**Binding** - You will need 1 extra fat quarter for additional binding strips for the 16 & 20 block layout quilts

---

**Step 1:** Press and fat quarters and separate into two stacks of light and dark values.

**Step 2:** Layer 4-5 fat quarters of the same color value aligning the left side and bottom. Cut an approximate 18” square from fat quarter layers. Cut all squares in half on the diagonal as shown by dotted line. Set leftover strips aside for binding.

**Step 3:** Stack lights and darks into two piles. Stitch together all light and dark triangles in different combinations. Be careful not to stretch the bias edge. Press seams open. **Square to 16½”**.

**Step 4:** Before cutting, lay each 16½” square with the light on the top left as shown. Working from left to right, make three vertical cuts in the sizes shown below.
