

CLIENT CASE STUDIES & LOOK BOOK

A BIT ABOUT US...

ST Stoneworks was founded by husband and wife Steve and Tina in 2014. After moving from London to settle in peaceful Suffolk, they launched their first factory and have since built a business that prides itself on delivering some of the UK's finest stonework projects. Leaving school at 14, Steve ventured straight into the world of marble and granite, landing a job with one of London's most established stone companies, where he was expertly trained by some of Italy's most renowned artisan stone masons. From that point, Steve's one and only goal was owning his own factory and creating a UK leading stone company.

Steve and Tina are a dynamic couple with a singular goal to deliver excellent results for their clients on every project. Thus, the company, ST Stoneworks, is named for its creators, who proudly put their name to every project they undertake.

HOTEL CLIENTS

PILGRIM HOTEL

PADDINGTON

No of rooms. 73

We undertook the tiling and stone works packages in the bathrooms and public areas, removed the old original fireplace and restored in our factory before re-installing it.

ANDAZ HOTEL

LIVERPOOL STREET LONDON

No. of rooms 267 and main reception.

We surveyed, manufactured, installed the Caesarstone minibars and had a special individual print made for each floor to tell the story of the History of the building and surrounding area. We also undertook the tiling of all bathrooms as well as manufacturing, printing and installing the stonework to the niches and thresholds throughout the building.

MATERIAL USED

Caesarstone raw concrete (printed). Nero Assoluto granite, Nero Marquina marble, metro tiles and porcelain floor tiles. Reception: brick slips, hand made tiles and black granite to tops throughout.

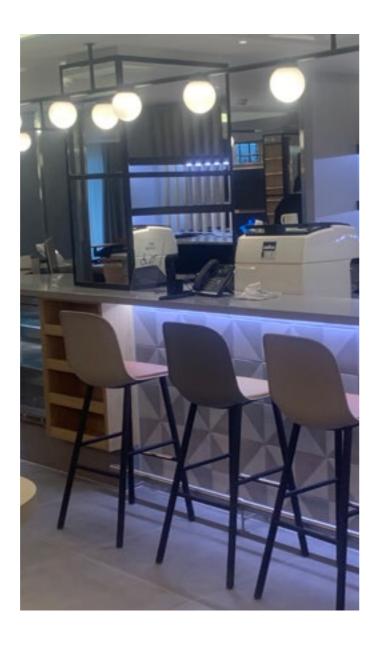

HAMPTON BY HILTON

PARK ROYAL

We templated, manufactured and installed the bar and reception area, hot and cold buffet areas and cereal bars.

MATERIAL USED

20mm/30mm Silestone Kensho with a 20x20 v groove edge detail.

BARS & RESTAURANTS PROJECTS

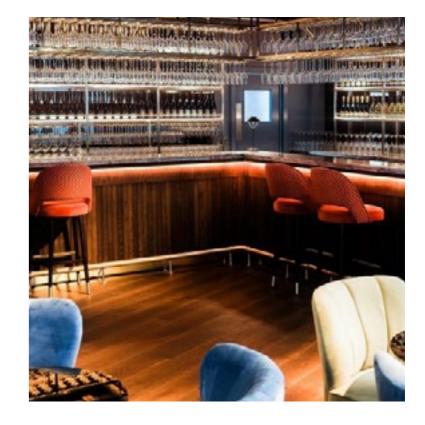

PROSECCO HOUSE

TOWER BRIDGE, LONDON

After visiting a few stone importers with the owner of the bar, we found the perfect stone for her project. We tiled the w/c with green hand made tiles and finished with brass trims, whilst the floor was laid in Carrara marble mosaics. Kashmir Lime granite was fitted to the bar and back bar with a 20x20 edge detail.

MATERIAL USED

Green hand made tiles, Carrara marble mosaic, 20mm Cashmere Lime granite.

COTE BRASSERIE

OLD JEWRY, BANK, LONDON

The old window facing on to the street was cut out and a new entrance with steps to the restaurant was created using materials sourced to match the original, including Portland stone and Baltic Brown granite. Inside we used a variety of finishes including handcrafted and painted floor tiles, Carrara marble tiles and handmade crackle glazed tiles.

MATERIAL USED

Handmade tiles, Baltic Brown granite, Portland stone, Carrara marble, brick slips.

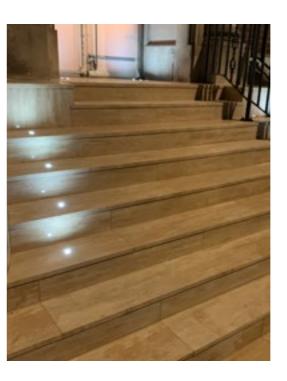

GORDON RAMSAY LUCKY CAT

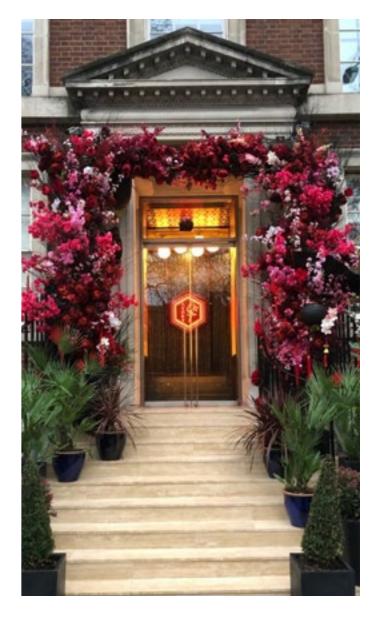

GROSVENER SQUARE

Following our survey, the old stone steps were removed and new steps created, crafted from Travertino Classico, a material particularly suited to both interior and exterior flooring.

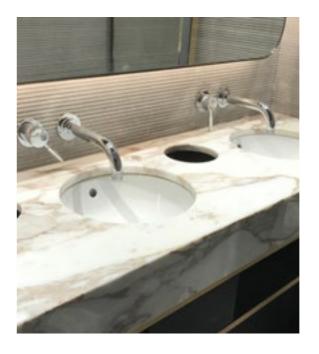

MATERIAL USED

Travertino Classico

ROYAL CHINA

BAKER STREET LONDON

The main bar, back bar and waiter stations were envisioned in striking Sahara Noir marble and created with a 150mm vein-matched mitred front edge detail. We used Calacatta Oro marble vanity tops throughout the male and female w/c's whilst the front elevation of the restaurant was completely restored including cladding the columns with Belgian Blue limestone.

MATERIAL USED

Travertino Classico, Sahara Noir marble, Calacatta Oro marble, Belgian Blue limestone.

KITCHEN PROJECTS

St Stone works with all size developers and have completed projects ranging from 5 -10 units all the way up to 350 units. We are extremely competitive and offer a great service which keeps our developers coming back to us for future sites. Please contact us for contract kitchen pricing for a future development.
