (P) R/F.

Tag No. 144, calved in Autumn, big bull calf at foot by Rangan Park Rio (P).

We have sold virtually all our commercial females through the spring, retaining these FOUR and the next Lot to start off this sale. Good framed, great udders and milk.... Thick, soft, growthy.

Bull calves at foot to make ideal bulls to grow on and market or use in your own herd next year, and their dams with a lifetime ahead of them!

JOINED TO GLENLEA KALM (P) FROM 1/11/16.

NB.THE COWS ARE NOT ELIGIBLE FOR REGISTRATION OR TRANSFER.

LOT: 2 6 x POLLED PUREBRED COMMERCIAL FEMALES WITH POLLED HEIFERS AT SIDE.

TAG No. 120, 130, 131, 194, 195 & 197

SEX: F

COMMENTS:

The red female (Tag No.131) is a 1st calver, the remaining 5, Tag No. 130,194,197, 120 and 195 are 2nd calvers.

Big volumed, soft, good doing females with great udders. Heifers calves are all matrons of the future, great start or addition to a commercial Charolais herd.

As with first lot, these females retained from the private sale of the commercial herd to feature in this sale.

2 calves by Rangan Park Rio (P), our senior sire, 3 by Glenlea Jimmy (P) R/F and 1 by Glenlea Hilton(P)

JOINED TO GLENLEA KALM (P) FROM 1/11/16.

NB.THE COWS ARE NOT ELIGIBLE FOR REGISTRATION OR TRANSFER.

COMMENTS: The Nolana cow family is one of the oldest and most prolific at Glenlea, performance females with milk and great carcass traits. J46 is no exception with extra softness. She has raised her own bull calf and another bull calf from a heifer that died. Her bomb proof temperament allowed the successful attempt to graft the second calf onto J46 when both calved on the same day. Great milking ability raised both calves that weaned on 26/11/16 at a combined 662kg! In our opinion J46 defines modern Australian Charolais great doability, soft, thick and early to medium maturity. J46's EBVs reflect the outstanding bloodlines, being in the top 10 to 20% in all traits.

Both bull calves, M18 and M19 are double polled and by Lt Easy Blend, in our view, the best Lt sire to be imported into Australia. The adopted calf's dam was also a Rio daughter GLE J31E.

Joined to Calmview Kit Kat (p) 15/9/16 to 15/12/16. PTIC.

LOT: 4

GLENLEA NOLALNA 78TH (P) (R/F)

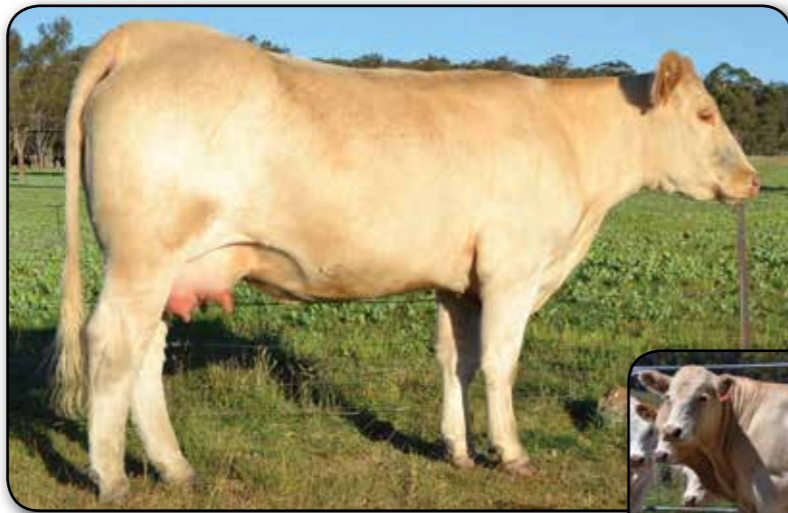

TATTOO: GLE J26E

DOB: 01/07/2013

SEX: F

COMMENTS: Led female. Double polled, red factor. 3 in 1 unit. Red factor bull calf born 23/2/16.

J26 is a Rio daughter with a little more bone and strength coming from her Ijoufflu sired dam. Again from the Nolana cow family, she is showing growth and great milking ability. Her first calf at side, sired by EC No Doubt (P) is a tremendous calf, weaned at 389kg on 26/11/16. He is double polled, red factor and a show bull/sire prospect. J26's EBVs show plenty of growth with the strength and extra yield evident in her carcass traits, big EMA and high RBY%. With the job she has done with her first calf we would expect her EBVs to trend up across all traits.

