

JYP01

With a range of multi play units that cater for ages 3-16 years, we are confident we can supply a multiplay unit that fulfils the needs of any play area.

Our JYP range is intended for ages 3-8 years.

Whilst ages 6-16 are catered for with our larger SYP range.

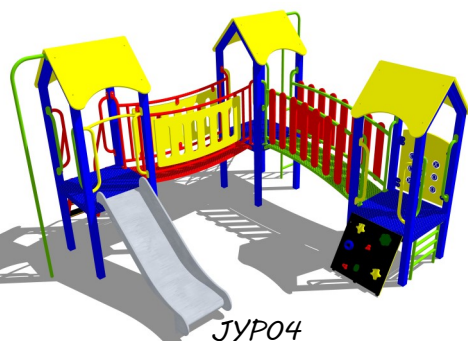

JYP03

All multi-play units are made to withstand years of use (and abuse) even in the most vandalised areas. Manufactured from powder coated steel, and assembled using tamper proof stainless steel fixings.

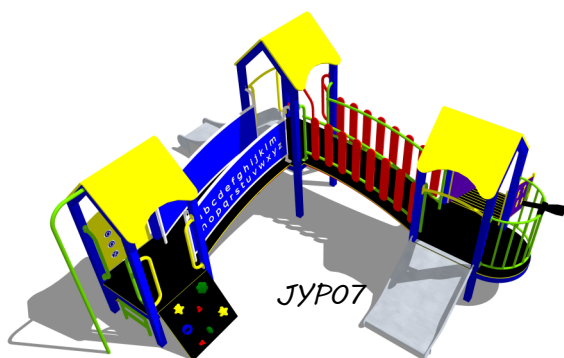

Polyethylene is used for the roofs, step treads, climbing ramps and infill/play panels.

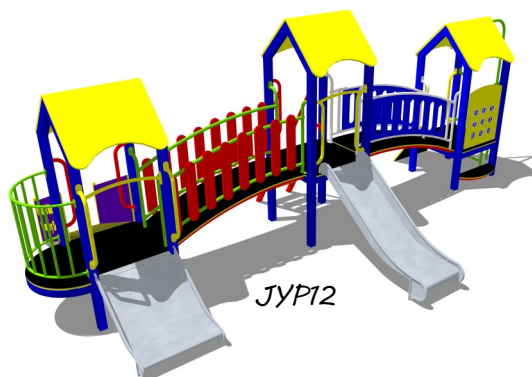

The design of the units enables us to alter the configuration (in most cases) to suit your requirements and to finish them in the colours of your choice.
