INTRODUCTION

The purpose of this guidebook is to provide information relative to the administration of the Instructional Materials Program for grades PreK-12 in Wakulla County Schools.

Contents of this document are based upon:

1) current statute,
2) district policies, and
3) procedures utilized in the district.

For successful implementation of the instructional materials program it is vitally important that all administrative personnel and their textbook managers become thoroughly familiar with the policies, procedures, and guidelines applicable to instructional materials. The Wakulla County Schools Instructional Materials Program must continue to be an integral and essential part of the K-12 instructional process. It is to that goal this guidebook has been designed.

“The district school board has the constitutional duty and responsibility to select and provide adequate instructional materials for all students in accordance with the requirements of this part. The term ‘adequate instructional materials’ means a sufficient number of student or site licenses or sets of materials that are available in bound, unbound, kit, or package form and may consist of hardbacked or softbacked textbooks, electronic content, consumables, learning laboratories, manipulatives, electronic media, and computer courseware or software that serve as the basis for instruction for each student in the core courses of mathematics, language arts, social studies, science, reading, and literature.” FS 1006.28(1)

“Each district school board must purchase current instructional materials to provide each student in kindergarten through grade 12 with a major tool of instruction in core courses of the subject areas of mathematics, language arts, science, social studies, reading and literature. Such purchase must be made within the first 3 years after the effective date of the adoption cycle” FS 1006.40(2)

Instructional materials at use in classrooms are rapidly changing as the district incorporates digital texts and instructional software. All instructional materials used in the classroom are the responsibility of the school district and must meet the guidelines for research-base and standards alignment. No instructional material shall be implemented without review by appropriate personnel. Ref. FS 1006.283. The expenditure of the Instructional Materials allocation shall conform to the requirements noted in FS 1006.40 (3).

Library Media Services:

The District School Board shall establish and maintain a program of school library media services for all public schools in the district. Ref. 1006.28(1) (d)

INSTRUCTIONAL MATERIALS DEFINITIONS

On-Adoption Instructional Materials:

Those instructional materials that are currently on district adoption. These materials can be state adopted or non-state adopted. Materials are typically adopted for a five or six year period, but some titles may remain on adoption for several years longer. These are the materials that must be reported on the Textbook Inventory each June.
Extended Adoption Instructional Materials:
Instructional materials that continue to be used in the district even though they may not be under current state adoption. These materials may still be available from the School Book Depository or publisher, but they are no longer under a state bid price.

School Textbook Manager:
The person designated by the principal to handle instructional materials in the school center. This is a supplemented position.

Textbook Inventory Report:
This report form lists all of the instructional materials for which a school or department is responsible and accountable. The district updates it with each adoption, and the final inventory is due from schools by June 30th of each year.

Dual Enrollment Materials:
Those materials that are issued to high school students who are also enrolled in post-secondary courses creditable toward a vocational certificate or an associate or baccalaureate degree.

Back Orders:
These are materials that have been ordered by schools, but that have not been received from the publisher or Florida School Book Depository. It is the school’s responsibility to follow up on backordered materials.

Florida School Book Depository (FSBD):
The depository that carries all state-adopted instructional materials in the state of Florida, and from which the district orders all state adopted materials used in district schools. FSBD is a private business that is located in Jacksonville, Florida. The Instructional Services Office issues elementary and secondary FSBD catalogs each year. Prices listed in the catalog are the state contract prices for the adopted materials.

Consumable Instructional Materials:
Materials listed on the Textbook Inventory intended to be written in and consumed by students. Textbook Managers will need to maintain a count of any consumable materials on hand and order replacements as needed.

Non-consumable Instructional Materials:
Materials listed on the Textbook Inventory, which are not meant to be written in or consumed by students. These materials are reissued to students year after year and are intended to last the length of the adoption without replacement.

Ancillary Materials:
These are supplemental or ancillary materials that publishers offer “free with order” during the first year of adoption and purchase. In subsequent years, these items must be purchased at the price listed in the FSBD Catalog. These items are meant to last the length of the adoption and the count per teacher should be reconciled at the school each year.

Computer-Assisted-Instruction (CAI) Materials:
Software used for instruction or intervention. This software is district purchased and/or approved.
Textbook Allocations:
Instructional materials are purchased through categorical funding from the state of Florida. The funding is based on the FEFP, and may fluctuate from year to year. The district allocates the funds to schools in accordance with the adoption needs for the year. Media funding and dollars for science lab materials are a part of this funding.

TEXTBOOK MANAGER
Each school principal shall appoint a textbook manager for his/her school. This position is supplemented as outlined in the Master Contract Agreement Between the School Board of Wakulla County, Florida and the Wakulla Classroom Teachers Association.

The duties of the Textbook Manager include
- Maintaining a working knowledge of the information located in the Instructional Materials Handbook.
- Assisting the principal with the annual textbook inventory.
- Maintaining a current list of textbooks and their prices used in the school.
- Assisting the principal with the ordering of textbooks.
- Communicating with the Florida School Book Depository concerning damaged textbooks or textbooks received in error.
- Facilitating the textbook adoption process by assuring that sample texts are distributed as requested by the district office. Records should be kept noting this distribution, so that samples can be located as necessary.
- Communicating with the District Curriculum Coordinator to assure that school textbook needs are supplied. The principal should be aware of needs prior to their communication to the District Curriculum Coordinator.

INSTRUCTIONAL MATERIALS ADOPTION GUIDELINES
Wakulla County is a closed district. This means that all initial calls from companies and sales representatives regarding textbook purchase should be directed through the district office. The Instructional Services Department should be contacted if sales representatives contact the school without going through the district office. A sales representative will not be sent to a school from the district office without prior notification from the Instructional Services Department to the school. All vendor presentations during an adoption year are coordinated through the Instructional Services Department.

INSTRUCTIONAL MATERIALS ADOPTION PROCEDURES
1. The District adoption cycle for instructional materials shall align with the State cycle except where a separate District adoption is considered necessary. Subject areas to be reviewed will be posted on the district web site and published in the Instructional Materials Handbook. Adopted materials shall be used during the adoption cycle until they are physically unusable, they are replaced with newly-adopted materials, or until the course is no longer offered.

2. The District review will focus on evaluating materials that are submitted by publishers for State adoption or other materials available at the time from appropriate publishers. The goal will be to recommend the most suitable materials for District adoption in Wakulla County.

3. In the selection of instructional materials to be used in the District, the criteria used to determine the propriety of the materials shall include: alignment with course state standards provided for
in FS 1001.03(1), the educational purpose to be served by the materials, the degree to which the materials encompass the instruction required by the State Board of Education and the District School Board, and a consideration of the racial, ethnic, socioeconomic, and cultural diversity of the students of the District. “Any instructional material containing pornography or otherwise prohibited by s. 847.012 may not be used or made available within any public school.” (FS 1006.34(2)(b)4)

4. For District-wide adoption in core subject areas, teachers who teach the subject at the appropriate grade level and who are not on the District committee will be afforded opportunities to review samples of the top two or three-rated publishers’ programs and give input. Teachers’ comments will be reviewed at district level and weighed as a factor in the final decision-making process. The decision for recommendation will be based on a majority vote by teachers of the courses for which the materials are being adopted. This recommendation will be submitted to the School Board for approval.

5. Members of any District instructional materials adoption committee will receive instructions that they are prohibited from accepting gifts, money, emoluments, or other valuables which shall directly or indirectly influence the adoption or purchase of any instructional materials. These prohibitions apply to committee members. Committee members shall conduct themselves in the best interest of students in support of the district’s mission statement.

6. Each District adoption committee member will receive an overview of the evaluation techniques to be used, characteristics of effective instructional materials and the skills necessary to make valid, culturally sensitive, and objective decisions regarding the content and rigor of instructional materials. In addition to conducting topic comparisons, horizontal traces, and vertical traces where appropriate, the review process will include scrutiny of each program’s alignment to the state standards and the assessments that are based on those standards.

7. The adoption calendar specific to the current adoption shall be established during the fall of each school year and shared with district and school personnel.

8. All adoption decisions are to be completed by May 1st of the school year in order to ensure that orders may be placed and materials received in sufficient time for the beginning of the subsequent school year.

