“A customer is the most important visitor on our premises. He is not dependent on us. We are dependent on him. He is not an interruption in our work. He is the purpose of it. He is not an outsider in our business. He is a part of it. We are not doing him a favor by serving him. He is doing us a favor by giving us the opportunity to do so.”

# Natural Stone Quarry

Autumn Mist  
Antique Walnut

Disclaimer: Natural Stone is a product of nature and will vary from batch to batch in color, shape, size, finish, texture and density. These natural variations and characteristics are inherent and is the beauty of natural stone.

---

# History

Stone Universe Inc. (SUI) was founded in 1999 as a wholesale stone distributor in California, USA. We are direct importers of highest quality natural stone products from India, China & Turkey made from antiquestone, limestone, quartzite, slate, sandstone and travertine. We started importing slate and flagstone material in limited and unlimited sizes and excellent quality. In span of 17 years we have become one of the largest importers of natural stone products for your projects. We carry landscape pavers in multiple patterns, Rock Face Patterns, Bullnose, Cobblestone, Column Caps, Driveway Pavers, Flagstone, Ledger Stone, Slab, Steps, Stepping Stone, Thin Venetian, Treads, Wall Caps, Window Sill and we do special order in many different colors and sizes. We list here our high-quality natural stone products all over United States.

Unlike cast concrete pavers, our natural stone can be quarried and cut to fill special orders for custom projects in many sizes and colors. Our goal is to satisfy your requirements for quality natural stone wherever you need it.

### Character of Natural Stone

Slate is a fine-grained metamorphic rock that consists mostly of grains of mica and quartz with small amounts of chlorite, sericite, and other minerals. Limestone is a sedimentary rock composed largely of calcite and aragonite. Sandstone is composed of quartz and feldspar. These natural stones are products of mother nature and will therefore exhibit slight variations in color from lot to lot.

### Advantages of Natural Stone

- The Beauty of natural stone lasts forever
- Naturally slip resistant texture
- Enhances your landscaping for life
- Various sizes allows you to create your own design
- Maintenance free & Eco Friendly
- Easy to install

### Commercial Applications
