The Ranbuild Equine Range.

Every shed in the Ranbuild range has been designed to give you the strongest, most reliable building possible. The galvanised steel framework provides strength and versatility not available in other building types. Couple this with lower cost compared to a custom made building and you have excellent value for money. With over 55 years experience in the Steel Shed Industry, Ranbuild buildings are well and truly tried and tested.

Versatile

Ranbuild Equine buildings cover a wide range of spans, lengths and heights. The modular system allows you to customise the building to suit everything you want to cover, secure or protect. Choose long lasting ZINCALUME® or one of the many colours available in COLORBOND® steel cladding and you'll have the perfect building.

Durable

Ranbuild buildings are manufactured from the finest Australian made steel products, for added strength and durability. Framing and cladding are guaranteed by BlueScope Steel. Ranbuild designs are fully engineered in accordance with Australian Building Codes, and are supplied with documentation to simplify building approval.

Economical

All buildings come in kit form, complete down to the last washer. The galvanised components are pre-formed to give you optimum value for money. You can choose whether to assemble your building yourself and save, or your local accredited Ranbuild Dealer can help you organise an experienced construction team.

RIDING ARENAS

Equestrian centres, riding schools, pony clubs or just for fun, a covered riding area can be used all year round. Extra protection is available with the addition of curtain walls and gable infills. Where maximum protection is required, Ranbuild riding arenas can be partly or fully enclosed. Sizes include spans up to 36m with multiple bay lengths up to 9 meters.

Paddock Shelters

Protect your valuable animals with a hygienic and low maintenance paddock shelter. Choose from gable or monoslope roof designs, partly enclosed or open.

AUSSIE STABLE BARN

If you want the traditional Australian look, you can choose the Ranbuild Aussie stable barn. These are specifically designed for all your stable needs. A host of included features such as extra wall framing to support internal linings, Ranbuild stable panels, stable doors, all to create the stable of your dreams.

AMERICAN STABLE BARN

The Ranbuild American stable barn with its stylish stepped roof line creates the ultimate Stable Barn, with its internal columns, they are ideal for attaching stable panels & dividers.

More features are the eave overhang for extra weather protection & the choice of roller doors or sliding doors to suit your needs. Mezzanine floors are also available for extra storage. With the versatile designs you will have a show piece as well as a safe & secure home for your valuable horses.

STABLE BUILDINGS

All Ranbuild Buildings may also be fitted with modular stable panels to make a low cost set of stalls, giving you the flexibility to have a multi purpose building that covers all of your needs. Contact your local accredited Ranbuild dealer today for all the right advice.

With these options, you can design the perfect building for your needs.

Access Doors

A variety of steel framed metal clad doors are perfect for turning your shed or barn into a champion stable.

Ventilation

A wide range of shutters, wall and roof ventilators provide much needed air flow for a happier, healthier environment.

Natural lighting

Save electricity costs & increase natural lighting by installing reinforced fibreglass skylights, this functional option provides much needed natural light for your champions home.

Ranbuild Stable Panels

When it comes to animal security and safety, nothing compares to the wide range of Ranbuild Stable panels. They have been designed for the safety of your animal in mind. The modular stable panels are available in a standard size of - 3.6 x 3.6 x 2.4 (12"x12"x8").

Please contact your local accredited dealer for more information on available sizes.

- Fully hot dipped galvanized steel - No painted welds.
- Kiln dry australian Hardwood

- Sliding or Hinged doors
- Available with Ply or Hardwood
- Optional Powder coated steelwork
- Highest quality latches & fittings

Front Stable panel with top & bottom doors in Ply Bar combination.

Front Stable panel with top & bottom doors in Hardwood Bar combination.

Roller Doors

Roller doors are the ideal choice for industrial and commercial applications, as they provide high standards of durability, performance and importantly, operational ease.

Designed to prevent the penetration of moisture and dust, roller doors minimise the chances of corrosion, and protect against dirt, leaves and weather.

While strength is an obvious priority, you can still maintain the attractive appearance of your building with doors available in a range of COLORBOND® and ZINCALUME® Steel for compatibility with cladding materials.

You'll enjoy smooth, quiet operation from both the manual and electronic doors. All doors custom made to suit your application, so there's no compromise on functionality.

Sliding Doors

Ranbuild are industry leaders for steel sliding doors. Fully enclosed top tracks house multi ball bearing carriage assemblies. Galvanised steel frames and high tensile cladding are used for their strength and appearance.

Colour Your World

We recommend checking your chosen colour against an actual sample before purchasing.

LYSAGHT CUSTOM ORB®

LYSAGHT TRIMDEK®

Quality Cladding

Choose from ZINCALUME® or COLORBOND® steel cladding in up to 20 colours, 2 thicknesses and 2 profiles for attractive building that is also durable, strong and thermally efficient.

With the advanced Super Polyester pre-painted coating technology, your roof will stay looking great for longer. The superior oven baked finish resists chipping, peeling and cracking.

COLORBOND® steel cladding is non-combustible, termite resistant and weather tight for protection against harsh Australian conditions.

Profiles

LYSAGHT CUSTOM ORB® has a corrugated profile, equally at home with traditional and contemporary design. It is long, wide, strong, lightweight and economical. It can be aligned quickly and easily.

LYSAGHT TRIMDEK® is a subtle square fluted steel cladding. The fluting in the pans provides strength and long spanning capabilities.

Your local Accredited Ranbuild Dealer can help you to make the choices that will best suit you and to finalise your design. If you have any special requests, just ask and your local Ranbuild Man will be happy to investigate the possibilities.

Compare the best with the rest.

Ranbuild is a foundation member of the Steel Shed Group so you can be assured that all designs are of the highest quality and comply with Australian Standards and safety regulations. They are subjected to rigorous testing and are manufactured using only quality materials. Ranbuild has over 55 years experience in the steel shed industry so you'll know that your Ranbuild shed will not only look good, but is able to withstand some of the toughest conditions.

Ranbuild sheds are available through a nationwide network of independent Dealers. Your local Ranbuild Man can assist you with design choice, building approval and organise the construction of your shed if required.