**Instructional Materials Review Committee**

For each subject to be reviewed, an Instructional Materials Review Committee will be convened. The Instructional Materials Review Committee will have representatives from the following groups:

- One or more parents who currently have children in the Wakulla County School System
- One or more teachers who are certified in and/or currently teach the subject for which materials are being considered for adoption - At least two-thirds of the committee will be comprised from this group. ESE personnel will be included in the committee.
- One or more district-level instructional personnel with expertise in the area for which materials are being considered for adoption – This may be a school-level administrator.
- Community representation on the Instructional Materials Review Committee is encouraged.
- The selected district committee members will carefully review the newly state-adopted instructional materials according to the identified needs of the school, students, and community and the required standards for the course(s).
Activities of the committee may include, but are not limited to:
- designing a criteria sheet appropriate to the subject area.
- utilizing the criteria to review the new materials.
- narrowing the selection to three top choices.
- listening to presentations by representatives of the publisher(s).
- developing a strengths/weaknesses document for each choice.
- presenting review information to each school’s staff/department.
- facilitating grade level/subject area evaluation of the materials at the school level.

Once the committee has met, open review by all teachers of the subject or course will begin. Teachers will have a specified length of time to review and evaluate the materials with the assistance of the information provided by the committee. Horizontal and vertical team meetings will be held at the school level to discuss the strengths of each text as they relate to the specific needs of each group of students. Teachers will be encouraged to teach lessons from the sample texts during the review period.

Teachers at each grade level at each school will come to consensus on their first and second choices. These votes will be submitted to the school administration. The compilation of school votes will be submitted to the District Curriculum Coordinator for a district tally. Based upon this information the district decision will be made with final approval by the School Board.

Prior to final approval, an advertised 30-day period must be provided during which the parent of a public school student may contest the district school board’s adoption of a specific instructional material. The parent must file a petition, on the form provided by the school board (see Form E in Appendix), within 30 calendar days after the initial adoption of the material by the school board. The form will also be available on the district website. Within 30 days after the 30-day period has expired, the school board will conduct at least one open public hearing on all petitions timely received and provide the petitioner written notification of the date and time of the hearing at least 7 days before the hearing. All instructional materials contested must be made accessible online to the public at least 7 days before the public hearing. The school board’s decision after convening a hearing is final and not subject to further petition or review. FS 1006.28 (1)(a)3

Upon final approval by the School Board, the district curriculum will be correlated to the new materials and schools will be ready to order textbooks for the following year. It is anticipated that textbooks will be ordered during the first year of each adoption cycle.

**General Timeline for the Adoption Process**

<table>
<thead>
<tr>
<th>Time Frame</th>
<th>Task</th>
<th>Responsibility</th>
</tr>
</thead>
<tbody>
<tr>
<td>July</td>
<td>Review of the state adoption cycle with specific plans for the upcoming adoption</td>
<td>District Instructional Services Department</td>
</tr>
<tr>
<td>August</td>
<td>Specific Timeline distributed to administrators and shared with teachers. Preparation of subject-specific survey, as needed.</td>
<td>District Instructional Services Department and School Administrators</td>
</tr>
<tr>
<td>September</td>
<td>Teachers complete survey as deemed appropriate for baseline information. Adoption information is updated on the district website.</td>
<td>Instructional Services Department distributes survey. Surveys due back to Instructional Services Department by October 1st.</td>
</tr>
<tr>
<td>Month</td>
<td>Event</td>
<td>Responsible Parties</td>
</tr>
<tr>
<td>---------------</td>
<td>----------------------------------------------------------------------------------------------------------------------------------------</td>
<td>-------------------------------------------------------------------------------------</td>
</tr>
<tr>
<td>October</td>
<td>Information from surveys shared with administrators and teachers. Receipt of list of books recommended by state committees for state adoption. Review of the state bid list will occur in the absence of the state adoption list. District review of curriculum ongoing based on information from surveys and any new state requirements.</td>
<td>Instructional Services Department</td>
</tr>
<tr>
<td>November</td>
<td>Samples of all texts on the state-adopted lists are ordered for schools. <em>This will be modified as needed to align with the state's requirement that the samples be provided in digital format.</em> The exception will be when multiple non-core areas are up for adoption at the middle and high school levels. The schools will be requested to review the list and determine which books they need to see. Determination of the need for publisher presentations. Schools appoint teachers for District Committee and district solicits parent/community representatives.</td>
<td>Samples are ordered by the Instructional Services Department and shipped directly to schools.</td>
</tr>
<tr>
<td>December/Early January</td>
<td>Textbook samples arrive in schools by the first week in December. Textbook Managers and principals are responsible for contacting the Instructional Services Department if they fail to receive requested samples. Instructional Materials review committees meet.</td>
<td>Instructional Services Department, Textbook Managers, Principals</td>
</tr>
<tr>
<td>January</td>
<td>Ongoing review of texts in schools. Links to all samples available on the district website for public review. Public input portal active. Representatives from district review committees are given time to share information. Grade levels meet to reach consensus. Vertical teams meet to discuss strengths/weaknesses of texts across grade levels. Recommendation for adoption is finalized by the Instructional Materials Review Committees.</td>
<td>Textbook Managers, Principals Coordinated at the school level. School administrator collects all review sheets making sure that each grade level and/or department has clearly indicated a first and second choice. Review sheets and school compilation of votes is submitted to the Instructional Services Department.</td>
</tr>
<tr>
<td>February</td>
<td>Open Board Meeting for considering the materials to be adopted is advertised. Board Meeting held according to required timeline. Thirty-day period open for any contest to adoption. Materials and form for contest available online.</td>
<td>Instructional Services Department</td>
</tr>
<tr>
<td>March</td>
<td>Open public hearing to hear any submitted objections to the adoption. Adoption decision finalized. Anticipated number of new student books to be ordered for the upcoming school year due to the Instructional Services Department no later than March 30th. Report of anticipated number of books to be ordered due to state no later than April 1st.</td>
<td>Instructional Services Department/ School Board Principal or designee (Textbook Manager) District Curriculum Coordinator</td>
</tr>
<tr>
<td>April/May</td>
<td>Orders completed at schools. Transmitted to District Office no later than the end of the first week in May.</td>
<td>Principals/Textbook Managers</td>
</tr>
</tbody>
</table>
OBTAINING SPECIMEN (SAMPLE) BOOKS

During an adoption year the following process will be followed:

<table>
<thead>
<tr>
<th>Step 1:</th>
<th>The district coordinator will notify each school of the publisher and titles of books newly adopted by the State Board of Education.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Step 2:</td>
<td>Sample copies of newly adopted texts for core subjects will automatically be ordered by the district coordinator for direct shipment to schools. Samples should arrive in schools by early December. Online access to samples will be communicated.</td>
</tr>
<tr>
<td>Step 3:</td>
<td>Textbook Managers, in cooperation with school administrators, should assure that the samples are appropriately displayed and/or circulated so that all teachers have opportunity to review the texts. The sets should be kept intact throughout this process.</td>
</tr>
<tr>
<td>Step 4:</td>
<td>The District Curriculum Coordinator will inform the school if any samples must be returned to publishers.</td>
</tr>
<tr>
<td>Step 5:</td>
<td>After a text has been chosen by district teachers and approved by the School Board, the District Curriculum Coordinator will ask the schools to distribute samples as they wish.</td>
</tr>
</tbody>
</table>

A specimen set of selected materials should remain available at each school for review of parents and other interested citizens for the duration of the adoptive cycle. Specimen sets for books that are not part of uniform district adoptions for core subjects must be requested from the District Coordinator. They will not automatically be ordered. (Examples: technology, drama, music, etc.) The principal must call the District Curriculum Coordinator and request samples of these texts be sent to the school. The District Curriculum Coordinator will contact the publisher and request that the samples be shipped.

SELECTING NON-STATE ADOPTED INSTRUCTIONAL MATERIALS

Non-state adopted instructional materials may be recommended for purchase by staff members once an evaluation of such items has been completed. The district's evaluation process must still be followed. The school administrators will review the recommendation and if approved, a purchase order will be prepared. The purchase order will indicate the materials are not state adopted and will be processed normally.

