

Dear Frank

We want to express our sincere appreciation for supplying our new Teardrop Camper and taking it to Brisbane for us so that we could have it delivered to Atherton.

The Teardrop tows like a dream and exceeds all our expectations. We've had two trips to Kurrimine Beach (both times ended up wet) and have just returned from Chillagoe. There are a few sections of the road to Chillagoe which are unsealed and the Teardrop handled the corrugations and bulldust exceptionally well. Your workmanship is second to none. Neither rain nor dust has got in anywhere it shouldn't.

We've since had a couple of awnings and a tarp made up, and have also added a pole carrier. The awnings go into sail track. We've also added two drop down doors to the shelf inside.

On our second trip to Kurrimine Beach one of Caravan World's correspondents was there and took a photo for the magazine. Of course we told him where we bought the camper and told him how happy we are with it and the service you provided. Hopefully he will give The Teardrop Camper Company a free plug.

We're looking forward to our trip to Adelaide for the Bay to Birdwood Rally in September and have complete confidence that the camper will handle the 6,000 plus kilometres.

Please don't hesitate to refer us to any potential customers who are questioning whether they should buy one of your campers.

Many thanks, many times,

Marj and Murray Nix.
