

The Macro® 330 ShuttleBin is fully vented and designed for quick and easy set-up and knock down, making the ShuttleBin ideal for retail displays. Made from FDA-approved, premium, injection molded plastic, the ShuttleBin is certified safe for food products and because it has nonporous smooth surfaces it keeps sanitizing time and costs to a minimum. The ShuttleBins positive interlocking foot design allows for secure stacking. The ShuttleBin's base provides pallet jack and 4-way forklift access for safe, easy handling. White color. 100% recyclable.

Part #: 330 ShuttleBin

Special Features

FDA Approval

This container is FDA approved for the handling and processing of agricultural and food products.

Zipper Latch System

Zipper latch system locks folding walls securely and ensures fast set-up and knock-down for increased productivity.

Ventilated Construction

Hundreds ventilation holes enhance airflow to maximize cooling and maintain freshness.

RPP Containers® warrants its containers for proper fit, form and function for a period of one year from date of shipment by RPP Containers. If within such period a container is proven to be defective in functionality from manufacturing defects, such product shall be repaired or replaced. This warranty does not include damage due to normal material handling methods (i.e., forklift damage etc.). Customer is responsible for all freight charges.
