Texas Home Continuum of Care (CoC) FY2019 Project Competition
Ranking Policy

The Way Home CoC will score all new and renewal projects per the scoring Criteria listed as attachment A and B to this policy with links to the public post.

In accordance with The Way Home CoC’s prioritization policy, the CoC will prioritize projects as reflected below:

**Tier 1:** Per the FY2019 CoC NOFA, Tier 1 will be set to 94% of the Annual Renewal Demand (ARD) + 100% of the Annual Renewal Amount (ARA) for first time renewals which is set at $35,047,719. Component Types will be ranked per the score. If any projects receive the same score, they will be ranked alphabetically per their Agency Name.

- There are a few system projects such as Supportive Services for Outreach, Coordinated Access first time renewals, and HMIS that will be ranked at 50% of the ARD within Tier 1 to ensure they’re protected for the benefit of The Way Home CoC.

**Tier 2:** Per the FY2019 CoC NOFA, Tier 2 will be set to 6% of the Annual Renewal Demand (ARD) which is set at $2,113,468 plus any Bonus applications. Bonus and Domestic Violence bonus will be ranked per their score. If any projects receive the same score, they will be ranked alphabetically per their Agency Name. If a project straddles Tier 1 and Tier 2, HUD will conditionally select the project up to the amount of funding that falls within Tier 1. The balance of the project in Tier 2 will be scored as the first ranked project in Tier 2.

Planning Project: Not Ranked.

As this competition moves forward, there could be an adjustment to this policy to protect those projects housing the most vulnerable in our community. This will be addressed prior to ranking has been made available and approved by the CoC Steering Committee as the governing board for The Way Home CoC.
