

## Stevens Exhibits offers Surreal Platform for Virtual Events!

The Surreal Meeting and Event Platform is the new embodiment of the latest virtual technologies.

Hosted on Amazon AWS Servers, Surreal provides the perfect virtual online environment for tradeshow, exhibits, events, and showrooms.

The Surreal platform succeeds in bringing back the person-to-person relationship building we have lost and so deeply miss in a post Covid-19 environment.

### **What is Surreal? It is tradeshow in real time!**

Fully immersive 3D experience

Multi-player environment capable of 10's of thousands of attendees

Personalized avatar to avatar interactions w/ VOIP (speech-to-speech) communication

Embedded activation of Zoom style meeting functionality, for face-to-face meetings

Platform integration for all types of embedded web and application interactive screens

Exclusive Amazon AWS Cloud-based computation, using Pixel Share Technology

### **What does that mean for our clients?**

No downloads

No installs

Instant access

Compatibility with all mainstream operating systems and browsers

Runs on nearly all CPUs, memory capacities, and graphic hardware

## Let us partner with you on your virtual events.
