Roxy's Ice Cream Food Truck

What is the difference between Roxy's Soft Serve and other soft serve?

We use the best premium soft serve mix and highest cream %, which we CUSTOMIZE to our standards. You will taste the difference. We do not pump air into our ice cream. You will feel the difference in weight.

Remember the paint store commercial a few years ago? "We ain't just paint"? Well, "we ain't just soft serve" We also carry 30 different varieties of frozen prepackaged bars & the faces kids love. We also serve shaved ices in big flower cups where you pick the syrup you like.