SELECTION PROCEDURES FOR TRADE BOOKS TO BE USED FOR CLASS INSTRUCTION

Any TRADE BOOK used in classroom instruction (for which a class set is purchased) shall be reviewed according to whether it
- has positive educational merit;
- addresses a subject that is grade-level appropriate;
- is the appropriate reading level for the grade;
- is free of undue controversy or inappropriate content or language;
- has student appeal;
- is not included on any other grade level’s reading list.

When a teacher is made aware of a book and feels that the book would positively impact classroom instruction, the following steps should be followed for approval of the book.
Teacher suggests book to principal who arranges for an administrator or designee to read and review the book. ---Note: A form to facilitate this process is provided in the Appendix of this handbook (Form B).

- If the administrator finds the book to be appropriate, the teacher then arranges for at least one other grade-level teacher to read and review the book.
- If the reviewers agree that the book meets the criteria listed above, it can then be purchased for use in classroom instruction.

SCHOOL/TEACHER CONTACT WITH SALES REPRESENTATIVES

Contact with publishers' sales representatives should be coordinated through the district office. Especially during an adoption cycle, no sales representative should visit a school without prior notification from the District Curriculum Coordinator. If a sales representative fails to follow this directive the school administrator should contact the District Curriculum Coordinator of the violation.

All orders of materials should follow the process as outlined in this manual. No materials should be requested directly from sales representatives without the knowledge of the District Curriculum Coordinator.

It is imperative that the district monitor and control free and/or sample materials received directly from publishers. The district is required by state law to maintain a fair and equitable process that does not favor one publisher over another. Any trial or pilot of a material (book, software, etc.) prior to an adoption may be construed as giving an unfair advantage to a company. For this reason all such activity must be coordinated through the district office.

UNIFORM TEXTBOOK ADOPTIONS

The Wakulla County School District maintains uniform texts for the core subjects for grades K-5, 6-8 and 9-12. In addition, the district has uniform texts for Algebra I and Geometry for both middle and high school. Anytime the same subject/course is taught by multiple teachers a uniform text is used.

Uniform adoptions are district coordinated and monitored. Selections are made after thorough teacher examination and public review. At each school, teachers reach consensus by grade level and/or subject area, the Instructional Materials Review Committee reviews texts and teacher votes, and recommendation to the School Board is based on the consensus with heavy weight being given to teacher votes.
MANAGEMENT OF TEXTBOOKS AND INSTRUCTIONAL MATERIALS

State textbook funds will be budgeted in a district account and will be used on a need basis to supply each school with necessary textbooks. The Principal shall be responsible for the proper handling of textbooks. In the discharge of this responsibility the following shall be observed.

1) **The Principal** shall be responsible for an accurate and complete account of all district-owned textbooks. This includes textbooks purchased as part of a district adoption or any instructional material purchased through school or district funds. Monies collected for lost and damaged textbooks will be forwarded to the district office with the annual textbook inventory – due no later than June 30 of each year.

2) **The Principal** shall work with faculty to establish an expectation and procedural guidance for assuring that textbooks, including trade books and other instructional materials, are maintained appropriately and without undue loss.

3) **Each teacher** shall be responsible for seeing that the students take care of textbooks and shall collect and report to the Principal all monies collected for lost or damaged books.

4) There shall be collected from each student or his parent the purchase price of each book lost, destroyed, or unnecessarily damaged and such amount shall be transmitted to the Superintendent together with the student's name and address. If the textbook is destroyed, lost, or substantially damaged, the full purchase price of the lost textbook shall be collected from the student regardless of the age of the text. If a book is unnecessarily damaged but still usable, a $5.00 fine shall be charged to the student.

5) When a student has lost or damaged a library or textbook and failed to pay the assessed amount, the principal may direct the transfer of the permanent record even though the assessed amount has not been paid.

6) Under no conditions may a report card or progress report be delayed or may grades be withheld from the permanent record for failure to pay an assessment for destroyed, lost or damaged books or for any cause. (Rule 6A-1.955, SBER) However, the failure to collect such sum upon reasonable effort by the school principal may result in the suspension of the student from participation in extracurricular activities or the satisfaction of the debt by the student through community service activities at the school site as determined by the school principal, pursuant to policies adopted by district school board rule.

7) The responsibility for installing a new series of adopted textbooks rests with the principal after consultation with the Instructional Services Department. Careful planning and forethought shall precede the introduction of new textbooks. **ALL** instructional materials must be evaluated using an approved form prior to purchase. All evaluation forms must be forwarded to the district Instructional Services Department prior to ordering. Professional development on the use of new core materials will be provided.

8) All teachers are required to use current district-adopted textbooks as their main tool(s) of instruction. Other texts may be used as supplemental materials only.

9) It is the principal’s responsibility to effectively communicate to parents the manner in which instructional materials are used to implement the curriculum objectives of the school.

10) Each principal shall be responsible for cooperating with the district personnel to provide to the superintendent in a timely manner a plan for instructional materials use.

11) Each principal shall be familiar with the laws and policies as they relate to instructional materials.
SIGNIFICANT DEADLINES FOR PRINCIPALS AND TEXTBOOK MANAGERS

End of Preplanning: All textbooks distributed to teachers. Distribution is based on class size and teaching assignment(s).

End of August: School procedures for maintaining the textbook inventory communicated to teachers.

End of September: Communication with District Curriculum Coordinator concerning current adoption requirements.

Beginning of December: Assurance that all samples for current adoption have been distributed to the appropriate teachers in the school.

Beginning of January: Communication with teachers to remind of February deadline for votes in the current adoption.

February (deadline communicated annually): All votes for the current adoption due to the District Curriculum Coordinator.

March 30th: Projection of order for newly adopted books due to the District Curriculum Coordinator.

End of April: Decisions concerning ancillary materials and teacher needs for current adoption made.

End of First Week of May: Predated purchase order for newly adopted materials submitted to the District Curriculum Coordinator.

June 1st: Determine recycling needs and communicate these to the District Office (District Curriculum Coordinator).

June 30: Annual textbook inventory with accompanying check for collected textbook monies submitted District Curriculum Coordinator.

SALE OF TEXTBOOKS

1) Textbooks which are unused and in current adoption may be purchased by the public from the schools at the net wholesale price plus the cost of shipping from the Florida School Book Depository.

2) All money collected from the sale, exchange, loss, or damage of instructional materials shall be transmitted to the superintendent to be deposited and added to the district appropriation for instructional materials.

3) The following legend shall be stamped in each book which is sold: "This book has been sold by the Wakulla County School Board and the ownership label is no longer valid."

DISPOSING OF SURPLUS, OBSOLETE AND UNUSABLE TEXTBOOKS AND INSTRUCTIONAL MATERIALS

Instructional materials which become unserviceable or surplus or are no longer on state contract shall be disposed of as provided herein.
1) Usable surplus and obsolete instructional materials no longer under contract to the state shall be made available to other schools in the district prior to disposal. Any material which is not requested by another school in the district may be disposed of by:
   • giving or lending the materials to other public education programs within the district or state, to teachers to use in developing supplementary teaching materials, to students or others, or to any charitable organization, governmental agency, private school, or state.
   • selling the materials to used book dealers, recycling plants, pulp mills, or other persons, firms, or corporations upon such terms as are most economically advantageous to the district school board. Please note: The district Instructional Services Department coordinates an annual recycling pickup in June. Information concerning pickup dates and times is sent to school principals and textbook managers.
2) The district coordinates recycling of surplus textbooks each summer.
   • The school must communicate to the Instructional Services Department the ISBN number and quantity of all instructional materials to be recycled.
   • Books must be boxed with contents list on the outside of each box.
   • Boxes will be delivered to the District Office as communicated by the Instructional Materials Department for pick up by the recycling company.
3) Instructional materials that cannot be disposed of as provided in subsection (1) or (2) may be destroyed or discarded.
4) All monies received by reason of sale, exchange or other disposition of instructional materials shall be deposited into the appropriate district fund for instructional materials and then credited back to the school's instructional materials account.
5) State Board of Education Rules shall prevail whenever any provision of these rules conflict.

