11/20/20

Dear Parents/Guardians/Family Members,

Due to the recent increase in Covid cases statewide NJID has been directed by the Division of Developmental Disabilities to close our Adult Training Centers effective close of business November 25, 2020 through at least January 18, 2021. The DDD is of the opinion that after the holiday period the Covid cases will begin to trend downward, thus allowing for in-person services to resume. In the meantime, I strongly recommend our virtual day habilitation services which have been on-going since July. In virtual day habilitation we have all of the current in-person day habilitation offerings that include health and fitness, arts and crafts, computer skills training, social groups where peers stay in contact with each other, bingo and other games and much more. Virtual day habilitation is fun for all participants and a great way to have your loved one stay engaged during this difficult time. If you currently do not have a computer, tablet or iPad to access these virtual services we can have an iPad delivered to your home. Thank you and all the best during this holiday season.

Sincerely,