COW PHOTO: Photo taken pre calving.

VALLEY VIEW NOLANA WIND 21 (P)

TATTOO: VLW J21E

DOB: 04/09/2013

SEX: F

COMMENTS: Led female. Double polled. 3 in 1 unit. White bull calf born 21/2/16.

Another Nolana out of a dam sold to Valley View as an embryo. Glenlea ran a joint venture program for two years with Valley View, J21 was one of the progeny we retained. Extra length, growth and softness with a gentle temperament ... real show cow prospect for 2017. EBVs are outstanding across all traits with carcass traits again top of the breed, fat cover and marbling top 1%. Well grown, double polled bull calf, M12, by EC No Doubt - will be a lead sale bull/sire prospect for any program.

GLENLEA CHAROL 75TH (P)

TATTOO: GLE J42E

DOB: 14/09/2013

SEX: F

COMMENTS: Led female. Polled. 3 in 1 unit. White bull calf 21/2/16.

J42 has been a favorite since a calf, so gentle. She is from another very old cow family at Glenlea, the "Charol's". Low birthweight, extra softness and doability ... many show champion females have been Charol's. J42 has raised a thumper of a bull calf M11 by Svy Pilgram that has sire written all over him. J42 is a full sister to new sire Glenlea Kalm (P), her dam is catalogued with another sire prospect full brother at side at lot 21 ... super consistent bloodlines and with a lifetime of breeding ahead of her. EBV's reflect a true curve bender, low BW with leading growth (top 10%) combined with top 10% carcass traits.

COW PHOTO: Photo taken pre calving.

COMMENTS: Double polled. 3 in 1 unit. White bull calf born 21/2/16.

A Rio daughter showing all the traits that make these Rio daughters outstanding breeding females. Softness, fine hair coat, great udders, growth and great carcass. Dam was a big volumed, polled French bloodline female purchased in 2009 for \$9000 as top price female at Toowoomba Female Sale. J40 is her best daughter. EBVs highlight great calving ease and low BW with good growth and again top 10% of breed carcass traits. Her stout double polled bull calf, again sired by EC No Doubt, M10, will be another lead sale bull/sire prospect for the successful purchaser. Great set of EBVs.

DOB: 17/09/2013
SEX: F
COMMENTS: Double polled, 3 in 1 unit. White bull calf born 1/3/16.

Joined Glenlea Honorable (P) (R/F) from 1/10/16.

Classy, powerful female from the same dam as Al sire Glenlea Eddie (P) who has left early maturing commercially focused progeny across the country. J44 is another Nolana female with doability, great skin and has extra carcass EBVs ... top 1% of breed for EMA combined with terrific growth and below average BW. Her dam is now a donor in Nigel Spink's Chalambi stud near Albury.

Bull calf at foot M25 is by Lt Easy Blend. Another lead sale bull/sire prospect.

Moderate framed, great skin, low birthweight daughter of Rosedale Dinga, Champion Bull Sydney 2010. Dinga daughters are great milkers and after his show career, became our lead heifer bull for several years. EBVs show that calving ease and low BW with growth in top 20%, with positive EMA.

Double polled bull calf at foot had equal lowest BW in his calving group. As with all these Autumn bulls, will be salable as a yearling in 2017.

Lovely Rio daughter. We purchased J35's dam in 2010 at the Boongatti dispersal as our pick of the older females. J35 was her best calf, showing all the traits we desire, doability, growth and carcass. Her EBVs show low BW with good growth and her massive EMA and with other carcass traits sitting her in top 5% of breed for carcass.

Outstanding polled heifer M9, by EC No Doubt. Very early gestation and low birthweight with good growth and plenty of volume.

Selected as the lead heifer from the Jackson dispersal. J13's dam was one of the best performance females in the Jackson herd. The mature cows from the Jackson herd were managed at Westbrook for 4 years as part of the Better Value Charolais group program and so we had a great chance to evaluate J13's dam, and being a daughter of RP Rio gives her very high genetic predictability. EBVs are top 10% for growth traits, with very positive carcass traits, including high IMF%.

Outstanding double polled heifer calf at side, M17 by Svy Pilgram, leading AI sire from Canada.

