

30 September 2013

Dear Frank,

Many thanks once again for the terrific job that you did with the teardrop.

Your regular updates and pictures of the build of our teardrop, (nice to see how it all fits together) made us feel part of the process. We really appreciated your flexibility in moving the delivery date forward for us, and in having the trailer ready as arranged on the pickup day.

We have just arrived back home in Melbourne with the teardrop. We had a lovely, slow trip back to Melbourne staying in the van along the way. Having been tent campers up until now, the teardrop is luxury. It is lovely to have the galley with kitchen implements and cooking supplies organised and ready to use. We found it very comfortable to sleep in: the best nights' sleep we've had camping without doubt. Your experience as a teardrop user is evident in the design, which makes maximum use of the space available in a easy to use layout.

The teardrop tows beautifully, everything works nicely, and the finish and construction are excellent. All in all, the van exceeds our expectations, and we are looking forward to using it for many years to come.

The care and thought that has been put into the teardrop are much appreciated.

Thanks and best wishes

Anne and Gary
