

Tell us about your dog.

Here at Yours In Paws, we take into consideration that your dogs first time at our fun house may be a little overwhelming due to the new environment, smells, sounds, people and other dogs. We take extra special care and time to introduce your furry friend in an encouraging yet relaxed manner.

To help us ensure the introduction goes as smooth as possible, we just have a few questions.

Your dogs name_____

What are your dogs favorite activities? (E.g. retrieval games, agility, swimming, digging)

Does your dog have any behavioral issues? (E.g. aggression, barking, fear of humans/dogs/loud noises)

Does your dog act in an assertive or submissive way when approached by other dogs?

Does your dog have any health issues? (E.g. epilepsy, heart condition, post- surgery, post illness, sensitive tummy, anxiety)

Will your dog share toys or bedding areas?

Does your dog understand specific requests like sit, stay, come here?
If so what are the main words you use?

Do you have any specific training challenges you would like to speak to us about?