ALL SURPLUS MATERIAL MUST BE STAMPED “NO LONGER PROPERTY OF WAKULLA SCHOOL BOARD”. A stamp is located at each school for this purpose.

Fines and Fees for Lost and Damaged Books:
Each school shall maintain a current list of the replacement costs of all textbooks.

If a book is lost, the entire purchase price of the book shall be charged to the student for collection.

If an instructional material is damaged to the point of being rendered unusable, the entire purchase price of the book shall be charged to the student for collection.

If an instructional material is damaged but is still usable, a fine of $5.00 shall be charged to the student for collection. An example of this type of damage could be a book in which the student has marked on several pages with a marker or torn out a blank page. The book is damaged but still usable. The school will not determine different levels of fees for different damages.

Penalties for Failure to Pay for a Damaged or Lost Instructional Material:
The failure to collect such sum upon reasonable effort by the school principal may result in suspension of the student from participation in extracurricular activities or satisfaction of the debt by the student through community service activities at the school site as determined by the school Principal, pursuant to policies adopted by district school board rule.
DISTRICT PROCEDURES FOR ORDERING FROM THE DEPOSITORY

A. **SCHOOL PROCESS**

Requisition (ordering) forms are available at http://www.floridaschoolbook.com. At this website you may select the appropriate form for ordering instructional materials from the Florida School Book Depository. Once you have created an accurate list of materials attach the list to a valid purchase order and send to the District Curriculum Coordinator. **Please note at the bottom of the purchase order whether or not the materials are State Adopted.**

B. **DISTRICT PROCESS**

Upon receipt of the purchase order and requisition the District Curriculum Coordinator will recheck the figures, make a copy for the files and forward the information to the finance office for processing. Once the signature of the superintendent is obtained and the purchase order is given a number, the information will be returned to the District Curriculum Coordinator, who then will return the purchase order to the school to be mailed or faxed.

C. **SCHOOL PROCESS**

The school will mail or fax the processed purchase order and list to the depository. The school will receive the textbooks directly from the depository.

D. **ADDRESS**

Main Warehouse: Ships and receives material for Grades K – 8

   1125 N. Ellis Road
   Jacksonville, FL  32254

Secondary Warehouse: Ships and receives material for Grades 9 – 12

   350 Ellis Road
   Jacksonville, FL  32254

The packing ticket for each order will contain the name of the warehouse and the address from which your shipment originated.
DISTRICT PROCEDURES FOR RECEIVING MATERIALS FROM THE DEPOSITORY

A. District Process

The original invoice from the FSBD will be forwarded to designated school personnel at the receiving school from the District Curriculum Coordinator.

B. School Process

The designated school personnel upon receipt of the original invoice will notify the school textbook manager. Once ALL items have been received and accounted for:

- Indicate the material received on the invoice.
- Sign and date the invoice after ALL materials have been received and give to the designated school personnel.
- The designated personnel will sign the green receiving report (purchase order) and return to the District Curriculum Coordinator with the signed invoice. The school may keep a copy of the invoice for their records.
- **Note:** In the case of partial shipment from the School Book Depository, the district is able to make partial payment in order to avoid prolonged payment delay due to backorders. In the case of a partial shipment, attach the PO to the invoice and note on the invoice “Make Partial Payment”. Forward this to the Instructional Services Department.

C. District Process

The District Curriculum Coordinator will check the invoice and receiving report for agreement and will then send it to the finance office for payment.

RECEIVING MATERIALS FROM OTHER VENDORS

Once ALL materials are received on a purchase order, the school textbook manager signs and dates the invoice. The signed invoice is given to the school secretary for processing. The school secretary will sign off on the receiving report, attach the signed invoice and send to the finance office at the District Office.
CHECKING IN INSTRUCTIONAL MATERIALS

The following procedures should be followed when checking in your textbook order.

1) Unauthorized personnel should NOT sign for receipt of shipment.
2) Always check the number of cartons received against the number of cartons listed on the Bill of Lading. Further, check to make sure all cartons are stenciled/addressed to your school.
3) If there is a difference in the number of cartons being delivered against what is listed on the Bill of Lading Be Sure To:
   a) Sign the trucker’s copy as to the difference.
   b) Have the trucker sign your copy as to the difference.
4) The trucking firms will not normally deliver more cartons to you than are listed on the Bill of Lading.
5) If there is a delivery shortage, immediately notify the Depository so they can make corrections.
6) If your cartons are noticeably damaged refuse to sign the Bill of Lading noting the damage.
   a) If a quantity or title error is noted when checking the order, notify the Depository immediately giving:
      b) Depository invoice number, account number, and purchase order number.
      c) Any additional information to help identify errors noted.
7) DO NOT STAMP OR MARK ANY BOOK THAT MAY NEED TO BE RETURNED TO THE DEPOSITORY FOR CREDIT!

Summer Deliveries: Be sure to note the time/date you wish the shipment to arrive at the school.

RETURNING BOOKS TO THE DEPOSITORY

UNDAMAGED BOOKS BEING RETURNED FOR CREDIT:

Only unstamped and unused books may be returned to the depository for credit. NO ITEM MAY BE RETURNED WITHOUT PRIOR AUTHORIZATION from the depository! For authorization log onto www.fsbd.com and follow the directions under “Customer Service”.

Be prepared to provide the following information:

- Quantity, code number and title of item to be returned.
- Copy of the invoice, if possible, or the number and date of the invoice.

Only items that are unused, unstamped and in resalable condition will be accepted for credit.

The address for return shipments is located in the front of the Florida School Book Depository (FSBD) catalog.

DAMAGED BOOKS BEING RETURNED FOR CREDIT AND/OR REPLACEMENT:

Damaged books may be returned even if they have been stamped. Go to the FSBD website (www.fsbd.com). Look for “Customer Service”. Click on “Report Damaged Materials”. Complete information as requested. FSBD will arrange for the pickup of the materials. The extent of the damage to the materials will be evaluated by FSBD and reported to the publisher. Arrangements for replacement will be made at that time. Please copy the District Curriculum Coordinator on all correspondence.
PRINCIPAL’S ANNUAL TEXTBOOK INVENTORY

Each year, the principal is required to submit to the district office an inventory of textbooks. The inventory includes instructional materials purchased with textbook funds, whether or not they are on the state adopted list. In addition, the Report of Unserviceable and Surplus books should be attached. The form is available electronically upon request from the Instructional Services Department. The Annual Textbook Inventory should list all texts and instructional materials (see definition on page 1) used as a regular part of classroom instruction. The inventory should include those materials purchased with instructional materials money as well as instructional materials purchased through other projects.

At the beginning of May each year an updated Textbook Inventory Form (see explanation in Forms section of this handbook) will be forwarded to the school Textbook Manager and to the Principal.

The Textbook Manager, under the authority of the Principal, shall:

- coordinate the verification of the inventory numbers,
- note discarded titles,
- note purchased items,
- identify lost texts and the money collected.

The principal shall:

- review the textbook inventory,
- instruct staff to report textbook numbers to the Textbook Manager,
- review the final inventory with the Textbook Manager for accuracy,
- sign the textbook inventory,
- direct the bookkeeper to prepare a check for all textbook monies collected – this should match what is reported on the textbook inventory,
- forward the inventory with the attached check to the District Office no later than June 30th of each year.

RESPONSIBILITIES AND RIGHTS OF STUDENTS AND PARENTS

All instructional materials purchased under the provisions of this part are the property of the district school board. When distributed to the students, these instructional materials are on loan to the students while they are pursuing their courses of study and are to be returned at the direction of the school principal or the teacher in charge. Each parent of a student to whom or for whom instructional materials have been issued, is liable for any loss or destruction of, or unnecessary damage to, the instructional materials or for failure of the student to return the instructional materials when directed by the school principal or the teacher in charge, and shall pay for such loss, destruction, or unnecessary damage as provided under s. 1006.28(4).

