

Frequently Asked Questions

Is there a lot of home study for the teaching and assessing qualification?

It would be great if you can put into practice what you learnt in the lesson by carrying out a training session in your workplace.

If you don't have time to complete your presentation and micro teaches during the lesson then this will have to be completed at home.

Can I use the Academy's learners for my assessor award?

Yes, if you are a hairdresser and if you don't have 2 learners in your workplace then you can do your assessments in the Academy's training salon.

If you want to do the assessor award in another sector and you don't have learners in the workplace you could approach your local training provider.

How do I pay for the course?

For the short courses, they will need to be paid in full to be able to confirm your place, but for the NVQ courses they can be paid in instalments agreed between yourself and The Academy.

Equal Opportunities Statement

No applicant or student receives less favourable treatment on grounds of sex, race, colour, nationality, ethnic or national origins, disability, political or religious belief. Students are treated on the basis of their relevant merits and abilities. We welcome applications from all sections of the community.