COMMENTS: Polled, 3 in 1 unit. White heifer calf born 17/5/16

First of the "Mullum" females sired by Palgrove Emblem. Glenlea purchased most of the Mullum stud females 2 years ago. J10 is from the well-known "Covergirl" cow family at Palgrove which dates back almost 30 years in the Palgrove herd. Many show Champions and herd sires have been out of a "Covergirl". Sired by Palgrove Emblem, selected by the Mullum stud for his overall balance, early maturity and low birthweight.

Joined Glenlea Honorable (P) (R/F) 1/10/16

Double polled heifer calf at side M40 is by Glenlea Jimmy (P) (R/F) and is a growthy, stylish female with a little extra frame and as with many of these heifer calves is a show prospect. J10 has a very balanced set of EBVs showing extra calving ease, good growth and positive carcass traits.

COMMENTS: Full French, donor female. 3 in 1 unit. White bull calf born 26/4/16.

First of Glenlea's donor females sired by, in our opinion, the best of the modern French sires, Ijoufflu. Big volumed heavy female with medium frame. Has produced some outstanding progeny. Top selling bull at our Roma Sale in 2012. EBVs are high growth, muscle and yield, all the traits we look for in Full French, with genuine softness not always found in Full French Charolais.

Polled bull calf at side, M37, sired by Rangan Park Rio is a sire prospect.

7 x EMBRYOS

COMMENTS: 7 embryos by Gauguin. We think most stud Charolais breeders would rate Gauguin very highly among modern Full French sires - early maturing, ability to finish, moderate BW. Some of our leading matrons are daughters and many sons have been used in stud herds across Australia.

Great embryos to start or add a Full French bloodline to your herd.

Bid price is per embryo (see full details in embryo section)

COMMENTS: Donor prospect. Show/sire prospect white bull calf at side born 19/1/16. 3 in 1 unit.

One of the leading matrons of the Glenlea herd. All her calves have been leading calves in their drop, she was set to become a donor in 2017. Outstanding bloodlines with some greats of the breed.

Bull calf at side, Glenlea Marvel (P) M5E is a show prospect and had been ear marked for the National Sale for 2017 and is halter broken. Marvel weaned at 412kg on 26/11/16. His full brother Glenlea Kalm (P) is our new herd sire, and a full sister is lot 5. Sired by Rangan Park Rio.

Joined Glenlea Honorable (P) (R/F) 1/10/16

COMMENTS: Donor, red factor, polled, 3in 1 unit, white heifer calf at side born 19/5/16

Joined to new sire Glenlea Kalm (P) 1/10/16

Volume, doability, strength with exceptional milking ability. Progeny have all been sold as yearlings as they have always been standouts and averaged over \$5000 for bulls and heifers. The Nolana cow family is the highest performance cow family at Glenlea, easy to see it in this cow. French sire Gauguin is a breed legend.

Full sister to lot 22. Daughter was top price female at our 2011 sale at 11 months selling for \$6000, a son was high selling yearling at 13 months old at our 2012 sale selling for \$5000. Another daughter K9E, full sister to heifer calf at side M41, was sold privately to Old Dubbo Charolais in 2015 and is a leading female in their herd. Her 2015 bull calf being our youngest autumn bull (13 months) sold at our Beef Week open day in 2016 to new client Bill Pile from Niagara for \$5000. Another daughter J14 is a leading female in the Orara Waterfall stud at Coffs Harbour.

B49's EBVs are top 5% of breed for growth, EMA and RBY%, growth and carcass proven through progeny!

Heifer calf at side M41E, is double polled show prospect heifer thick, soft and loads of performance. Sired by Rangan Park Rio.

COMMENTS: Donor prospect, 3 in 1 unit, show prospect white heifer calf at side, born 3/1/16.

Joined Glenlea Honorable (P) (R/F) 1/10/16

Nunciata is a powerful big volumed female. A matron having a leading calf every year. A full sister to current calf at side was top priced heifer at the National Sale in 2015 selling to Calmview stud, Tony and Suzie Farrell for \$8500. Sons have sold to \$8000. K61 a son is for private sale as a sire prospect as Lot 144 in this sale. Another excellent daughter, Lot 36 is also in this sale.

Polled heifer calf M2 is a standout, selected to be shown in 2017 and is halter broken.

COMMENTS: Double polled, 3 in 1 unit. White bull calf at side born 6/3/16

Joined to Glenlea Honorable (P) (R/F) 1/10/16.