A parent has the right to object to his or her child’s use of a specific instructional material. FS 1006.28(1)(a)2
- The parent must submit his/her objection to the teacher and school principal. The form to facilitate this is located in Appendix D and on the district website.
• The principal will ensure that the contested instructional material has been appropriately reviewed and approved prior to its use in the classroom.
• The principal will ensure that the teacher provides an alternate assignment that is equivalent but not punitive in nature.
• The completion and quality of the alternate assignment is the responsibility of the student, and the teacher will evaluate the assignment upon the same merits as the rest of the class is judged.
LIBRARY MEDIA MANAGEMENT PROCEDURES AND CONSIDERATIONS:

A. **Selection Guidelines:**
The primary objective of the school library media program is to implement, enrich, and support the educational program of the school. It is the duty of the media specialist to provide a wide range of materials on different levels of difficulty, with diversity of appeal, and representing different points of view. The inclusion of any item in a collection does not necessarily mean that the School Board or the school advocates or endorses the contents of that item. In fulfilling this responsibility each school library media specialist shall:

1. Provide an up-to-date (within 10 year) collection of instructional and supplemental materials that will enrich and support the curriculum, taking into account the varied interests, abilities, and maturity levels of the students being served.
2. Provide materials that will stimulate growth in factual knowledge, literary appreciation, aesthetic values, and ethical standards.
3. Provide a background of information which will enable students to make intelligent and informed judgments in their daily lives.
4. Provide materials from different points of view on controversial issues in order that young citizens may develop under guidance, the practice of critical analysis of all media.
5. Provide materials representative of the many religious, ethnic and cultural groups, and of their contribution to the heritage and culture of America and the world.
6. Place principle above personal opinion and reason above prejudice in the selection of materials and information resources of high quality in order to assure a comprehensive collection appropriate for the users of the library media center.

B. Care should be given to include input from all teachers and curriculum requirements when determining media collection needs for the school.

C. **Legal Responsibility for Selection** – The Wakulla County School Board is legally responsible for the operation of schools. The responsibility for the selection of school library media center materials is delegated by the Board to the professional school media specialists with approval for purchase by the principals. Final approval is required from the Superintendent of Public Instruction for Wakulla County. “Any instructional material containing pornography or otherwise prohibited by s. 847.012 may not be used or made available within any public school.” (FS 1006.34(2)(b)4)

*See School Board Policy 4.22 in Appendix B.*

**Purchasing Guidelines for School Media Specialists:**

A. **Fund Sources:**

   **District:** The district allocates funds for media purchases to each school based on the allocations in the state FEFP funding. The allocation of funds for media center use is a school-based decision with consideration of district curriculum requirements. Ideally, the media specialist should meet with the school
administrator prior to budgeting deadlines for each fiscal year, present media program needs, and help determine the allocation of the media program budget. Additional funds for the media program may be provided from a variety of sources, such as, school fundraisers, parent groups, special grants, one time allocations, etc.

B. Procedures: Since the purchasing procedures may vary from site to site, the media specialist should meet with the school principal and bookkeeper to become familiar with school procedures and expectations.

C. Guidelines:
- Compare prices to assure the best use of limited resources.
- Call the vendor to verify the current price, model numbers and to determine any additional costs (shipping, processing, etc.)
- If purchasing equipment, check on warranty availability and compatibility requirements. All technology equipment and software must be pre-approved through the district Technology Department and the Instructional Services Department to assure infrastructure and curricular compatibility.
- Check received shipments immediately, and notify the school bookkeeper of shipment status. Verify receipt of materials with the school bookkeeper to assure proper processing of invoices.
- Maintain a purchasing file containing necessary receipts and documentation and a running balance on the budget.
- Maintain a wish list of items to be purchased as funding becomes available. Teachers should have input into the wish list.

Weeding Guidelines:
The process of carefully weeding the collection in a school media center is an ongoing process intended to ensure a quality, current, and usable collection. The media specialist should enlist the aid of teachers in the various subject areas when deciding which media to withdraw.

A. Factors to Consider in Deciding to Withdraw Media
1. Physical Qualities – Media too badly worn to be repaired, books with extremely fine print, yellowed paper, and media with an overall unattractive appearance should be withdrawn.
2. Suitability of Subject Matter – Media that is either too mature or too juvenile for the students served by the collection should be removed and offered elsewhere.
3. Date Range – Factual media, particularly in the sciences and social sciences, which have outdated information or inaccurate information should be withdrawn. It is not the purpose of the school media center to collect outdated materials for historical preservation.
4. Reliability of Information – Media may be of recent date and still not be authentic. Checking the collection against standard lists and having teachers in special fields screen materials which are not on the lists will aid in detecting inferior titles.
5. Circulation of Media – Materials which remain inactive on the shelves for a period of time, tend to deteriorate physically almost as much as if they were used. Every effort should be made to circulate the material before weeding it from the collection.
6. **Availability** – It is not always desirable to withdraw worn materials which are out-of-print and no longer available. The curricular necessity for the material will help determine when to maintain older materials.

7. **Textbooks** – The media center is not a depository for textbooks. Old sets of readers, science books, etc., should be withdrawn unless they are of use for reference material. State textbooks furnished to the students should not be stored in the media center. The media specialist does not assume the responsibility of the Textbook Manager for distribution of instructional materials.

**B. Guidelines for Discard**

- Unused, inactive
- Out dated (recommended if 15 years or older, except for history books)
- Does not align with the curriculum
- Worn out
- Inaccurate, misleading
- Inappropriate for the school population

**C. Multiple guides for collection age limits exist. Examples include the following, which may be consulted when determining which materials should be weeded.**

1. [http://www.tsl.state.tx.us/ld/pubs/crew](http://www.tsl.state.tx.us/ld/pubs/crew)
2. Follett Titlewave’s Collection Management

**D. Weeding Follow-up**

Once materials have been identified for removal, they must be deaccessioned and physically removed from the collection.

1. Remove records from the computerized catalog and track as ‘weeded’.
2. Refer to page 12 of this handbook for guidelines regarding disposal of instructional materials. The same guidelines apply to media materials. Options include: directing them to teachers for classroom use; cannibalizing the materials for various instructional activities; giving them to students for individual use; recycling the materials.

**Copyright Guidelines:**

It is the ethical responsibility of all school employees to strictly adhere to copyright guidelines.

1. **Definition:** Copyright is protection given by law to authors of original works, regardless of format.
2. **Law:** Federal law makes it illegal to duplicate copyrighted materials by electronic or other means, in whole or in part, without the express authorization of the holder of the copyright, except for certain exempt purposes. With the amendments to the copyright law, all materials are protected by copyright from their inception unless specifically labeled as being in the public domain.
3. **Employee Responsibility:** While employees are encouraged to enrich the learning process by making proper use of supplementary materials, it is the responsibility of each employee to abide by the requirements of the copyright laws. In no circumstance shall it be necessary for employees to violate copyright requirements in order to perform their duties properly. The district cannot be responsible for violations of the copyright law by its employees. The district requires that all employees remain accountable in practice to the copyright laws.
4. **Penalties**: Severe penalties may be imposed for unauthorized copying or use of audio visual or printed materials and software, unless the copying or use conforms to the ‘fair use’ [http://www.copyright.gov/fls/fl102.html](http://www.copyright.gov/fls/fl102.html) doctrine. Willful infringement of the laws could result in legal and/or disciplinary action.

5. **Liability**: Liability may include fines and/or imprisonment.

6. **Help**: Any employee who is uncertain as to whether reproducing or using materials is permissible under the law should contact the school media specialist.

FAIR USE Guidelines:

One of the rights accorded to the owner of copyright is the right to reproduce or to authorize others to reproduce the work in copies or phonorecords. This right is subject to certain limitations found in sections 107 through 118 of the copyright law (title 17, U.S. Code). One of the more important limitations is the doctrine of “fair use.” The doctrine of fair use has developed through a substantial number of court decisions over the years and has been codified in section 107 of the copyright law.

Section 107 contains a list of the various purposes for which the reproduction of a particular work may be considered fair, such as criticism, comment, news reporting, teaching, scholarship, and research. Section 107 also sets out four factors to be considered in determining whether or not a particular use is fair.

- The purpose and character of the use, including whether such use is of commercial nature or is for nonprofit educational purposes
- The nature of the copyrighted work
- The amount and substantiality of the portion used in relation to the copyrighted work as a whole
- The effect of the use upon the potential market for, or value of, the copyrighted work

The distinction between what is fair use and what is infringement in a particular case will not always be clear or easily defined. There is no specific number of words, lines, or notes that may safely be taken without permission. Acknowledging the source of the copyrighted material does not substitute for obtaining permission.

