HMIS Reminders

- Clients in program (enrollment) report
  - Due by the 7th of each month for **ALL** programs
  - Submitted with client detail
  - In PDF format
  - Enroll at any point NOT just new enrollments
  - Always for the previous month

- Program/grant end dates
  - Program responsibility to provide/update
  - Clients MUST be exited by program/end date

- Program names should match or be as close to funding name as possible
Longitudinal System Analysis (LSA)
formerly AHAR

- Replaces the old AHAR process
- New data reported to HUD
  - Demographics
  - Population groups
  - System use measures
    - Length of time homeless
    - Housing Outcomes
    - Returns to homelessness
Longitudinal System Analysis (LSA)  
formerly AHAR

• Provides a more system level overview
  • Includes RRH
  • Breaks down permanent housing categories
• Better alignment with HMIS Data Standards
• Exported directly from HMIS
• Can affect a CoC’s funding competitiveness

• If this continues, we may have to take further action such as deactivation of your HMIS account as well as requiring that you attend a refresher training
1. Individual is enrolled in a scattered site PSH program and is evicted. The PSH program is still providing case management & other services and assists the client in finding/securing a new unit. They are able to find a unit BEFORE the client actually leaves the first unit. Does the client need to be exited and re-enrolled?

✓ No, do not create a second program enrollment in HMIS (assuming the client moved directly from one unit to another and never lost housing/became homeless)
2. Individual is enrolled in a scattered site PSH program and is evicted. The PSH program is still providing case management & other services and assists the client in finding/securing a new unit. The client stays with friends/family in between units, which is less than 30 days. Does the client need to be exited and re-enrolled?

✔ No, do not create a second program enrollment in HMIS (assuming the client moved directly from permanent housing to the temporary situation, then directly back into permanent housing, and never lost housing/became homeless)
3. Individual is enrolled in a scattered site PSH program and is evicted. The PSH program is still providing case management & other services and assists the client in finding/securing a new unit. The client stays in an emergency shelter in between units, which is less than 30 days. Does the client need to be exited and re-enrolled?

- Yes, the clients should be exited from the project and re-enrolled on whatever day the program begins to work with the client again to re-establish housing.
- Continue working with the client until a new unit is found, at which point a new housing move-in date would be recorded.
- There should only be ONE housing move-in date per enrollment.
Housing Move-In Date

- Applies only to Perm. Housing projects – PSH and RRH
- Entered for Head of Household only
- Always between (or on) Project Start and Project Exit
- Never erase/correct/update a true date – if housing is lost, start a new project record
- Not an outcome in and of itself – merely a point-in-time accounting of housed within the boundaries of a PH project
- Whether you enter a Housing Move-In Date or not depends on each situation
- Review the HMIS Data Manual carefully for guidance
Housing Move-In Date

• For RRH projects only, a Housing Move-in Date must be entered regardless of whether or not the RRH project is providing the rental assistance for the unit. For example, if an RRH project provides supportive services, but is not providing the rental assistance for the unit, a Housing Move-in Date must still be entered to differentiate RRH clients in housing from those still experiencing homelessness.

• For any other project types that are typed as ‘Permanent Housing’ in the HMIS, clients who are receiving pre-housing placement services but are ultimately housed by another project or subsidy source should be exited from the PH project to the appropriate permanent Destination. If the client exits the permanent housing project for a different housing opportunity without physically moving into a housing unit associated with the project, do not enter a housing move-in date, simply exit the client and record the exit destination.

Barriers to Engagement/Housing

- Substance Use
- Frequent Incarceration
- Unable to Locate
  - This is the primary reason why some Wheeler Residents remain in Navigation
  - Moving from one encampment to another
- Criminal Record
  - Difficult finding a willing landlord
- Inconsistent Cooperation