Selected at the 2010 Boongatti dispersal sale as our pick of the young polled females. C15 is sired by the highest rated bull in the breed for milk WCR Sir Duke 835 (P) having +27 value, four times the breed average. Her dam was from the renowned herd of Kelly Wallah, seen in many pedigrees around the country. C15E has always raised a good calf, fine hair coat, strong polling and plenty of carcass, being thick, soft and high IMF%. Her two sons for Glenlea have sold for \$5000 each out of our top group in their drops. Her daughters are great producers with lot 35 being a powerful daughter by Glenlea Big Gun and another selling in the joined heifer section of the sale sired by BVC Forged From Steel. Double polled bull calf at side by Rangan Park Rio (P) will be a great bull.

Donor, red factor, polled, 3 in 1 unit, show prospect white heifer calf born 1/3/16

C13 was purchased at the Gobongo dispersal in 2011. She has been a great producer for us with all her female progeny sold into studs, except for her yearling daughter L10E, feature joined heifer in this sale at lot 93.

Daughters are performing very well in the Calmview, Orara Waterfall (2 daughters) studs in NSW, Woncanya farms in Victoria and Nukku Park stud in QLD. Her E.T. sons topping the yearling section of our 2013 sale selling to regular bull clients, the Profke family at Forbes NSW.

Doability, great milker, outcross elite bloodlines, EBVs have excellent growth traits with positive EMA and yield. Her two heifers by RP Rio are stunners, calf at side and joined yearling, both in this sale and are amongst the best Rio daughters in the stud.

Double polled heifer at side, M23E, show prospect and all class.

A Nunciata cow, another Nunciata matron sold at 2006 Victorian sale sold for \$6000 at 10 years of age to start the Avabundy stud program, many E.T. daughters and granddaughters later her progeny are still at the top of the Avabundy stud, the Mcknight family, based in Gippsland Victoria. G9's dam is offered as Lot 23 and has produced several daughters like G9, big volumed, soft and great milker, starting to repeat our comments with these cows but they are worth travelling a long distance to inspect.

Joined to Glenlea Kalm (P) 1/10/16

Double polled heifer by EC No Doubt (P) at side, very low BW, will be a great producer just like her mum.

Calved at just over 2 years old, and what a great dark red bull calf at side! Composite programs, heifer's bull to add the red gene, a commercial sire over Angus females looking to produce black Charolais cross progeny, this unit can fit any of these requirements. Her matron dam, B48 is the next lot and is the spitting image except this daughter is polled. Moderate frame, very low BW, with good growth and awesome carcass traits, full brother catalogued for private sale at Lot 150. Dam next lot. Standout, double polled dark red factor bull calf at side, by Glenlea Jimmy probably his best son to date. Sale/sire prospect. Unique unit here.

COMMENTS: Polled, 3 in 1 unit, white heifer calf at side born 24/1/16

Soft early maturing female, with super calving ease and very low BW. Her son from 2015 sold at our Ag Quip display in August as a yearling and went to a commercial breeder near Merriwa, a very good carcass bull with moderate frame. D36 carcass traits is her strength, positive across all. Sired by Outcross Eatons Leader (P) out of the well-known Palgrove Sofley cow family.

Joined 25/5/16 to 30/8/16 to Rangan Park Rio (P) PTIC.

Heifer calf at side is a thick and soft, early maturing daughter of Palgrove Emblem

Joined to Rangan Park Rio (P) 1/10/16

Consistent low BW matron, early maturity and strong red factor genes, B48 has produced some great sons, always selling as yearlings and averaging close to \$5,000. Always had the lightest BW calf in her calving group. Sired by French sire Pagnol, an early maturing, moderate BW, high yielding bull that we had some very good progeny from in the mid to late 2000's, B48 is one of his best daughters, excellent milker 6 out of 8 calves have been red factor from white sires, her best calves have been to Rangan Park RIO (P) previous Lot 38, yearling bull Lot 150. I think her best bull calf at foot, polled, red factor M62, a red factor stud heifer prospect!

COMMENTS: Led female, donor, polled, 3 in 1 unit. White heifer calf born 21/8/16

COW PHOTO: Photo taken pre calving.

Joined Rangan Park Rio (P) 1/10/16

What a powerhouse breeding female. Purchased from now dispersed Myall herd at their on property sale in 2006 for \$11,000. Arley is a maximum performance female with top 1% in all growth traits, top 20% milk and top 5% EMA with positive fat, RBV and top 10% IMF!