The 1961 Report of the Register of Copyrights on the General Revision of the U.S. Copyright Law cites examples of activities that courts have regarded as fair use: “quotation of excerpts in a review or criticism for purposes of illustration or comment; quotation of short passages in a scholarly or technical work, for illustration or clarification of the author’s observations; use in a parody of some of the content of the work parodied; summary of an address or article, with brief quotations, in a news report; reproduction by a library of a portion of a work to replace part of a damaged copy; reproduction by a teacher or student of a small part of a work to illustrate a lesson; reproduction of a work in legislative or judicial proceedings or reports; incidental and fortuitous reproduction, in a newsreel or broadcast, of a work located in the scene of an event being reported.”

Copyright protects the particular way authors have expressed themselves. It does not extend to any ideas, systems, or factual information conveyed in a work.

The safest course is to get permission from the copyright owner before using copyrighted material. The Copyright Office cannot give this permission.
When it is impracticable to obtain permission, you should consider avoiding the use of copyrighted material unless you are confident that the doctrine of fair use would apply to the situation. The Copyright Office can neither determine whether a particular use may be considered fair nor advise on possible copyright violations. If there is any doubt, it is advisable to consult an attorney.

FL-102, Reviewed June 2012  U.S. Copyright Office  http://www.copyright.gov/fls/fl102.html

Note: The copying or use of videos for whole-group viewing is not allowed by copyright laws unless the video has been purchased for such viewing.

Fair use guidelines DO NOT preempt or supersede license agreements and contractual obligations.

All employees are required to err on the side of caution when in doubt about the use or copying of copyrighted materials.

1006.28 Duties of district school board, district school superintendent; and school principal regarding K-12 instructional materials.

(1) DISTRICT SCHOOL BOARD. The district school board has the constitutional duty and responsibility to select and provide adequate instructional materials for all students in accordance with the requirements of this part. The term “adequate instructional materials” means a sufficient number of student or site licenses or sets of materials that are available in bound, unbound, kit, or package form and may consist of hardbacked or softbacked textbooks, electronic content, consumables, learning laboratories, manipulatives, electronic media, and computer courseware or software that serve as the basis for instruction for each student in the core subject areas of mathematics, language arts, social studies, science, reading, and literature. The district school board has the following specific duties and responsibilities:

(a) Courses of study; adoption. Adopt courses of study, including instructional materials, for use in the schools of the district.
   1. Each district school board is responsible for the content of all instructional materials used in a classroom, whether adopted and purchased from the state-adopted instructional materials list, adopted and purchased through a district instructional materials program under s. 1006.283, or otherwise purchased or made available in the classroom.
   2. Each district school board must adopt a policy regarding a parent’s objection to his or her child’s use of a specific instructional material, which clearly describes a process to handle all objections and provides for resolution.
   3. Each district school board must establish a process by which the parent of a public school student may contest the district school board’s adoption of a specific instructional material. The parent must file a petition, on a form provided by the school board, within 30 calendar days after the adoption of the material by the school board. The school board must make the form available to the public and publish the form on the school district’s website. The form must be signed by the parent, include the required contact information, and state the objection to the instructional material. Within 30 days after the 30-day period has expired, the school board must conduct at least one open public hearing on all petitions timely received and provide the petitioner written notification of the date and time of the hearing at least 7 days before the hearing. All instructional materials contested must be made accessible online to the public at least 7 days before a public hearing. The school board’s decision after convening a hearing is final and not subject to further petition or review.

(b) Instructional materials. Provide for proper requisitioning, distribution, accounting, storage, care, and use of all instructional materials and furnish such other instructional materials as may be needed. Instructional materials used must be consistent with the district goals and objectives and the course descriptions established in rule of the State Board of Education, as well as with the applicable Next Generation Sunshine State Standards provided for in s. 1003.41.

(c) Other instructional materials. Provide such other teaching accessories and aids as are needed for the school district’s educational program.

(d) School library media services; establishment and maintenance. Establish and maintain a program of school library media services for all public schools in the district, including school library media centers, or school library media centers open to the public, and, in addition such traveling or circulating libraries as may be needed for the proper operation of the district school system.

(2) DISTRICT SCHOOL SUPERINTENDENT.

(a) The district school superintendent has the duty to recommend such plans for improving, providing, distributing, accounting for, and caring for instructional materials and other instructional aids as will result in general improvement of the district school system, as prescribed in this part, in accordance with
adopted district school board rules prescribing the duties and responsibilities of the district school superintendent regarding the requisition, purchase, receipt, storage, distribution, use, conservation, records, and reports of, and management practices and property accountability concerning, instructional materials, and providing for an evaluation of any instructional materials to be requisitioned that have not been used previously in the district’s schools. The district school superintendent must keep adequate records and accounts for all financial transactions for funds collected pursuant to subsection (3).

(b) Each district school superintendent shall notify the department by April 1 of each year the state-adopted instructional materials that will be requisitioned for use in his or her school district. The notification shall include a district school board plan for instructional materials use to assist in determining if adequate instructional materials have been requisitioned.

(3) SCHOOL PRINCIPAL. The school principal has the following duties for the management and care of instructional materials at the school:

(a) Proper use of instructional materials. The principal shall assure that instructional materials are used to provide instruction to students enrolled at the grade level or levels for which the materials are designed, pursuant to adopted district school board rule. The school principal shall communicate to parents the manner in which instructional materials are used to implement the curricular objectives of the school.

(b) Money collected for lost or damaged instructional materials; enforcement. The school principal shall collect from each student or the student’s parent the purchase price of any instructional material the student has lost, destroyed, or unnecessarily damaged and to report and transmit the money collected to the district school superintendent. The failure to collect such sum upon reasonable effort by the school principal may result in the suspension of the student from participation in extracurricular activities or satisfaction of the debt by the student through community service activities at the school site as determined by the school principal, pursuant to policies adopted by district school board rule.

(c) Sale of instructional materials. The school principal, upon request of the parent of a student in the school, shall sell to the parent any instructional materials used in the school. All such sales shall be made pursuant to rule adopted by the district school board, and the principal shall annually provide information to parents that they may purchase instructional materials and how to purchase the materials.

(d) Disposition of funds. All money collected from the sale, exchange, loss, or damage of instructional materials shall be transmitted to the district school superintendent to be deposited in the district school board fund and added to the district appropriation for instructional materials.

(e) Accounting for instructional materials. Principals shall see that all instructional materials are fully and properly accounted for as prescribed by adopted rules of the district school board.

Note. Section 6, ch. 2014-15, provides that “[t]his act does not limit or remove the responsibility of each school district to include in its curriculum the required instruction specified in s. 1003.42, Florida Statutes, including, but not limited to, the following: the history of the United States; the history of the Holocaust; the history of African Americans; the study of Hispanic contributions to the United States; the study of women’s contributions to the United States; the nature and importance of free enterprise to the United States economy; patriotism; the events surrounding the terrorist attacks occurring on September 11, 2001, and the impact of those events on the nation; the elementary principles of agriculture; and kindness to animals.”

1006.32 Prohibited acts.

(1) A publisher or manufacturer of instructional material, or any representative thereof, may not offer to give any emolument, money, or other valuable thing, or any inducement, to any district school board
official or state instructional materials reviewer to directly or indirectly introduce, recommend, vote for, or otherwise influence the adoption or purchase of any instructional materials.

(2) A district school board official or a state instructional materials reviewer may not solicit or accept any emolument, money, or other valuable thing, or any inducement, to directly or indirectly introduce, recommend, vote for, or otherwise influence the adoption or purchase of any instructional material.

(3) A district school board or publisher may not participate in a pilot program of materials being considered for adoption during the 18-month period before the official adoption of the materials by the commissioner. Any pilot program during the first 2 years of the adoption period must have the prior approval of the commissioner.

(4) Any publisher or manufacturer of instructional materials or representative thereof or any district school board official or state instructional materials reviewer who violates any provision of this section commits a misdemeanor of the second degree, punishable as provided in s. 775.082 or s. 775.083. Any representative of a publisher or manufacturer who violates any provision of this section, in addition to any other penalty, shall be banned from practicing business in the state for a period of 1 calendar year.

