

## illume™ Shaftless™ Solar Skylight System Installation Option 1 - Solar Isolation Switch Kit

If a room needs to be darkened during daylight hours, installing an isolation switch kit is the perfect solution. This is ideal if the illume Shaftless Solar Skylight System is installed in an area such as near a media room.

### PARTS LIST:

- 1x DC Wall Switch
- 1x 2-Core DC Cable (6m)
- 1x Instruction Sheet

### Cable Connection

1. Fit DC cable between Control Module and Solar Panel.
2. Connect:

**BLUE** to Control Module

**YELLOW** to Solar Panel

**Note:** Do not run DC cable alongside AC power.

The switch supplied in this kit is low voltage - **DC ONLY**. It is **NOT** compatible with AC mains power systems and must be installed separately.