Arley is a big framed female that has always had more moderate framed, thick, soft great doing daughters. Ideal female to combine with early maturing North American homozygous polled sires producing real performance double polled bulls and females. Arley was Junior Champion female at 2006 Brisbane Royal when more than 300 Charolais cattle were exhibited. Bomb proof temperament that is passed onto progeny every time. Sire Palgrove Valiant is still the highest priced Charolais bull at auction in Australia at \$62,000. Sons have sold to \$8,000 and daughters have sold to \$5,000. A daughter J25 is the foundation stud female for Jake Nobel, Bellengen NSW and she had a successful show career prior to being selected privately from our show heifer mob.

Double polled, show prospect heifer calf at side M64, by RP Rio (P) is going to be her best daughter to date.

All French bloodlines in this matron. One of the biggest volumed females in the Glenlea herd, from the "Caarol" cow family. Tremendous progeny, full of performance and muscle. 2 daughters are in the sale, Lot 80 is a 2 YO Rio daughter with bull calf at foot and Lot 95 is a joined show heifer full sister to Lot 80. It's easy to see why we hold B24 in such high regard when she produces daughters like these, with fertility, growth, yield and softness, the whole package. EBVs are top 5% of breed for all growth traits, massive carcass EMA and yield, sons sold to \$8,000 at our 2012 Roma sale. Polled bull calf at foot, M63 by RP Rio (P) and just like his full sisters top of breed performance. Show/sire prospect.

CALF PHOTO SALE DAY

Great daughter of Imported Palgrove sire LT Silver Value (P). Silver Value progeny have extra performance & muscle than most LT Sires from the USA, while still having that extra softness. D8 is a model Silver Value daughter, Show heifer in her day, Soft, Deep with very high growth, on medium frame, part of the "Mullum" herd purchase. Her first bull calf for Glenlea was sold to Darryl Lewis, Lower Belford, Hunter Valley as a Stud Sire. She had twin heifers this year by Glenlea Honorable (P) but we removed one after it got injured, the remaining twin was the bigger of the two. Her EBVs are top 1% of the breed, for all growth traits, with strong carcass values. Polled Red Factor heifer calf M70, by Glenlea Honorable (P) (R/F).

COMMENTS: Polled, 3 in 1 Unit, white bull calf at side Born 28/8/16

CALF PHOTO SALE DAY

H49 is one of a group of Douglasdale stud heifers purchase via another herd dispersal. H49 is Polled. A long bodied female with excellent udder, she has had two calves for Glenlea and both have been very low BW with excellent growth. We expect her BW EBVs to lower to well below breed average while growth will increase once more progeny data is measured. Carcass traits will be above average. Quality female with Rosedale and Palgrove bloodlines throughout her pedigree.

Double Polled, white bull calf, M66 by Rangan Park RIO, lowest BW in his management group, thick, long and eye appealing.

COMMENTS: Polled, 3 in 1 unit white bull calf at side Born 29/10/16

Our second Douglasdale female, more moderate in frame than previous lot, which maybe a result of being born and raised on the coast on lighter soils. Deep bodied, tremendous udder and has a powerful Glenlea Honorable(P) R/F, double polled bull calf at side that will be an easy bull to sell when he reaches working age. Thick, soft, with good bone, like all the Honorable progeny.

COMMENTS: 3 in 1, white bull calf Born 3/9/16

Our lowest BW, calving ease mature dam. Bloodlines are from the Murton Stud in Tasmania, her 2013 son by Rangan Park Rio (P) sold to Calmview stud, Tony and Suzie Farrell as a heifer bull. A full sister to that bull sells as Lot 130.

Polled bull calf at foot again by Rangan Park Rio (P), had the lightest BW in his management group, will make a great heifer bull.

Very reliable matron female. Male progeny have averaged almost \$5000 at auction. Long bodied, early maturing, big volume and lots of softness in her progeny.

Has probably her best bull calf, M84 to date at foot, sired by RP RIO (P) he is an outstanding Polled, Red factor bull that could easily fit into any cross breeding program or would make a great heifer bull in any stud program.

Another great Ijoufflu cow, extra yield in this female, showing her Full French bloodlines. Purchased from the now dispersed THW herd, she has produced some excellent progeny, a Glenlea Jimmy (P) R/F 2015 drop daughter is catalogued as Lot 129 and her 2 yo daughter by RP Rio (P) is a great blend of French and Polled genetics. EBVs reflect the moderate BW, good growth and high carcass yield in top 1% of the breed.