(5) This section does not prohibit any publisher, manufacturer, or agent from supplying, for purposes of examination, necessary sample copies of instructional materials to any district school board official or state instructional materials reviewer.

(6) This section does not prohibit a district school board official or state instructional materials reviewer from receiving sample copies of instructional materials.

(7) This section does not prohibit or restrict a district school board official from receiving royalties or other compensation, other than compensation paid to him or her as commission for negotiating sales to district school boards, from the publisher or manufacturer of instructional materials written, designed, or prepared by such district school board official, and adopted by the commissioner or purchased by any district school board. No district school board official shall be allowed to receive royalties on any materials not on the state-adopted list purchased for use by his or her district school board.

(8) A district school superintendent, district school board member, teacher, or other person officially connected with the government or direction of public schools may not receive during the months actually engaged in performing duties under his or her contract any private fee, gratuity, donation, or compensation, in any manner whatsoever, for promoting the sale or exchange of any instructional material, map, or chart in any public school, or be an agent for the sale or the publisher of any instructional material or reference work, or have a direct or indirect pecuniary interest in the introduction of any such instructional material, and any such agency or interest shall disqualify any person so acting or interested from holding any district school board employment whatsoever, and the person commits a misdemeanor of the second degree, punishable as provided in s. 775.082 or s. 775.083; however, this subsection does not prevent the adoption of any instructional material written in whole or in part by a Florida author.

1006.35 Accuracy of instructional materials.

(1) In addition to relying on statements of publishers or manufacturers of instructional materials, the commissioner may conduct or cause to be conducted an independent investigation to determine the accuracy of state-adopted instructional materials.

(2) When errors in state-adopted materials are confirmed, the publisher of the materials shall provide to each district school board that has purchased the materials the corrections in a format approved by the department.

(3) The commissioner may remove materials from the list of state-adopted materials if he or she finds that the content is in error and the publisher refuses to correct the error when notified by the department.

(4) The commissioner may remove materials from the list of state-adopted materials at the request of the publisher if, in his or her opinion, there is no material impact on the state’s education goals.
1006.36 Term of adoption for instructional materials.
(1) The term of adoption of any instructional materials must be a 5-year period beginning on April 1 following the adoption, except that the commissioner may approve terms of adoption of less than 5 years for materials in content areas which require more frequent revision. Any contract for instructional materials may be extended as prescribed in s. 1006.34(3).
(2) The department shall publish annually an official schedule of subject areas to be called for adoption for each of the succeeding 2 years, and a tentative schedule for years 3, 4, and 5. If extenuating circumstances warrant, the commissioner may add one or more subject areas to the official schedule, in which event the commissioner shall develop criteria for such additional subject area or areas and make them available to publishers as soon as practicable before the date on which bids are due. The schedule shall be developed so as to promote balance among the subject areas so that the required expenditure for new instructional materials is approximately the same each year in order to maintain curricular consistency.
History. s. 311, ch. 2002-387; s. 28, ch. 2011-55.

1006.37 Requisition of instructional materials from publisher’s depository.
(1) The district school superintendent shall requisition adopted instructional materials from the depository of the publisher with whom a contract has been made. However, the superintendent shall requisition current instructional materials to provide each student with a textbook or other materials as a major tool of instruction in core courses of the subject areas specified in s. 1006.40(2). These materials must be requisitioned within the first 3 years of the adoption cycle, except for instructional materials related to growth of student membership or instructional materials maintenance needs. The superintendent may requisition instructional materials in the core subject areas specified in s. 1006.40(2) that are related to growth of student membership or instructional materials maintenance needs during the 3rd, 4th, 5th, and 6th years of the original contract period.
(2) The district school superintendent shall verify that the requisition is complete and accurate and order the depository to forward to him or her the adopted instructional materials shown by the requisition. The depository shall prepare an invoice of the materials shipped, including shipping charges, and mail it to the superintendent to whom the shipment is being made. The superintendent shall pay the depository within 60 days after receipt of the requisitioned materials from the appropriation for the purchase of adopted instructional materials.
(3) A district school board or a consortium of school districts which implements an instructional materials program pursuant to s. 1006.283 is not required to requisition instructional materials from the publisher’s depository.
History. s. 312, ch. 2002-387; s. 4, ch. 2013-237.

1006.40 Use of instructional materials allocation; instructional materials, library books, and reference books; repair of books.
(1) On or before July 1 each year, the commissioner shall certify to each district school superintendent the estimated allocation of state funds for instructional materials, computed pursuant to the provisions of s. 1011.67 for the ensuing fiscal year.
(2) Each district school board must purchase current instructional materials to provide each student in kindergarten through grade 12 with a major tool of instruction in core courses of the subject areas of mathematics, language arts, science, social studies, reading, and literature. Such purchase must be made within the first 3 years after the effective date of the adoption cycle unless a district school board or a
consortium of school districts has implemented an instructional materials program pursuant to s. 1006.283.

(3)(a) Except for a school district or a consortium of school districts that implements an instructional materials program pursuant to s. 1006.283, each district school board shall use the annual allocation only for the purchase of instructional materials that align with state standards and are included on the state-adopted list, except as otherwise authorized in paragraphs (b) and (c).

(b) Up to 50 percent of the annual allocation may be used for:
1. The purchase of library and reference books and nonprint materials.
2. The purchase of other materials having intellectual content which assist in the instruction of a subject or course. These materials may be available in bound, unbound, kit, or package form and may consist of hardbacked or softbacked textbooks, novels, electronic content, consumables, learning laboratories, manipulatives, electronic media, computer courseware or software, and other commonly accepted instructional tools as prescribed by district school board rule.
3. The repair and renovation of textbooks and library books and replacements for items which were part of previously purchased instructional materials.

(c) District school boards may use 100 percent of that portion of the annual allocation designated for the purchase of instructional materials for kindergarten, and 75 percent of that portion of the annual allocation designated for the purchase of instructional materials for first grade, to purchase materials not on the state-adopted list.

(d) Any materials purchased pursuant to this section must be:
1. Free of pornography and material prohibited under s. 847.012.
2. Suited to student needs and their ability to comprehend the material presented.
3. Appropriate for the grade level and age group for which the materials are used or made available.

(4) Each district school board is responsible for the content of all materials used in a classroom or otherwise made available to students. Each district school board shall adopt rules, and each district school superintendent shall implement procedures, that:

(a) Maximize student use of the district-approved instructional materials.
(b) Provide a process for public review of, public comment on, and the adoption of instructional materials that satisfies the requirements of s. 1006.283(2)(b)8., 9., and 11.

(5) District school boards may issue purchase orders subsequent to February 1 in an aggregate amount which does not exceed 20 percent of the current year’s allocation, and subsequent to April 1 in an aggregate amount which does not exceed 90 percent of the current year’s allocation, for the purpose of expediting the delivery of instructional materials which are to be paid for from the ensuing year’s allocation. This subsection does not apply to a district school board or a consortium of school districts that implements an instructional materials program pursuant to s. 1006.283.

(6) In any year in which the total instructional materials allocation for a school district has not been expended or obligated prior to June 30, the district school board shall carry forward the unobligated amount and shall add it to the next year’s allocation.

(7) A district school board or a consortium of school districts that implements an instructional materials program pursuant to s. 1006.283 may use the annual allocation to purchase instructional materials not on the state-adopted list. However, instructional materials purchased pursuant to this section which are not included on the state-adopted list must meet the criteria of s. 1006.31(2), align with state standards adopted by the State Board of Education pursuant to s. 1003.41, and be consistent with course expectations based on the district’s comprehensive plan for student progression and course descriptions adopted in state board rule.

1006.41 Disposal of instructional materials.

(1) Instructional materials that have become unserviceable or surplus or are no longer on state contract may be disposed of, under adopted rule of the district school board, by:

(a) Giving or lending the materials to other public education programs within the district or state, to the teachers to use in developing supplementary teaching materials, to students or others, or to any charitable organization, governmental agency, home education students, private school, or state.

(b) Selling the materials to used book dealers, recycling plants, pulp mills, or other persons, firms, or corporations upon such terms as are most economically advantageous to the district school board.

