OUR APPRECIATION TO OUR CLERGY—Fr. Raymund M. Reyes, Fr. Eduardo A. Dura, Fr. Martin S. Njoalu, Deacon Nestor L. Fernandez II and Deacon Virgil D. Capetti—for keeping St. Augustine Church in motion in 2020 with its celebration of Holy Masses, para-liturgical services, confession, anointing of the sick, funeral, baptism, RCIA, and wedding celebrations whenever allowed and in keeping with the Health and Safety guidelines on Covid-19. We know the risks you have faced and continue to do so. We pray for your health and safety.

To the **CATECHISTS** who by no choice of their own have to learn to teach remotely through ZOOM. You are appreciated for your dedication and love in teaching God's Word to the young faithful of our community. May the Holy Spirit's in dwelling remain in you as you persevere in the vocation of teaching the faith.

To the **PARISHIONERS** for unceasingly praying for the greater good of the parish and all those who relentlessly serve our beloved church through other means such as giving of their time and resources—your loyalty and sacrifice are to be reckon with, especially in 2020, when majority struggled and continue to struggle to keep institutions afloat. May the Lord's blessings be yours always.
BLESSINGS TO ALL!

ONLY WONDER KNOWS: HUMANITY'S IRRESISTIBLE ATTRACTION TO THE MYSTERY OF CREATION

Taught live online via Zoom on Mondays at 7 p.m. January 4 2021, January 18. Recordings will be available to all who register.

How can we understand physical reality while being in it? Why is there something instead of nothing? Join **Dr. Maria Elena Monzani, astrophysicist at the SLAC particle accelerator at Stanford, with Archbishop Salvatore Cordileone** and other great minds as we explore these big questions and more. A recurring theme in our daily conversations is the apparent conflict between different methods for understanding nature and ourselves: faith, philosophy, science, medicine, sociology, psychology, etc. All these methods have one factor in common: they are driven by human curiosity, and by an attitude of amazement towards reality. But how is it even possible that we are able to understand physical reality, while being a part of it? In this course, we will examine this question from a variety of different viewpoints and discuss how, instead of contradicting each other, all these methods paint a coherent picture of humanity's relationship with the cosmos.

THE CATHOLIC FAITH & MODERN SCIENCE

Are faith and science opposed to each other? Do miracles matter? Can physics explain creation without a creator? What is consciousness? Does evolution contradict the faith?

Taught live online via Zoom on Tuesdays at 7 p.m. on February 2nd 2021, 9th, 16th, 23rd, March 2nd 7-8:30. Recordings will be available to all who register.

Join us for an online course taught by theoretical particle physicist and president of the Society of Catholic Scientists, Dr. Stephen Barr, as we explore these questions and many more! In these lectures Prof. Barr will show that the widespread idea that faith and science are opposed to each other is based on serious misconceptions about the history of science, about what the Catholic Church teaches, and about what science has actually discovered about the world. In the first lecture, he will show how fundamental Catholic beliefs about God dovetail with the basic assumptions of science. In the second lecture, he will show how the Catholic Church, Catholic clergy, and Catholic lay people powerfully contributed to the founding and development of science. In the third lecture, he will discuss the beginning and creation of the universe from the viewpoint of both Catholic theology and modern cosmology. In the fourth lecture, he will show that the idea of the human "spiritual soul" is not in conflict with modern science. In the final lecture he will show how the idea of biological evolution is perfectly consistent with a Christian conception of the universe.

ATV (Augustine TV Live Stream Crew). On December 16, 2020, the Augustine TV reached its one year anniversary live streaming the Holy Mass at St. Augustine Parish. What a providential occurrence not knowing that after a few months after it was initiated in the parish the world will go digital in proclaiming God's Word to its faithful.

The parish is truly grateful to Vivian Ramos for opening up the concept for the parish and to all the members of the ATV Team: Ro Abueme, Oliver Chavez, Daniel Diaz, Jewel Malejona, Eric Payson, Erlan Tapawan and Louie Valdez - for voluntarily taking on the responsibility to air and document the Holy Masses and other special events through Facebook Live. Broadcasting the Holy Mass has brought endless audience and participation of the faithful everywhere in the world.

LANDSCAPE TEAM. The parish, especially the clergy and staff, thanks the members of the Landscape Team supervised by Tess Hernandez for maintaining and beautifying the church compound through the years. The hard work of our volunteers through rain and shine enhancing the landscape of St. Augustine do not go unnoticed especially now that the Holy Mass is held in front of the steps of the church. The natural ambiance of the surrounding definitely augments the beauty of worship. The faithful can relish the religious icons/statues while enjoying the outdoors and at the same time, pray for their intercession. The decorative lights and lanterns lit at night provide additional glow in the dark while celebrating Simbang Gabi Novena of Masses. **THANK YOU** Augustine TV and Landscape Team!