Polled white heifer, M87, by RP Rio (P) will be a great future breeder well into the 2020's.

One of the feature matrons of the sale. A polled Ijoufflu daughter, rare as hens teeth, out of a MAC 2244(P) Daughter from the "Janet" cow family. Deep, big volume female, early maturing with a medium frame, big milker, always producing as extra sappy calf. Sons have sold to \$7000 and one Glenlea Early (P) was a very successful Stud sire for Calmview Stud, Lismore NSW. 2 daughters in this sale, Lot 91 will have a calf at side by sale day and the other is big volume double polled heifer, both are by BVC Forged From Steel (P) R/F. C8 has always had low BW calves and her EBV's reflect this, growth is well above average with top 10 % milk and big EMA and RBV%(Retail Beef Yield). Double polled white heifer calf at side, M86, by RP Rio (P) is as soft as butter, show prospect.

COMMENTS: Double polled, 3 in 1, bull calf Born 5/11/16

Great doing cow to finish off the mature females. Moderate frame, early maturing, top 5% for low BW and calving ease and fat cover. Had 2 calves in 2016, one in January and another in November, so top fertility as well. G7's 2015 bull calf sold way out west to a new client near Warren, NSW, Dominic Warlock to use over Santa cross cows and heifers. He was our lowest BW autumn drop bull with a great carcass and good growth.

Double polled, white bull calf, M99, at foot by RP Rio (P) will be similar to her 2015 bull, very low BW, great carcass with more growth from Rio.

COMMENTS: Double polled, Red factor, cow/calf, halter broken, red bull calf at side Born 21/10/16

Really impressive young female. Maternal sister to Stud sires Glenlea Jimmy (P) (R/F) and Challambi Herbi (P) (R/F) and top priced bull at the inaugural 2016 Tenterfield Euro sale Glenlea Josh (P) (R/F) by BVC Forged From Steel (P) (R/F) selling for \$9000.

K60's dam is donor female that was purchased as top priced heifer at the Gobongo Dispersal in 2011 for \$8500. She has 16 progeny to date and another son bred by Nigel Spink, Challambi Stud near Albury, from an embryo purchased in 2013, is a sire in the Millner's families Rosedale Stud composite bull breeding program. Ascot Charolais purchased four frozen embryos in 2013 and had 4 live calves, all maternal siblings to K60.

K60 is sired by RP Rio (P) is a true curve bender, low BW with excellent growth, milk and top 5% carcass traits. All in a medium framed, early maturing body type. Full sister sells at Lot 119.

Double polled Red Factor bull calf, M92 at side by Leachman White Gold (P). Low BW calf that could become anything, we have our eye on him for use on heifers already.

Will join to Glenlea Honorable (P) (R/F) from 10/11/16.

COMMENTS: Polled, cow/calf, halter broken, white bull calf at side Born 20/10/16.

A powerful Rio daughter out of a matron of the herd, B24 who sells at Lot 46. Extra everything in this outstanding young female, growth, volume, muscle. Future donor prospect. 2015 Full sister sells at Lot 95.

From the "Caarol" cow family that has produced many Broad Ribbon winners at Royal Shows and numerous high selling bulls, K67 is an outstanding "Caarol" female.

Moderate BW with top 5% growth, top 1% EMA with all other carcass traits fully positive.

Double polled white bull calf, M91, at foot by Leachman White Gold (P) could be your next Stud or crossbreeding sire.

Joined to Glenlea Honorable (P) (R/F) 10/11/16

COMMENTS: Cow/calf, white heifer at side Born 21/9/16

First of four Palgrove Emblem daughters, all with polled heifer calves by Glenlea Just n' Easy (P). Balanced, good volumed first calvers with lifetime of production ahead. Moderate BW good growth with very positive carcass traits. These four half sisters would be a great addition to any stud with their polled heifer calves at side as future breeders.

Polled heifer calf, M80, by Glenlea Just n' Easy (P) thick, stylish with excellent performance and softness. Future breeder.