(2) The district school board may prescribe by rule the manner for destroying instructional materials that cannot be disposed of as provided in subsection (1).

(3) All moneys received for the sale, exchange, or other disposition of instructional materials shall be deposited in the district school fund and added to the district appropriation for instructional materials.

(4) Instructional materials which have been sold, exchanged, lost, destroyed, or damaged and for which proper charges have been assessed and collected, and instructional materials which have been destroyed by fire or storm damage or by order of a competent health officer or the district school superintendent, shall be dropped from the record of instructional materials for which, as provided by law, district school boards are held responsible.

History. s. 316, ch. 2002-387.

1006.42 Responsibility of students and parents for instructional materials. All instructional materials purchased under the provisions of this part are the property of the district school board. When distributed to the students, these instructional materials are on loan to the students while they are pursuing their courses of study and are to be returned at the direction of the school principal or the teacher in charge. Each parent of a student to whom or for whom instructional materials have been issued, is liable for any loss or destruction of, or unnecessary damage to, the instructional materials or for failure of the student to return the instructional materials when directed by the school principal or the teacher in charge, and shall pay for such loss, destruction, or unnecessary damage as provided under s. 1006.28(4).

History. s. 317, ch. 2002-387; s. 64, ch. 2014-39; s. 6, ch. 2017-177.
Appendix B – Related School Board Policies

Additional policies will be added pending revision based on changes in legislation.

4.30 Challenged Materials

The following procedures shall be followed when the appropriateness of books or materials is questioned:

School-community citizens may register their concerns with the principal of the school where material is being challenged.

All concerns shall be presented in writing on a printed form that is available in each school office or the Superintendent’s office. A complainant who does not complete and return the form shall receive no consideration. The statement shall include the following information:

- Author, compiler, or editor;
- Publisher;
- Title;
- Reason for objection;
- Page number of each item challenged; and,
- Signature, address and telephone number of person making criticism.

These procedures shall be followed for school level appeals:

A committee of teachers, educational media specialists, and other qualified personnel shall be appointed by the principal to evaluate the challenged materials and to make recommendations of any changes. The principal shall notify the Superintendent and the instructional materials coordinator when a committee is convened.

Challenged materials shall not be removed immediately; however, such materials shall not be available for student use pending a final decision.

Challenged materials shall be read and re-evaluated by the committee, considering the specific objections raised. The committee shall report its decision within fifteen (15) working days.

The complainant shall be informed in writing concerning the committee’s recommendations.

These procedures shall be appropriate for District level appeals and shall be followed when the complainant disagrees with the decision rendered from the school-level appeal. A committee shall be appointed by the Superintendent to review the appeal. The Superintendent shall designate the instructional materials coordinator as being responsible for the organization of this review committee according to School board policies. The committee’s recommendations shall be submitted to the Superintendent within fifteen (15) working days. A committee member shall not be selected from the school where the challenged materials originated.

The following shall serve as a review committee for elementary schools:

- The chairperson of the School Advisory Council or designee;
- Elementary Media Specialist;
Elementary Principal;
A Curriculum Supervisor;
Three (3) instructional staff members at the elementary level; and
Two (2) parents of elementary age students.

The following shall serve as a review committee for secondary schools:

The chairperson of the School Advisory Council or designee;
Secondary Media Specialist;
Secondary Principal;
A Curriculum Supervisor;
Three (3) instructional staff members at the Secondary level; and
Two (2) parents of secondary age students.

The committee’s review shall be treated objectively, unemotionally, and in business-like manner and shall be conducted in the best interests of the student, the school, and the community. Efforts shall be made to meet with citizens who register concerns to consider their objections.

The complainant shall be informed, in writing, in fifteen (15) working days after the committee’s recommendation is received by the Superintendent.

A School Board appeal may be requested by the complainant when the school and district-level appeals do not satisfactorily resolve the concerns. The School Board shall review recommendations from the school and district-level committees and shall render the final decision on the complainant’s concern.

PARENT REQUEST FOR ALTERNATE ASSIGNMENT

Directions for Use:

Parent submits this form to the student’s teacher as soon as the objection arises.
Teacher shares form with principal and determines an alternate assignment that is equivalent to the original assignment. Principal approves assignment.
A copy of the completed form is provided to the parent and principal. The teacher maintains the original.
The completion and quality of the alternate assignment is the responsibility of the student, and the teacher will evaluate the assignment upon the same merits as the rest of the class is judged.

Resolution:

Instructional Material Adoption ☐Approved ☐Disapproved ☐More Information Required Prior to Decision

Recorded in School Board Minutes from ____________________________

Date
Each year, the principal is required to submit to the district office an inventory of textbooks. The inventory includes instructional materials purchased with textbook funds, whether or not they are on the state adopted list. In addition, the Report of Unserviceable and Surplus books should be attached. The form is available on disk upon request from the Instructional Services Office. The Annual Textbook Inventory should list all texts and instructional materials (see definition on page 2) used as a regular part of classroom instruction. The inventory should include those materials purchased with instructional materials money as well as instructional materials purchased through other projects.

The Annual Instructional Materials Inventory Form was developed to assist school personnel in the preparation of this inventory. The form consists of five (5) major areas: General Information, Identification, Receipts, Distribution During Year, and Fines. Specific information required within these areas is identified below.

**GENERAL INFORMATION**

- **School**: enter name
- **Date**: enter date form is submitted
- **Principal’s signature**: signature required on each page
- **Page number**: state page number on the total pages attached

**IDENTIFICATION** This section has been completed on books reported at the end of the previous year. For all new materials you must use blank copies of the form and complete this area and the remaining areas.

**RECEIPTS**

- **On Hand, July 1**: This column should show the number of copies which were on hand on July 1 or the beginning of this fiscal year. These books include those which you reported as having “on hand” on last year’s inventory. The Instructional Services Office automatically fills in this information based on what was supplied at the end of the last fiscal year. If it is missing it is the school’s responsibility to fill it in.

- **Found**: This column should indicate the number of books which were not counted last year, but have since been found and added back into inventory.

- **Received**: This column should show the number of additional copies which have been acquired since July 1. These are materials which have been purchased during the most recent school year or fiscal year.

- **Grand Total**: This column should be the total number of books which were available for use during the year. This is a total of those copies reported as “on hand July 1” plus those which were “found” plus those which were “received”. Please check your addition. This indicates the number you must account for. This column grand total and the grand total at the end should be equal.
**DISTRIBUTION DURING YEAR** – This portion indicates what has happened with total receipts.

**Recycled/Disposed of**
These are books which you disposed of through the policy of “Disposal of Instructional Materials”. If you plan to discard any books prior to July 1, please indicate the number here. If you sold any of these books to surplus, put the number of books sold here. If you collected money for this the amount should be recorded in the Amount Collected column.

**Consumed**
These are the number of copies which have been consumed. Generally, these are workbooks.

**Paid For**
These are books which were damaged beyond re-use or lost, and for which some fees were collected. Report the monies collected in the “Amount Collected” column.

**Charged/No Pay**
These are books which were lost or damaged by students and for which students were charged but failed to pay.

**No Record**
This number represents the number of copies for which you can find no record. (You simply do not know what happened to these materials.) If large quantities appear in this column, your counting or control procedures should be questioned. However, on occasion, books are misplaced and overlooked when a count is made. Usually books accounted for in this column will show up on next year’s inventory in the column “Found”.

**Usable On Hand**
These are books which are available and are usable for another year. The majority of your books should be in this category.

**Grand Total**
The number of copies listed here should be the sum of those listed in all the other columns under “Distribution During the Year” except “Total on Hand”. This number should be equal to the “Grand Total” from the section on receipts. If not, please go back and recheck your counting.

**Amount Collected**
Report the amount collected. This column must include and dollars collected as a result of fines or surplus sale. It is the duty of the principal to collect from each pupil or his parent the purchase price of instructional materials the pupil has lost, destroyed, or unnecessarily damaged and to report and transmit such amounts to the Superintendent. A check totaling the amount collected should accompany the inventory. This amount will be added to your textbook allocation for the following year.

*The form will be transmitted electronically to the Principal and to the School Textbook Manager.*
