- Skin Peeling and Polishing

## About Formatk

Formatk is a global producer of medical aesthetic devices based on Laser, IPL, RF, Ultrasound and Diamond Peeling Technologies. The company core R&D department gathers numerous experts in various fields of research, in modern state of the art laboratories. The large production facilities can answer an on growing global market demand for our Systems. All Formatk procedures are based on clinical research and Systems incorporate ISO and CE Medical certification. While constantly focused at latest clinical research

we are fast and responsive to innovate and adopt the new technology to bring to the market. Our superior quality and minimum to no maintenance on our systems make them outlast their time. This genuine technology and Innovation, combined with our word known quality, guarantee enhanced treatment results and ongoing trust in our Brand. Our worldwide Distribution network offers constant product support, superior service, and training for our customers.

### IPL APPLICATORS

#### 3 DIFFERENT TIP SIZES

- 1.6 cm<sup>2</sup>
- 3 cm<sup>2</sup>
- 6.5 cm<sup>2</sup>

#### 3 DIFFERENT OPERATION MODES

Single, Double and Continuous

#### 4 DIFFERENT WAVELENGTHS

430nm, 530nm, 600nm, 650nm

#### 7 DIFFERENT IPL APPLICATORS TO CHOOSE FROM

HR, B-HR, F-HR, SR, B-SR, F-SR, F-AC

### IPL applicators

- \* Hair Removal
- \* Skin Rejuvenation
- \* Pigmented Lesions
- \* Acne

### R-Sonic

Dual operational Mode through continuous mode Bipolar RF treatment and Sonic ultrasound mode. Treatments of wrinkles, flaccid skin, post acne and noninvasive mesotherapy.
