CLASSIC COLLECTION

The elegance of the past with modern peace of mind

ENDURANCE®

Solid & Secure Composite Doors

Etna & Monte Rosa

Colour Collections

All the doors in the Classic Collection are available in a diverse range of colours, allowing you to compliment the character of your home in both style and finish. Swatches marked with a **yellow tag** are available with a matching frame to complete the look. Those marked with a **grey tag** are fitted with a white frame to contrast the door and highlight the colour.

Secured by Design

Police Preferred Specification

Secured By Design is the official UK Police flagship initiative supporting the principles of 'designing out crime'. Just because your home has a traditional aesthetic, it doesn't mean you should have to comprimise on security.

The Endurance® door range has been designed and tested to achieve the standard.

The Secured By Design standard upgrade includes - Avocet ATK high security cylinder and laminated glass.

In order to comply with Secured By Design, the Endurance® door must be tested to PAS 24 2012 Enhanced Security Testing Standard produced by BSI.

The standard involves the following tests:

- A manual attack on the locking hardware with tools including a crow bar and mole grips.
- Unlimited number of 3 minute attacks on the door cylinder using a range of tools such as craft knives and screw drivers. 3 minute manual attack using chisels and brick bolsters to gain entry through the door.
- Hard body impact test – impacts are applied to the door leaf at hinge points and locking points using a 50kg steel impactor.