COMMENTS: Halter broken, Double Polled, Red Factor, joined to A.I

A front paddock female. Has all the traits we want in modern Australian Charolais. Volume, thickness medium maturity with extra softness. One of RP Rio (P) best daughters, dam is a donor female that we selected as our pick of the 1st calvers at the 2011 Gobongo dispersal, 13 progeny including L10 so far. Maternal sisters in both Orara Waterfall Stud and Calmview Stud, producing great progeny. Dam is Lot 32 in this sale. Top of the breed EBVs low BW, top 5% growth, milk and top 10% carcass traits.

A.I. 28/10/16 to Leachman White Gold (P)
and paddocked with Glenlea Jimmy (P) (R/F)
from 14/11/16.

COMMENTS: Halter Broken, Double Polled, Red Factor, joined A.I.

Big volume daughter of BVC Forged From Steel (P) R/F first calf out of our only Wyoming Wind daughter H50, Lot 28 in this sale. Extra thickness, extra softness, early maturity could be future donor prospect.

EBVs are bending that growth curve again, low BW with excellent growth with moderate mature size and all strongly positive carcass traits.

A.I. 28/10/16 to Leachman White Gold (P) and paddocked with Glenlea Jimmy(P) (R/F) from 14/11/16.

COMMENTS: Show heifer, poll/scur, Red Factor, joined A.I.

This heifer was shown at several north coast shows this spring. Feminine front with lots of extension, with deep wide body and great hindquarter, classic wedge shaped female. Sired by a son of our Homozygous Polled donor, JANET U6E X Pinay, Challambi Herbi (P) (R/F) who is also the sire of yearling bulls Lot 151 and 152. Dam is lot 41, herself a feature lot, L20 was Reserve Junior Champion at Lismore North Coast National Show and will have a future as a show cow. Moderate BW with top 5% growth and milk and top 1% EMA and all positive carcass traits.

A.I. to LT Long Distance (P) 19/11/16

COMMENTS: Show heifer, polled, Joined A.I.

An outstanding heifer. Admired since a calf on her mother by all stud breeders and visitors to Westbrook Station, this heifer has all the growth, volume, muscle and softness to put her at the top of any herd. Full sister sells at Lot 80, dam as lot 46. L21 is the type that will become a donor, breed stud sires and front paddock replacement females.

EBVs are top 1% of breed in most traits.

GLENLEA JANET 101ST (P)

TATTOO: GLE L198E **DOB:** 07/11/2015 **SEX:** F
COMMENTS: Volume and doability. Double polled and Fine hair coat. Dam is feature lot 71. Full sister sells at lot 91. This lot and the next two lots have been in a different mob and had access to extra feed through winter and into spring and they present in more forward condition to most of the unjoined heifers. The have been assessed in the own group for BREEDPLAN. Low BW EBVs with good growth and strongly positive EMA and Yield.

FROZEN EMBRYOS

Conditions of Sale: These are sold on a price per embryo basis. They are all located at Bovine Breeders in Armidale and can be shipped in most cases with other genetic material to your required destination, making shipping costs very minimal. Flush sheets will be provided to all purchasers for use by whomever implants them. Due to the nature of this sale being a complete herd offering embryos are sold with no conceptions Guarantee. However Glenlea has been selling embryos for almost 30 years and rates of conception for our frozen embryos are well above industry averages.

EMBRYOS FROM GLENLEA ELSA V14E (AI) (TW)

TATTOO: GLE V14E **DOB:** 23/08/2000 **SEX:** F
 BLASON 4286100325 286100325 (PED X286F)
SIRE: IMPAIR 1893102983 (OAF N189F)

 GLENLEA MASTERPIECE FL88 (GLE M47E)
DAM: GLENLEA ELSA S1E R/F (GLE S1E)
 ASKRIGG TUNE LSA (ASK B154D)

Elsa V14E is a magnificent female sired by breed legend IMPAIR. Her dam was Interbreed Champion Female for 2 consecutive years at both Royal shows in Tasmania. Under multiple leading judges from around Australia, herself becoming a donor dam for ASH-LIN Stud, NSW. V14 has over 30 progeny born with exceptional temperament just like their Dam. Well on her way to becoming a trait leading female in the Australian Charolais herd. Registered Active daughters in 4 states, Progeny have topped several sales from VIC to QLD. Top 5% growth and carcass traits, EMA and yield. V14's best progeny have resulted when crossed with polled North American Sires such as the sires of these two embryo lots. Combining the growth, yield and muscle of V14 with the polling, softness and low BW of the sires. With both sires being Homozygous Polled, all progeny from these two joining's will be polled.

