

ambient light technology™

## Application

illume interior windows are an eye catching contemporary design solution to a common construction limitation. illume interior windows offer a sense of openness to a room with the ability to include the aesthetic of familiar comfort lighting to areas where traditional windows typically can't be fitted.

Designed to complement any area of a home or building, illume interior windows can add natural style ambient lighting to any available wall space. The modern contemporary products design is especially effective where installation of a traditional window would be impractical due to the limitations of an obstructed view, opposing wall or adjacent construction.

## Features

- Switchable mains / solar power
- Multiple sizes available
- Auto-adjusts light output
- Modern contemporary design
- Flush or recessed installation
- Battery back-up available
- Window transfers no noise or heat
- Optional Pre-fabricated architraves
