

Citizen Budget Committee

Oregon "Local Budget Law" requires that a committee be formed to review and approve the budget each year. That committee must be composed of an equal number of Board of Director members and volunteer citizens who reside within the district. Here is the listing of those volunteer citizens. When combined with the Board of Directors, the full committee has 14 members.

Special Transportation Fund Committee

Oregon law (ORS 391) requires that two cents of the taxes collected on cigarettes must be spent on providing transportation services to citizens who are disabled or elderly. The collected taxes are distributed proportionately based upon population. The law also requires that a citizen advisory committee be formed to recommend to the BTS Board of Directors how the funds are spent.