LOT: 136

6 EMBRYOS

LT Easy Blend (OAU A5113E) (P) X Glenlea Elsa V14E (GLE V14E)

LT Easy Blend (P) Homozygous Polled is the most proven of the LT sires imported to Australia. Being early maturing, very easy finishing, very low BW and moderate framed. Trait leader in the Australian Charolais herd for BW 200,400 and 600 day weight and almost with Fat Cover, with over 400 registered progeny in over 40 herds across the country. At his best when combined with Dams that have scale, bone, muscle and yield, such as V14, breeding the best combination of type to produce potential Stud sires and front paddock females. Progeny from this mating have already been born, (see photo just under lot 117)

10 EMBRYOS

LT Ledger (OAU F3168E) (P) X Glenlea Elsa V14E (GLE V14E)

LT Ledger (P) Homozygous Polled has been very heavily used in the last 2 years with over 250 progeny in 35 herds across Australia. Extra low BW with (trait leader) massive scrotal (trait leader) moderate framed with extra carcass traits, especially Fat Cover. Again at his best as sire when joined to female like V14. Progeny of this mating have already been born, (see photo just under lot 117)

EMBRYOS FROM GLENLEA JANET U6E R/F (P) (TW)

TATTOO: GLE U6E **DOB:** 10/08/1999 **SEX:** F
 GLENLEA KINGSLEY (GLE K16E) (P)
SIRE: GLENLEA MEATBALL (GLE M44E) (P)
 GLENLEA NUNCIATA K17D (GLE K17D) (P)
 KELLY WALLAH RED-CHAR CHIEFTAIN (RW H146E)
DAM: GLENLEA JANET N36E (GLE N36E) (P)
 GLENLEA JANET K9D (GLE K9D)

Janet U6E is a Homozygous Polled Donor Dam. Red Factor. Moderate framed and early maturing, perfect udder and an outstanding production record. 29 progeny, with daughters in 4 states. U6 has produced 4 stud sires, including one a registered A.I. sire with semen exported overseas. U6 has been proven by her progeny time and time again. Progeny are consistently early maturing, low BW with lots of carcass and softness. Udders and teats structure in daughter and Grand daughter's is amazingly perfect.

LOT: 138

3 EMBRYOS

PINAY 8552394134 (OAFU4134F) x GLENLEA JANET U6E R/F (GLE U6E) (P) (TW)

Pinay is the base line Full French bull in Australia today. Over 1000 registered progeny, over 120 herds! Trait leader for 400, 600 weight and milk. The number one sire in the whole breed for EMA and Yield! Male Progeny from this mating have already become stud sires.

CARABINIER 71357 C33 (IAF C6041F) x LINKLETTER Y27F (LJA Y27F) (AI) (ET)

FULL FRENCH Embryos. From the dam of lot 18 and 19. Y27F was purchased from the WA Linkletter Herd dispersal in 2005, and is a member of the "Desire" French cow family at Palgrove Stud. Great female that produced outstanding daughters that are offered at Lot 18 and 19. The combination of this Dam with breed legend Carabinier, having over 2200 registered progeny going back to the start of the Charolais Breed in Australia in the early 1970's, should produce outstanding progeny with performance, early maturing, thickness and moderate BW.

LOT: 143

2 EMBRYOS

ICARE (OAF N7193F) x GLENLEA NOLANA M30D (GLE M30D) (P/S)

M30D was an awesome cow, producing 27 calves, with 4 stud sires, sired by Glenlea Jupiter(P) Grand Champion Bull at the 1990 National Convention, her dam was the original Glenlea Nolana, born in 1977, and a daughter of CLOVIS a great breeding early French Bull. M30D had High selling E.T. sons for Avabundy Stud, Victoria and leading females in the 4 ways Stud, NSW, all through the purchase of frozen embryos from this cow. A daughter Glenlea Nolana W15E was herself a great donor female with a number of embryos sold to other studs around the country. M30D is a maximum performance female and is example of the massive growth and volume the Nolana cow family has been able to become renowned for while still keeping all that growth in a medium framed body type. This combination of Genetics could produce progeny that have a big impact. Full French ICARE is as maximum performance bull, paternal brother to breed legend IMPAIR. Only used by 6 studs including Glenlea as his semen was not available generally. Growth EBV's in top 1% of breed and potentially a great combination with S7. 19 straws of Icare semen is catalogued at lot 158.
